New Orleans Daily Crescent.

OFFICIAL JOURNAL OF NEW ORLEANS.

JAMES C. NIXON. WILLIAM B. ADAMS.

BY NIXON & ADAMS.

OFFICE, No. 70 CAMP STREET.

TERMS:

The Crescent will be regularly served to subscribers in the city at an early hour every morning, (Sundays excepted,) for $10 a year, in advance; half yearly and quarterly at the same rates, or 20 cents a week, payable to the carriers.

Advertisements, not square—first insertion, in all cases, $1; for every subsequent insertion, 50 cents.

Advertisements on the second page are charged $1 for every insertion.

Advertisements published at intervals, will be charged $1 per square for every insertion.

Advertisements not marked, will be published one month, or longer, and charged accordingly; no advertisement or subscription will be stopped until all arrearages are paid, at the option of the proprietors.

A Liberal Discount will be made to regular advertisers

THE DAILY CRESCENT

Has a circulation which renders it a desirable medium for advertisers. As a Family Paper it circulates largely, reaching many hundreds of homes at an early hour, and being read before the approach of business hours, consequently articles for Family use may be advantageously published in its columns.

THE WEEKLY CRESCENT

Is published every Monday morning at $5 per, invariably in advance. Having an extensive circulation throughout Louisiana, Mississippi, Arkansas, Alabama, Texas, and other States, it presents a favorable mode to advertisers of making their wants and commodities known. Advertisements inserted for $1 per square, each insertion.

THURSDAY MORNING, OCTOBER 7, 1858.

☞ The press of news and advertising matter upon our columns has compelled the omission of our leading and other articles, prepared for this morning's issue.

☞ Mr. J. Gideon, purser of the steamship Black Warrior, has placed us under obligations for valuable memoranda and late papers.

List of Letters.—The uncalled-for letters remaining in the Post-Office, will appear in to-morrow morning's Crescent.

One Hundred Dollars Reward.—This is what is offered for the recovery of the body of Mr. J. H. Charles, whose mysterious disappearance we mentioned in Tuesday's Crescent. We refer to the advertisement of Mr. Richard Charles, in another column.

Washington Artillery.—The monthly meeting of this Company takes place this evening, at the Arsenal on Girod street. See the Secretary's advertised call.

Paul Morphy in Paris.—Private letters to the editor of the Chess Monthly, bring later intelligence from Mr. Morphy than is to be found in our foreign files. His match (for 250 francs aside) with Mr. Harrwitz stands: Morphy 3, Harrwitz 2. The Cafe de la Regence, the traditional *locale* of Parisian chess, and the scene of Philidor's, Deschapelle's and Labourdonais' triumphs, is crowded with spectators whenever our countryman plays. A gentleman now in Paris writes as follows:

The greatest of living French sculptors, Lequesne, the pupil and successor of Pradier, has asked Morphy to sit to him for his bust in marble. Morphy gave him the first sitting yesterday. The bust will be exhibited at the Exposition des Beaux Arts. This is, I think, the highest honor Morphy has yet received. But I can assure you they treat him here like a god. His dines with his Royal Highness the Duke of Brunswick on Sunday. The other night, at the Theater Francais, half the audience stood up and looked at him—he perfectly unconscious until it was pointed out to him. Everybody seeks introductions to him, and the old players of the time of Labourdonnais treat him with the greatest reverence.

After finishing his match with Harrwitz, Mr. Morphy will proceed directly to Berlin and Breslau, to meet Andersen, Lange and Mayet, who, with Von der Lasa, are at present the great exponents of German chess. It is a matter of much regret, both to Mr. Morphy and his admirers, that the diplomatic duties of Von der Lasa (who is Prussian Minister at Rio Janeiro) preclude the possibility of bringing about a meeting between these distinguished players. The last Illustrated News of London gives a portrait and life of Mr. Morphy, together with the eight games played blindfold by him at the Birmingham meeting.

Fever in Mobile.—We learn from the Mobile papers that the yellow fever has almost entirely disappeared from that city.

Important Lawsuit.—The case of G. C. Bates vs. the Illinois Central Railroad Company, involving the title of the Illinois Central Railroad depot grounds, which are valued at two millions, is under trial at Chicago before the U. S. Circuit Court, Judge McLean presiding.

