THE WEEKLY CRESCENT

Is published every Monday morning at $5 per year, invariably in advance. Having an extensive circulation throughout Louisiana, Mississippi, Arkansas, Alabama, Texas, and other States, it affords to merchants and other advertisers of making known their wants and commodities known. Persons leaving the city during the summer, who desire the Daily or Weekly Crescent forwarded to them, can have either or both regularly mailed for any specified time, by handing their orders and address at the office.

☞ Hons. Miles Taylor and J. M. Sandidge have our thanks for public documents.

☞ The official proceedings of the Board of Assistant Aldermen, of Tuesday evening last, appears on the seventh page. The proceedings of the Board of Aldermen will be published to-morrow's paper.

☞ A few days since we published an extract from the Boston Roxbury Gazette of the 16th inst., stating that "a gentleman from this city, just up from New Orleans, tells us that he finds no less than ninety runaways (negroes) now in the Parish Prison of New Orleans." The article went on commenting on this statement, and by implication casting any amount of censure upon the way such things are done in this city. Unfortunately for the Gazette, the assumed foundation on which it commented did not, nor does not exist. We learn from reliable authority that there is now in the Parish Prison of this city but three runaways—just eighty-seven less than was found by "a gentleman of this city, just up from New Orleans." Of the three in the prison two are now advertised in accordance with law, and the third will be in due time.

NEW BOOKS FROM MORGAN.—We have received from T. C. Morgan & Co.) Exchange Place, a neatly bound volume, containing the lectures of Lola Montez, and a biography of the erratic Countess. It is an interesting book, and the very thing for travelers by rail or steamboat. Publisher, Rudd & Carleton, 310 Broadway, New York.

Morgan has also received Blackwood for June. It is an unusually interesting number.

GEN. QUITMAN.—We sincerely regret to learn that a telegraphic dispatch was received here yesterday from Natchez, announcing that the physicians in attendance upon Gen. Quitman had given up all hope of his recovery, and we hourly expect to receive news of his death. His disease is typhoid fever.

POINT CLEAR.—A note from a friend now stopping at the Point Clear Hotel, gives us an intimation that the season of pleasure at this delightful watering place is fairly under way. Between two and three hundred guests are at the hotel, and the arrival there of the "Gossy" with Commodore Robinson and his Suzy on board, a day or two since, was an event of no small amount of interest. Music and dancing every night, and a general prevalence of gaiety.

PROFESSOR HALE AND ELECTRO-BIOLOGY.—We notice by the Houston (Texas) papers that Professor Hale, who recently closed a highly popular series of lectures in Galveston, is now lecturing and experimenting in the science he teaches, in the former city, where his success and popularity are unbounded. The Houston Telegraph is enthusiastic in praise of the Professor's experiments, which it says are attested by some of the most respectable citizens of the town. We hope Dr. Hale will pay us a visit in the fall.

MYSTERIOUS DEATH.—On the night of the 5th inst. a man named John Bezard went to his boarding-house in Washington and asked for water to bathe his head, saying that some person had struck him with a brick. He retired, and two hours afterward was dead. The next day, while he was being washed, preparatory to burial, a bullet hole was discovered in the back of his head, near the base of the brain. It was said that he was from Texas, and his papers indicated that he had property in California.

A COMMON THIEF IN DISGRACE.—According to the statement of a reliable gentleman, who has recently been North, (says the Virginia Herald) the noted Anthony Burns, a fugitive obtained in Boston only at the point of the bayonet, and who was afterwards purchased and set free, is now in the penitentiary of Massachusetts for the crime of robbery.

BOAT RACING AT YALE.—The "navy" of Yale College has just purchased a six oared "shell" boat, with which they are confident that they can whip the universe. She is built upon the best Brooklyn model. In a race with the Verona and Olympia, hitherto the fastest boats of the fleet, the Verona was beaten by a length, and after changing crews, was beaten ten seconds; the distance is not given. The Yale crews are under system of training, and are in good spirits.

A SINGULAR SUICIDE.—Edward Cole committed suicide near St. Peter, Minnesota, a few days since, under very singular circumstances. He took down his gun, when by some accident it went off and killed his wife. He wrote to his son, informing him of the circumstance, and telling him what disposition to make of his property. He said that himself and wife had not lived on good terms, and that as the accident might be attributed to design on his part, he would prevent any further trouble by leaving the world.

