New Orleans Daily Crescent.

TUESDAY MORNING, APRIL 12, 1859.

[illegible] Rights then before them the most clear-sighted statesmen could not foresee how important to the prosperity, strong and healthy progress of the country was the continuance of the institution in the South, where peculiarity of productions, and physical and climatic characteristics render negro labor necessary. Pro-slavery controversialists have always seemed to shy at this argument, the Washington emancipation, as if it were a little too tough to be grappled with—a knock down argument, in fact, which could not be met without reflecting upon that illustrious man, and thus producing the very spirit of patriotism; but we recognise no such dilemma, and cannot see but that it may be met to the confusion of the sophistical advancer, and without derogation from the qualities of general intellect and shrewd intelligence possessed by Washington.

Anniversary Events—April 12.

1555—The United States gave the twelve months notice to Denmark of their intention to terminate the treaty of 1826, by which the payment of sound dues was recognized.

1654—A review of 25,000 troops in Paris, before the British officers.

1849—Signor Gasparis, at Naples, discovered a new planet, making the fourth added to our system in four years.

1834—N. G. Dufief, a French linguist, died. His mother was distinguished for her heroism in the Vendean war; and the son was driven to America by political disturbances, and resided at Philadelphia. He just survived the publication of his great work, the "Pronouncing Dictionary."

1829—Felix Neff, a Swiss preacher, died. He undertook to improve the education and domestic habits of the peasants of the dreary regions called the High Alps of France. He persevered a number of years with much success; but his unremitting labors destroyed his constitution, and led to a premature death.

1815—Great eruption of Tomboro, which commenced on the 5th. The explosions resembled the firing of cannon, and were heard at Sumatra, not nearer than 900 miles. Such were the tremendous effects of the burning lava, the overflowing of the sea, the falling of houses, and the violence of the whirlwind, that out of 12,000 inhabitants on this island only 26 survived. At Java, 300 miles distant, the air was so full of ashes as to produce profound darkness at mid-day; and at Bima, 40 miles distant, the roofs of many houses were crushed by the weight of ashes falling on them.

1814—Count d'Artois, brother of Louis XVI, entered Paris; Bonaparte set off for the island of Elba; intercourse between France and England opened; and a grand illumination in London on account of the restoration of the Bourbons and p e w h France, which was continued three days.

1810—The French captured the East India Company's settlement at Tapanooly, in Sumatra.

1808—The French fleet in Basque roads destroyed by the British under Admiral Cochran. The British lost but 10 killed and about 40 wounded. The loss of the French in vessels and men was tremendous.

1788—The first power loom began to work at Philadelphia, and on the first of November following the quantity of cloths manufactured was 3,719 yards jean, 580 corduroys, 67 federal rib, 57 beaver fustian, 3,672 plain cottons, 123 birdseye, and 2,879 linen; total 11,197, besides the quantity then in the looms.

1782—Action off Ceylon, between the French, under Admiral Suffrein, and the British, under Hughes. British loss, 144 killed and 400 wounded.

1782—The French fleet, under Count de Grasse, defeated by the British, under Rodney, with the loss of 9,000 killed and wounded. A French 74 gun ship was blown up, and one of the same rate sunk; two 74's, one 64, and the Ville de Paris, of 110 guns, having on board the French Admiral, were taken. Thirty-six chests of money, the whole train of artillery, battering cannon, and traveling carriages, were on board the captured vessels—a circumstance which totally disabled the French from carrying on offensive operations against the British possessions in the West Indies. British loss, 1,050 killed and wounded. A new system of tactics for breaking through the line of an enemy was here made use of for the first time. It was invented by John Clerk, of Eldin, a country gentleman, unacquainted with navigation. His principles have since been applied by all the English Admirals, and Howe, St. Vincent, Duncan and Nelson owe to them their most signal victories.

1780—The British opened their fire upon the American batteries at Charleston, which they continued until the 20th.

1770—George III gave his assent to the act for repealing the duties on glass, paper and colors in America; but the duty was continued from a point of honor, and as a badge of sovereignty over the colonies.

1765—Edward Young, the English poet, died, aged 84. He was educated for the church, but was unfortunately induced to abandon it for politics, in which he was unsuccessful. His "Night Thoughts" had their origin in a melancholy state of mind, produced by his misfortunes.

1749—Francis Bellenger, a learned doctor of the Sarbonne, died at Paris. He translated some of the ancient historians, and wrote criticisms on Rollin's works, to show his ignorance of Greek.

1749—British ships Namur, 74 guns, 700 men; Pembroke, 60 guns, 400 men; Apollo, 40 guns, 300 men; and a great many merchantmen, lost on the coast of Coromandel; 23 men only saved from the Namur.

1734—Thomas Fantet de Lagny died at Paris. His mathematical efforts and researches were directed more to subjects of curiosity than utility. He carried the quadrature of the circle to 120 decimal places.

1704—James Benignus Bossuet, Bishop of Meux, in France, died. He distinguished himself as a preacher and a writer of great erudition. His works were published in 12 vols. quarto.

1646—Francis de Bassompierre, Marshal of France, died. He was one of the most distinguished and most amiable men of the court of Henry IV. Incurring the displeasure or the jealousy of Cardinal Richelieu, he was sent to the Bastile, where he remained 12 years, until the death of the Cardinal. He wrote his own memoirs and a history of his embassies while in prison.