A Singular Quarrel.—The students and town people of Princeton, New Jersey, have been quarreling for the possession of an old cannon, a revolutionary relic. The cannon had been used on Fourth of July celebrations by both the students and the citizens until recently, when it was set as a post at one of the corners of a principal street. The students removed it, whereupon a fight ensued. Quiet has been restored, but the feeling of enmity still remains.

Patents Issued.—Patents have been issued to Owen G. Warren and Samuel Samuels, both of New York, each for an improvement in the method of laying submarine telegraph cables. The patent has been re-issued for House's improvement of a magnetic printing telegraph.

Regatta.—The Autumn Regatta of the New York Yacht Club took place on the 30th ult. The course run was from off Owl's Head, (opposite Quarantine,) around the buoy of the Southwest Spit, from thence to and around the floating light, returning around the Spit buoy, and then to a stakeboat on the upper end of the West Bank. The distance was about forty miles. There were sixteen yachts entered for the race, of which but twelve started. The day was a delightful one, with a light southerly wind at the start, which during the afternoon increased to a good sailing breeze. The Rebecca, Mannering and Fanny, of the first, second and third classes, respectively, won the race.

The Accident of the Hammonia.—A dispatch from Hamburg states that only one passenger was injured by the recent explosion on board the steamship Hammonia—not five, as reported by the Arabia.

A Water Cure in New Orleans.—The virtue of hydropathy, or the water cure, for a great many of the infirmities to which humanity is subject, is so well and extensively known, as to need no elaboration from us. In other parts of the country hydropathic infirmaries have been noted for the success of their treatment, and are constantly flocked to by people who, with few or no exceptions, leave with them the full acknowledgment of their great efficacy.

To those who are afflicted with any of the infirmities, acute or chronic, which yield to the hydropathic treatment, it will be a glad thing to know that Dr. Wm. G. Reed, a gentleman thoroughly versed in that branch of the curative science, has located in this city, and opened his office at No. 166 Carondelet street, corner of Lafayette. He was long connected with the Auburn Water Cure in Alabama, and is thoroughly competent to administer that treatment to all who may stand in need of it. No drugs whatever are used, and fevers as well as other ailments yield to the watery treatment.

We direct the attention of all whom it may concern to Dr. Reed's card, in another part of our paper.

Extensive Sale of Boots and Shoes.—The parties attention of buyers is called to the extensive sale of boots and shoes, to take place this day, at 10 o'clock A. M., at E. Rogers & Co.'s auction room, No. 28 Old Levee street. Terms at sale.

For St. Louis.—The splendid and fast passenger packet T. C. Twichell, Capt. H. G. McComas, leaves for St. Louis and all intermediate landings this evening, at 5 o'clock, connecting at Memphis, Cairo and St. Louis, with the railroads for all the Northern and Eastern cities. Messrs. Roh, Buchanan & Co. are her agents.

Bonnabel's Bi-Sulphite of Lime.—Mr. H. Bonnabel, proprietor of the Southern Chemical Works, is now producing a perfect article of bi-sulphite, in the largest quantities. Sugar planters and others again will remember him. His office is at No. 6 Front Levee street, between Bienville and Conti houses. See his card.

Salt and Coal.—Large quantities of common salt and of English Cannel Coal are offering by Wears, S. Jones & Co., No. 91 Gravier street. See advertisement.

Dyeing and Scouring.—Mr. J. Bontemps, No. 69 Bourbon street, is a master of the art of recovering garments, etc., by the process of dyeing and scouring, and offers his services to the public in that capacity. He has assumed the business of the establishment of No. 23 Royal street; and this, with his twelve years' experience of it in every place on Bourbon street, will satisfy all who may wish any dyeing or scouring done that he is the man to go to. See his advertisement.

Washer and Ironer Wanted.—See advertisement to this effect, in another column.

Telegraphed to the New Orleans Crescent.

LATER FROM HAVANA.

ARRIVAL OF THE STEAMSHIP BLACK WARRIOR.

[BY THE BELIZE AND NATIONAL LINES.]