DANGERS OF SOMNAMBULISM.—A young girl, a daughter of Mr. Charles Thompson, formerly State agent on the West Chester Pennsylvania cars, arose from her bed as is supposed while sleeping, and deliberately walked out of the third story window. She fell on the pavement below and was horribly crushed by the fall.

A FREE FIGHT—*One Man Killed.*—The officers of the steamer Linda, which arrived yesterday from Jefferson, Texas, informs us that on Friday last a free fight took place on board the steamer Bloomer, then lying at Jefferson, in which one of the crew was killed; he was knocked or thrown overboard, but the body was shortly afterwards recovered, and his skull was discovered to be badly broken. The mate and a number of the crew had been arrested, and the matter was being investigated before a Justice of the Peace when the Linda left.

RISE IN COAHOMA, MISS.—The Memphis Eagle and Enquirer is informed upon reliable authority that fully three-fourths of the cotton crop has been destroyed by the flood in Coahoma county. The corn crop has suffered even worse. All the plantations from Delta to Island 40 might have been protected from the flood by timely attention on the part of the planters.

A SHOWER OF FROGS.—A recent number of the St. Louis Democrat says:

On the down trip of the steamer Editor in the Illinois, the other night, at 2 o'clock, a shower or stream of the Mormon order fell by pouring upon her decks to the depth of six inches, and it was a very difficult matter to keep them overboard. They were as numerous as to put out the watchman's light and envelop everything in midnight darkness. The trees along the above took as if large down by these shower-loved insects. The visitation is said to prognosticate a sickly season.

FATAL BOILER EXPLOSION.—On the 8th inst. the steam boiler in the Manchester Mills, in Providence, R. I., exploded, killing two men and fatally injuring a third. The building was greatly damaged.

Telegraphed to the New Orleans Crescent.

RIOTS IN CANADA.

Local Intelligence.

AN UNFORTUNATE AFFRAY.—An unfortunate affray occurred on Dryades street, about 5 o'clock yesterday afternoon, between Mr. James Taylor and Wm. P. Grayson, Esq., which resulted in very serious injuries to the latter. According to the information we received, a family difficulty existed between the parties, and as Mr. Grayson was proceeding to dinner, Mr. Taylor stopped him and requested an explanation of remarks which he alleged Mr. G. had made in regard to his (Mr. Taylor's) domestic difficulties. Mr. Grayson replied that he had only said that he, Taylor, had not treated his wife well. Further words ensued, until finally the parties came into collision.

Taylor drew a Colt's revolver, which Mr. Grayson seized, and as they fell, near the gutter, managed to put it into the water and render it harmless as a firearm. Taylor got possession of it again, however, and with the barrel gun-fed in his hand, he beat Mr. Grayson about the face and head so badly, that at first his injuries were considered dangerous. It was ascertained, however, that flesh wounds only had been inflicted, although the cock of the pistol had penetrated to the skull.

Mr. Taylor was arrested, and remains in prison without the benefit of bail, for examination. His presence he will be arraigned this morning.

THE AFFRAY AT MADISONVILLE—*The Case of Colson.*—We learned yesterday that Colson, who has been transferred to Madisonville on the charges of having been concerned in a shooting affair at that place some six weeks since, is in custody by his own voluntary action. He visited the office of the Chief of Police, as we understand, the day before he was locked up, and offered to surrender himself, but was told that there was no sufficient or warrant against him, and no occasion to take him in charge. Contrary to the statements we first made, from information we have since had that he presented himself at the City Hall the day after his visit to the Chief's office, and was then ordered into custody by the Mayor. He asserts that he is innocent of any participation in the shooting, and that he only kept out of the way, at first, for the reason that the excitement in Madisonville was great, and he did not think he would be properly dealt by. It seems probable to us that he could have avoided the investigation if he had chosen to do so.