Belize, Oct. 6—The steamship Black Warrior, from New York and Havana, which latter place she left on the 2d inst., passed up at 11 o'clock this morning.

The Black Warrior brings intelligence of a disastrous occurrence in Havana, which not only destroyed many lives but much valuable property, and involved the whole city in confusion and dismay.

The large naval magazine at Havana, filled with powder, shells and rockets, blew up on the afternoon of the 29th ult.

By the explosion 28 persons were instantly killed, and 105 were wounded.

[Particulars are given in another column.]

Havana Markets.

Havana, Oct. 2.—Sugar declined a trifle, 10½ reals. Stock 120,000 boxes. Lard is in active demand, $17 75 per quintal for tierces and barrels; $18 for kegs. Stock 1500 barrels and tierces—4000 kegs. Exchange on London, 16½; New York, 4¼; New Orleans, 5¼.

Arrival of the Mexico.

Southwest Pass, Oct. 6.—The steamship Mexico, Capt. Lawless, from Galveston and Matagorda Bay, passed up at 5 o'clock this afternoon.

Later from Arizonia.

Washington, Oct. 6.—Letters received here from Arizonia state that the Fort Yuma wagon road was nearly completed, and would be opened in a short time.

The Silver Mines.

The San Pedro silver mines were yielding more largely than ever, and several new mines had been opened.

Later from Utah.

Salt Lake City, Sept. 11.—The California Overland mail was robbed in Carson Valley by the Indians.

Overland Mail Route.

Memphis, Oct. 6.—The Overland Mail Route to California is progressing satisfactorily.

The Governor of Kansas.

Washington, Oct. 6.—The Administration has requested Governor Denver, of Kansas, to withdraw his resignation.

The Crystal Palace Fire.

New York, Oct. 6.—The loss by the burning of the Crystal Palace, yesterday afternoon, is estimated at $750,000, of which the loss on the building is estimated at $250,000, and of the goods on exhibition $500,000. The articles and goods destroyed were of the most costly description. It is supposed to have been the work of an incendiary.

There was but a trifling amount of property saved from the Crystal Palace building—a few small articles only.

The whole amount of insurance on the building and contents is only $60,000.

A Slave Rescue.

Chatham, Canada West, Oct. 6.—Some ten or twelve negroes were arrested here to-day for forcibly taking a slave from the cars of the Great Western Railroad. The slave was the property of Mr. Merlin, of St. Louis.

The Atlantic Cable.

Trinity Bay, Oct. 6.—No signals have been received from Valentia to-day.

Arrival of the Arago.

New York, Oct. 6.—The screw steamship Arago, of the New York and Havre line, has arrived at this port. Her advices have been anticipated by the Hammonia and Nova Scotia.

Sailing of the Niagara.

Boston, Oct. 6.—The Cunard steamship Niagara sailed for Liverpool to-day with $100,000 in specie freight on board.

Non-Arrival of the Canada.

Halifax, October 6.—The Cunard steamship Canada, now fully due from Liverpool with dates to the 25th ult., has not yet been signalized.

Postmaster General.

Washington, October 6.—Postmaster General Brown leaves Washington to-morrow for a visit of a few days in Tennessee.

The Nicaraguan Ministers.

Washington, Oct. 6.—The Nicaraguan Minister, Yrissarri, is not superseded by the reception of Jerez. The former represents that he has full powers to ratify the Nicaraguan treaty.

Orders to the Central American Squadron.

The Secretary of the Navy has sent out additional instructions to our naval officers at the eastern end of the Nicaragua Transit route, respecting the protection of American interests and the lives and property of citizens of the United States.

Extensive Defalcation.

New York, Oct. 6.—Robert Canning Brown, a clerk in the Liverpool and London Insurance Company's employ, was arrested to-day for defrauding the Company to a large amount.

New York Markets.

New York, Oct. 6.—The Flour market closed with a declining tendency; moderate sales at $4 55 to $5. Wheat has a declining tendency. Mixed Corn, 69 to 73c. Pork dull, and prices unchanged.

Talk on 'Change.

The congregations at the several corners are increasing daily. Sickness or no sickness people are coming into the city daily in great numbers. Since the 24th September, 48 vessels from sea have arrived at our levee, mostly large vessels, and 62 steamboats from the interior—say 110 arrivals—and how many of these brought less on an average than fifty persons, the majority of whom were fit subjects for the fever? We verily believe there have arrived in the city within the last fifteen days between seven and eight thousand persons subject to the fever. Is it any wonder that our hospitals, our charitable association reports, with the private practice of our physicians, and thermometary returns, show no larger decrease than they do? As we remarked on the 20th of August, after the fever was considered as an epidemic, that it would take sixty to eighty days for it to run its course, we are not disappointed at the result; and it is more than probable that our talk will prove correct. Our permanent and acclimated residents are returning daily. In fact, so far as the sea-shore suburbs are concerned, old residents might as well be in the city. The talk is that the pine woods country is impoverished, and cannot supply the requisite marketing for the sojourners on the sea-shore. The disciples of Isaak Walton do not meet with the usual luck in fishing, and at some of the watering-places it is with great difficulty that daily marketing is procured. On the line of the Jackson Railroad the fare and supplies are better.

Our advices from New York, to the evening of the 30th ult., give us to understand that there are hundreds, perhaps we might say thousands, of persons waiting for the abatement of the sickness. As we said to them last month, they can with safety return about the 1st of November. The probation to that time will be healthful to them.

The talk for two days past was of a probability of a change in the weather; but it turned out, up to last evening, all probability, for not a scintilla of a change was realized. The clouds looked watery, and a little sprinkling of rain was all. However, as we have had just such weather at this season of the year before, there is nothing extraordinary in the course of the elements.

There was not much going forward on Carondelet street yesterday. Many parties were occupied in the early part of the day in perusing and replying to their correspondence by the Arabia. Possibly they will get to work to-day, particularly if the Canada's advices of the 25th ult. are received, and sustain the advices of the 22d.

The receipts of cotton yesterday were 3380 bales, including the receipts by the Jackson Railroad on Tuesday night. The receipts for the corresponding day last year were 1550 bales.

By the following letter from our correspondent in Liverpool, it will be seen that his views of the future for cotton are of great consumption and a further advance in prices:

Per Arabia.] Liverpool, Sept. 18, 1858.

As I wrote you some weeks ago, the consumption (which has been and continues to be so large), begins to tell on stock, and in consequence on prices.

You have this or any demand to the crop, by worms or rust, has startled Mr. Bull very much. Moderate great deal more cotton will be wanted than ever before, for China, and you may well expect good prices for the crop now coming into your ports.

Refer to inclosed for quotations. Sales to-day (Saturday, 12 M.) 10,000 bales in favor; if not faster prices than any yet obtained this week.

Under our monetary head will be found the weekly financial and commercial reports of the English markets.

The Black Warrior brings accounts of a tremendous explosion in Havana. The Dons were under the impression that the Filibusters had landed and taken the Moro Castle.

Anniversary Events—Oct. 7.

1849—Louis Batthyanyi, Prime Minister of Hungary, shot at Pesth, to please Gen. Haynau. Same day, death of Edgar A. Poe, the poet, at Baltimore, aged 37.

1841—Revolution in Spain quelled by Espartero and Gen. Diego Leon executed.

1840—William I, King of the Netherlands, abdicated in favor of his son William II. The abdication was made in order to marry the Countess d'Oultremont, a Roman Catholic lady, for which purpose he took with him a private fortune of $43,000,000.

1812—Battle of the Moskwa, between 150,000 French under Napoleon, and 150,000 Russians under Cutusoff; a drawn battle, in which 80,000 men were killed.

1810—The British took Coimbra, in Portugal, from the French.

1807—Bonaparte ordered a second conscription of 80,000 men.

1794—Antoine Joseph Gorsas, a Girondist, guillotined at Paris. He was a learned man; a teacher and an editor, and one of the first instigators of the revolution.

1780—Battle of King's Mountain, South Carolina, and defeat of the British.

1777—Second battle of Stillwater, in which the Americans were gaining the advantage, when night stopped the conflict.

1765—First Congress of the American colonies met at New York.