A PUZZLING CASE.—There is a case of horse stealing at present pending before one of our Recorders, which is so much complicated, and so difficult to unravel, that it has already been continued several times without any definite conclusion having been arrived at. Two different men are in custody on the charge of having committed the theft, and each asserts that the other is the thief. One of them has served one horse stealing term in the penitentiary, and the other, two terms for similar offences, and the Recorder is puzzled to decide which is the most guilty in the present instance. The man who has been in the penitentiary the last once, as a matter of course, contends the other is prior of character, but this point in his favor is counteracted by a balance of bad appearances against him in the affair now pending. The case will have a thorough overhauling on the 27th, when we will give the result.

FOUND DROWNED.—An inquest was held last evening by Deputy Coroner Osborne, on the body of a negro woman found floating in the river at the foot of Mandeville street, Third District. Verdict, found drowned.

DROWNED.—Officers Cragin and Nixon of the First District police, report that a man named John Welch was drowned at post 39, First District, about 5 o'clock last evening. No particulars are given in the report.

BILL HUDSON AGAIN.—Red Bill No. 2 was again before Recorder Summers yesterday, for examination on a charge of threatening the life of John Seller, and walking up and down in front of his house for an hour or two with a rifle in his hand. The affair occurred on the evening of the 1st inst., in Rampart near Liberty street. There was a difficulty on the corner, adjoining the double tenement owned by Mr. Seller, and the latter states that for a considerable time previous to the 1st, Bill Hudson had been in the habit of coming there with a party, drinking and disturbing the peace of the neighborhood. He says that since the occasion which caused him to make the affidavit, he has ventured his own home, as he was fearful of losing his life by remaining there. His lessee, Mr. Morehead, has also removed.

The evidence, however, did not sustain the more serious portion of the charge against Bill, but as Seller had sworn that he was in bodily fear, the Recorder could do no less than order the accused to find bonds in $300 to keep the peace. The Recorder then stated that he had known Hudson several years, and fully believed that he was an enemy only to himself. That he had always considered him perfectly harmless, and did so now. That Hudson was a painter by trade, and only by morning and neglecting his work had he attained his present notoriety and unpleasant position.

Connected, in a certain extent, with the above case, were two others, in which John Seller was prosecutor. Wm. Bennett was charged with having inflicted a tremendous shock upon Mr. Seller's nerves, by taking sight at him with an umbrella. This occurred on the banquette in front of Mr. Seller's house, and the operation raised a huge fear to arise in the breast of the prosecutor that his life was in imminent danger. It was not shown that there was the slightest cause given for Mr. Seller to reasonably apprehend any harm whatever, and Bennett was discharged. The Recorder remarked at the same time that, but for the excitement and peculiar circumstances connected with the case which had preceded it, he would fine Mr. John Seller for bringing a frivolous charge.

The third case was a charge against J. E. E. Mathews for keeping a disorderly house. Mathews is the proprietor of the coffee house adjoining Seller's premises. This charge was better sustained, and Mr. Mathews was fined $25, his license at the same time being declared forfeited.

THE TREME LOCKUP.—The condition of the Treme station lockup, Second District, is represented to be such that confining 10 prisoners in it for quiet to something of a farce, unless a picket guard is constantly kept on hand. Sergeant Fabian says is to this effect, and we think it quite time for some one, whose business it is, to bring the matter before the Council. Upon reflection, we believe the Mayor will call the attention of the Council to the matter on Tuesday night.

THE WAY IN WALKER OFF.—When Tom Conway was before Recorder Summers yesterday, he made a statement of the manner in which he obtained his liberty, which makes the case as clear as mud. He says he was duly "transfer'd" from the First District to the Parish Prison, that he was afterwards taken before Recorder White on a trivial charge and told to bail to keep the peace. Obtaining security a day or two afterwards, he again appeared before the Recorder, signed his bond and walked out of court. He further says he that he was frequently about the court for several days afterwards without being molested, although he was seen by the officers, and that he was on his way to surrender himself when arrested.

RECORDER SUMMERS' COURT.—The cases of drunks before the Recorder yesterday morning, and notably number of the posse, show, 1, the various other consequences of sudan Monday, and that it was largely confined. A goodly amount of fines was levied, but on the other to generally and not imperative to be fully represented in such wealth, we do not think the city was greatly enriched.

John Webber was called up to answer a charge of having assaulted Charles Hiner to an unlawful extent. His case was fixed for the 25th.

John Graham was arraigned on a charge of stabbing Thomas Day, on Saturday last, with the undoubted view of removing him from this wicked world. Mr. Day gave the affair a very provokes, and was made in his own province, No. 25 Calliope street. The affair will be investigated on the 20th.

Six policemen from Conway were arraigned on the original charge against him, and the examination fixed for the 25th.

Owen Cullen was arrested up as a vagrant, and ticketed for sixty days in the Work House. He was then required to give a line of $50 for carrying concealed weapons, or stand sixty days more in the Work House.

Ellen Kilpatrick was arrested on Tuesday night on suspicion of being non compos mentis. She was sent to the lunatic asylum.

Matthew McGill, who was arrested on Tuesday evening as a fugitive from the Work House, was recommitted to serve out his original term, and a new charge was made more for his unglue haste in leaving such an excellent institution.

William Jones was charged by the police with being a dangerous character. Witness says he is the lending of the kind, and the question is to be looked into on the 25th.

The complicated horse stealing case, which we have before mentioned, was again before the court, but the mystery surrounding it could not be penetrated. It was continued to the 25th inst.

Simon Mannion, John Fitzgerald, and Eleanor Fitzgerald were arraigned on a charge of assaulting and beating one Michael of Michael Meagan with a very solid paving stone. Mannion is charged with having been the active party in the assault; the others lending their moral aid to the operation. The affair will receive the further attention of the Recorder on the 30th inst.

James Mackie was also before the court, the proprietor of a whisky mill at No. 12 Gilpot street, was committed, without bail or bail, on a charge of cooling a man named Michael McNally out of a bucket, which ultimately proved to be made, from information and belief.

The accused was sent before Recorder White for examination on the 18th.

RECORDER WILTZ'S COURT.—*Assistant Recorder Bonit presiding.*—There is an affidavit in this court which was made before Recorder Summers by Lieut. Walter H. Stevens, U. S. A., attached to the Quarter Master corps of officers, charging one Henry Mason, alias John Mason, with swindling him out of $15, by representing himself as a cousin of George Mason, of culpeper, a soldier of Col. Cooper, U. S. A., and giving him a draft on G. Mason for the amount. Lieutenant Stevens charges that all the representations of the accused are false. Mason was arrested in the First District and arraigned before Recorder Summers, when, it appearing that the offence was alleged to have been committed in the Second District, the accused was sent before Recorder Wiltz for examination.

Peacock Lefevre and Wiley Jones, f. c. n., were examined on a charge of larceny and concealing a runaway slave belonging to O. B. Chapin. Jones was discharged, and Lefevre was sent before the First District Court for trial.

Pedro Carmona, whose arrest we mentioned yesterday on the charge of revealing stolen property, in whose possession a large lot of stolen property was found by Lieut. Vantrel, was arraigned and committed on examination. A considerable portion of the clothing stolen has been identified.

RECORDER ADAMS' COURT.—Recorder Adams yesterday took the affidavit of Elizabeth Schleier, to the effect that her spouse Jacob Schleier, is decidedly insane, and needs more powerful attention than she can bestow upon him. A warrant was issued for Jacob's arrest, and his mental condition will be enquired into.

Emma Farrell walked into a whisky institution and called for a Boston. The bar-tender looked and walked out, utterly repudiating the demand for payment. Thomas was subsequently compelled to pay $5 for the nonsense drink.

Jacob Graham was held for examination on a charge of having expressed a decided intention of cutting off the existence of Mike Dorsey.

It was made to appear that Jake Lynch had married Mike Kellop somewhat extemporaneously in default of bail, he was committed for trial before the First District Court.

☞ **Shake and Burn!—Shake and Burn!**—This is the life of agony endured by the sufferer from Fever and Ague. He wanders like an uncertain shadow, never knowing what moment he may be prostrated, and therefore disinclined to give any serious attention to business. He is a burden to himself and a burden to his friends, who are worn out in administering to his wants. This is the condition of thousands in town and country. It is no exaggeration to say that Fever and Ague kills more people than any two other diseases in America. For a sure and speedy cure of this terrible affliction, we take great pleasure in recommending Dr. Hostetter's Stomach Bitters, which have already achieved a wide reputation for rapid and powerful effects in recovering the system prostrated by this disease.