1709—Battle near Lesno, in which 40,000 Russians under Peter the Great intercepted 16,000 Swedes who were going to the aid of Charles XII. It was a running fight of three days, during which there were five stoppages and pitched battles; but the valiant Swedes were at last defeated, and reached Charles with only 5000 men, leaving nearly all their baggage and artillery in the hands of the Russians.

1577—Death of George Gascoine, who wrote the first prose comedy in the English language.

1571—A naval battle of Lepanto, between the Turks on one side, and the Venitians, Germans and Spaniards on the other. The Turks were defeated with the loss of all their great commanders, 25,000 men killed, 10,000 taken prisoners, and 200 galleys taken or destroyed. The Christians lose 10,000 men. This being the greatest sea-fight of modern times, and the first Christian victory over the Turks at sea, it created the most immense sensation throughout the Christian world.

1492—The ship Nina, of Columbus's fleet, being ahead, supposed she had discovered land, and hoisted a flag and fired a gun. This proving to be a mistake, an insubordination broke out among the crews of the different vessels; and Columbus and his brother commanders had to agree that if land were not reached in three days more of westward sail, they would put back for Spain.

929—Charles the Simple, of France, died in prison, having been taken in battle by Hugh, seven years previously.

A Dentist Tried for Rape.—A dispatch of the 29th ult. from Washington says:

The trial of Dr. Webster, dentist, charged with committing a rape on a patient under the influence of chloroform, took place yesterday. A verdict of not guilty on the capital charge, but guilty of an attempt, was rendered. A new trial was moved.

Did not Lecture.—DeBiviere's proposed lecture in New York, on the 29th ult., had to be postponed in consequence of his arrest on a charge of sending a challenge to Mr. Grant to fight a duel. He was held to bail in the sum of $2000.

MARRIED:

On the 24th ult., at the residence of Mr. Richard Allen, near Lockport, by Rev. John N. Harrison, of this city, to Miss Sallie Allen.

DIED:

On Wednesday, 6th inst., Geo. W. Cox, aged 43 years, a native of North Ireland.

On Wednesday, 6th inst., Mrs. Jane Ann Ames, wife of Dr. S. Ames, aged 34 years.

On Wednesday, the 6th inst., Edward West, son of the late Dr. R. West, aged 32 years.

On Wednesday, 6th inst., of yellow fever, Augustus, infant son of Wilson James and Cecile Agnes Freeman, aged 2 years and 12 days.

On Wednesday, 6th inst., Patrick Kelly, aged 36 years, a native of Ireland.

On Wednesday, 6th inst., Thomas W. Marshall, aged 42 years, a native of Virginia.

On Tuesday, 5th inst., of yellow fever, John W. Blackman, jr., son of Dr. E. W. Blackman and Bettie Cosgrove, aged 3 years and 6 months.

On Tuesday, 5th inst., Henry V. Miller, aged 15 years, son of John H. Miller.

On Tuesday, 5th inst., of yellow fever, Marvin S. Jefferson, aged 28 years, a native of Wellsville, N. Y.

On Sunday, 3d inst., of yellow fever, Thomas Ryder, a native of Glasgow, Scotland, aged 34 years.

On Sunday, 3d inst., Mary McNeil, aged 5 years and 9 months, youngest daughter of Hugh and Isabella Mahon.

At Galveston, Texas, on the 27th ult., of yellow fever, Mr. Christopher V. Herbert, aged 36 years.

☞ **Richard Charles, 57 Carondelet street,** will be thankful to any person in town who have forwarded packages, parcels or letters by his son, J. H. Charles, last Saturday evening, to Pass Christian, Mississippi City or Biloxi, to inform him thereof. 67 2t*

☞ **Dr. J. Hostetter's Celebrated Bitters**—These Bitters are universally acknowledged to be a sure preventive and cure for Fever and Ague, Flatulency, Heartburn of the stomach, or any other like affection. Their effect upon the system is most miraculous; they give a healthy tone to the system, removes all morbid matter, and in fact, thoroughly cleanse the system of all impurities. The proprietors, in presenting this preparation to the public, assure them that in no single case, when it has been used according to their directions, has it been known to fail, but in the most confirmed cases, new strength have been discovered to its use. To those afflicted with any of the above ills of the body, the "Bitters" are offered as a speedy and certain cure. Try them and form your own opinion. For sale by Druggists and Retailers generally everywhere. o4 2p&1W

☞ **Counterfeit Scheidam Schnapps**—We beg leave to call the attention of our readers to the advertisement of Rudolphio Wolfe, in to-day's paper. o2 2p&1W

☞ **The great strengthening and tonic medicine is Hoofland's German Bitters.** It gives you an appetite, it makes you feel well, it cures the Dyspepsia, and diseases arising from a disordered stomach.

Principal office, 631 Arch street, Philadelphia, Pa. Sold by druggists or store-keepers in every town and village in the United States, Canada, West Indies and South America, at 75 cents per bottle.

See that you get Hoofland's German Bitters.

Sold in New Orleans, wholesale and retail, by J. Wright & Co., Nos. 13 and 151 Chartres street. o2 2p1m&W

Great Louisiana Remedy.

GOINS' KAPERLAPEUM.

Office, No. 11 Exchange Place.

The proprietor and sole manufacturer presents this preparation to the public as a remedy of great value for a variety of very troublesome and dangerous diseases, other twenty-five years' experience to the efficacy.

The unsolicited testimonials in all instances—Diseases of the Skin, for Rheumatism, Disorders in the Hair, Discoloration of the Digestive Organs, Chills and Fever, Bilious, Congress and Intermittent Fever, Diseases of the Liver and Kidneys, Female Complaints, etc., etc.—And in proof that he does so upon good grounds, he would respectfully call the attention of the public to the following certificates from persons living in this city:

New Orleans, January 29, 1858.

N. B. Goins—Dear Sir: On my return from Cuba, I had a severe attack of Chagres fever, and after trying many (supposable remedy without effect), I was induced to try your "Kaperlapeum," or Fever and Ague Drink, and am happy to say that, although it is over two months since I took the first dose, I have not been troubled with a chill since, and I have every reason to believe that your medicine has had the effect of entirely removing the disease from my system. It therefore affords me pleasure to recommend it as a most valuable medicine. Respectfully yours,

L. A. CLARK,

74 Bienville street,

New Orleans, La.

New Orleans, January 26, 1858.

Mr. Goins—Dear Sir: I have pleasure in stating that, some four months ago, when suffering with Chills and Fever, which had stuck to me on investigation, I was induced to try a dose of your "Kaperlapeum," just before a chill was expected, and such was the effect it had upon me that I discontinued upon giving it a fair trial, and bought a bottle and took it according to direction. The result was, that before I had half finished the bottle, my chills had left me, and I have not since returned. I am now in the enjoyment of perfect health, never having experienced any of the effects of quinine or other nauseating and mercurious remedies for such diseases, and do cheerfully recommend the "Kaperlapeum" to all who are afflicted like I was.

Your friend,

WILLIAM A. GIBSON.

New Orleans, January 30, 1858.

Mr. Goins—Dear Sir: I know not how to thank you of the wonderful change your "Kaperlapeum" has made in me. For eight years and four months I suffered with the falling of the womb, and had several of the most eminent physicians of this city, who finally thought my case hopeless and refused to do anything more for me, when my beloved friend you on the old stone front southern block and purchased a bottle of your medicine, which celebrated me a half-sister among the most refined of the city. It really seems to me that it must be of divine origin. I can hardly realize my good fortune. I never felt better in my life than I do at this moment. That every poor woman afflicted as I was may get your great medicine is my most fervent prayer.

MARY SIKES,

86 Hevia street,

New Orleans.

New Orleans, March 16, 1858.

I have used "Goins' Kaperlapeum" for chills and fever, and it has cured me entirely; I believe it will cure when everything else fails.

A. W. SMITH,

New Orleans.

New Orleans, March 15, 1858.

Mr. Goins: I have been using your "Kaperlapeum" for a fever that I have suffered with for the last eighteen years, having during that time been operated upon by Dr. Johnson, of St. Louis, without success. I have been induced to try your "Kaperlapeum," and, I am sorry to say, with perfect satisfaction, and from no beneficial results, I will remain a steady user.