DR C. M. JACKSON—Dear Sir: Having received great benefit from the use of Hoofland's German Bitters, I think it my duty as a friend of mankind to let them know it. I had for years been afflicted with dyspepsia, arising from an affection of the liver and derangement of the stomach. I was under the care of the physicians of this vicinity but obtained no relief. I was induced, through the advice of a friend, to commence the use of your Bitters, and took faithfully according to directions three bottles, which entirely cured me, and I now find myself in as good health as I have ever enjoyed.

Respectfully yours,
JOHN C. QUEENS.

EMERY'S
PATENT CORN HUSKING MACHINE,

Now on Exhibition at No. 30 CAMP STREET.

This machine, for simplicity, utility and durability, surpasses anything to that purpose ever brought before the public. It is worked by a treddle, with the foot, and fed with the hands, thus husking from 500 to 600 bushels per day, against the old fashioned way by hand, of which 40 bushels is a large day's work.

Another advantage, besides the saving of time in the husking, is that this machine prepares the husk in the most perfect manner for stripping, which are worth from $60 to $100 per ton as they fall from the machine.

Planters, and the public generally, are invited to call and test the merits of these machines.

Great Louisiana Remedy.
GOINS' KAPERLAPEUM.
Office, No. 14 Exchange Place.

The proprietor and sole manufacturer presents this preparation to the public as a remedy of great value for a variety of very troublesome and dangerous diseases, after twenty-five years' experience in its efficacy.

He can safely recommend it in all Cutaneous Diseases of the Skin, for Baldness, Dandruff in the Hair, Inflammation of the Digestive Organs, Chills and Fever; Bilious, Chagres and Intermittent Fever; Diseases of the Liver and Kidneys, Female Complaints, etc., etc. And in proof that he does so upon good grounds, he would respectfully call the attention of the public to the following certificates from persons living in this city:

NEW ORLEANS, Office, January 20, 1868.

N. B. GOINS—Dear Sir: On my return from Aspinwall in July last, I had a severe attack of Chagres fever, and after trying every imaginable remedy without effect, I was induced to try your "Kaperlapeum," or Fever and Ague Tonic, and am happy to say that, although it is over two months since I took the first dose, I have not been troubled with a chill since, and I have every reason to believe that your medicine has had the effect of entirely removing the disease from my system. It therefore affords me pleasure to recommend it as a most valuable medicine.

Respectfully yours,
L. A. CLARK,
74 Dryades street,
New Orleans, La.

NEW ORLEANS, January 20, 1868.

N. B. GOINS—Dear Sir: I take pleasure in stating that, some four months ago, when suffering with Chills and Fever, which had stuck to me for several months, I was induced to try a dose of your "Kaperlapeum," just before a chill was expected, and such was the effect it had upon me that I determined upon giving it a fair trial, and bought a bottle and took it according to directions. The result was, that before I had half finished the bottle, my chills had left me, and have not since returned. I am now in the enjoyment of perfect health, never having experienced any of the effects of quinine or other drug usually put in medicines for such diseases, and do cheerfully recommend the "Kaperlapeum" to all who are afflicted like I was.

Your friend,
WILLIAM A. GIBSON.

NEW ORLEANS, January 20, 1868.

Mr. GOINS—Dear Sir: I know not how to inform you of the wonderful change your "Kaperlapeum" has made in me. For eight years and four months I suffered with the falling of the womb, and had several of the most eminent physicians of the city, who finally thought my case hopeless and refused to do anything more for me, when my husband found you on the old steamboat Southern Belle and purchased a bottle of your tonic, so justly celebrated as a hair tonic arresting the most refined of the city. It really seems to me that it must be of divine origin. I can hardly realize my great change. I never felt better in my life than I do at this moment. That every poor woman afflicted as I was may get your great tonic, is my most fervent prayer.

I have used "Goins' Kaperlapeum" for fever, and it has cured me entirely; I believe it will cure everything else fails.

A. W. SMITH,

NEW ORLEANS, March 15, 1868.

Mr. Goins: I have been using your "Kaperlapeum" for a female that I have suffered with for the last eighteen years, having during that time been operated upon by Dr. Johnson, of St. Louis, without success. I have been induced to try your "Kaperlapeum," and, I must confess, with perfect satisfaction, and from its beneficial results, I anticipate a speedy cure.