1443—Henry Chicheley, Archbishop of Canterbury, died. His talents fitted him for the office; and the office enabled him to exercise his benevolence and charity with munificence. He founded the College of All Souls.

1204—Siege of Constantinople by the French and Venitian crusaders. In the pillage which followed the conquest of this superb city all the admirable monuments of Grecian art were demolished, including a colossal Hercules, by Lysippus. This deed by Christians is a great offset to the wanton depredations upon works of art of which the Turks and pagans are so often accused.

276—Marcus Claudius Tacitus, Emperor of Rome, died, at Tyana upon Saurus. He claimed descent from Tacitus the historian; was a wise, benevolent, and patriotic ruler, and had reigned but six months when he was snatched away by assassination or some violent disease.

65—Lucius Annæus Seneca, the Roman philosopher, destroyed himself by order of Nero. He was born in the first year of the Christian era, received a careful education, and became a disciple of the stoic school of philosophy. He was the tutor of Nero, who, listening to the calumnies of his enemies, had him accused of treason and condemned. He professed a contempt for luxuries, but was not indifferent to wealth, for he acquired an immense estate. His "Morals" have often been republished in English.

205 B. C.—The shrine of the potent goddess Cybele received at Rome from Pessinus, and deposited in the temple of Victory; Scipio Africanus and Crassus Dives, consuls. This was done in pursuance of an oracle in the sybilline books, which affirmed that if a foreign enemy invaded Italy they might be vanquished by introducing the goddess Cybele into the capital.

ROUTE TO THE GOLD MINES.—The St. Louis Republican publishes the following dispatch:

LEAVENWORTH, April 6.—Further news has been received from the exploration party sent out by Russell & Jones. The report speaks again favorably of the country explored. Grass, water and wood were found abundant. That portion of the proposed Pike's Peak express route, the passage of which was expected to be most difficult, proved to offer no serious obstacles to the ready transit of coaches and trains over at the present time.

DESTRUCTIVE FIRE.—On the evening of the 6th inst. a fire occurred in an extensive furniture establishment in Broadway, New York, which destroyed property to the amount of $12,000.

DRUGS AND MEDICINES.

G. N. MORISON & CO., WHOLESALE DRUGGIST, No. 13 Magazine street.

Having received a new and extensive stock of fresh DRUGS MEDICINES, CHEMICALS, PERFUMERY, SURGICAL INSTRUMENTS, PAINTS, OILS, GLASS, etc., etc., respectfully inform Merchants, Planters and Physicians that they are prepared to supply them with every article in the Drug line they may require, all of the purest quality, at as reasonable prices as they can be purchased in the city. JOHNSTON & TURNER,

St. Charles Hat Emporium,

Under the Hotel.

FACTS AND SUGGESTIONS, CLAIMING THE consideration of all those conducting business, either on a large or small scale in the city or country:

As a perfectly reliable SAFE saves, when encountering fire, from a hundred to a thousand times its cost, it is anything but true economy to dispense with the use of such an article, or to confide in one that is liable to deteriorate, thus becoming unreliable when old.

The subscriber has constantly for sale, SAFES made in New York, St. Louis and Boston, which are not only ostensibly, but also permanently fire proof. This he is prepared to demonstrate to those who may visit or address him, by publications designed for distribution; and he better expects no visitors any to purchase, unless fully satisfied that their own interest counsels them to do so.

A Safe is an indispensable to those having occasion to keep books, papers, money, jewelry, etc., as is a fire policy to those owning stocks of merchandise; and the foregoing brief allusion to a precaution of inestimable importance will, it is hoped, induce many of the former class to appreciate the necessity of investigating a subject so intimately connected with their pecuniary welfare.

ISAAC BRIDGE,
m18 1m 21 Magazine street.

J. WRIGHT & CO.

DR. WRIGHT'S CELEBRATED REJUVENATING ELIXIR,

Prepared on the strictest Pharmaceutical Principles, by one of the Ablest Chemists of the Age.

NO MINERALS.

Dr. Wright thinks it well to stake his professional character on the fact that no minerals whatever from the least component part of the ingredients in his REJUVENATING ELIXIR—well knowing what ruin has been entailed on the community by opium and mercury.

Generally, to the debilitated, Dr. Wright would say, never despair. No matter how worn down you may be—no matter how weak you are—no matter what the cause may have been—forsake at once whatever has led you to depart from Hygienic principles; take his

REJUVENATING ELIXIR,

and you will soon find yourself a new man, a pride instead of the reverse, to your friends, and a healthy, sound and worthy member of the whole human family.

For sale by the Proprietors,

J. WRIGHT & CO.,
21 and 151 Chartres street, New Orleans, La.,
Sole Proprietors.

And by Druggists generally throughout the United States.

BELMBOLD'S EXTRACT BUCHU.

JOY TO THE AFFLICTED.

It cures Nervous and Debilitated Sufferers, and removes all the symptoms, among which will be found—

Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite, with Dyspeptic Symtoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruption on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with

Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility; Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more Dread for fear of themselves, no Repose of Manner, no Earnestness, no Speculation, but a Hurried Transition from one question to another.

These symptoms, if allowed to go on—which this medicine invariably removes—soon follows LOSS OF POWER, FATUITY and EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—INSANITY AND CONSUMPTION! The records of the INSANE ASYLUMS, and the melancholy deaths by CONSUMPTION, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither mirth nor grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

"With woeful measures wan despair
Low sullen sounds his grief beguiled."

Debility is most terrible, and has brought thousands upon thousands to untimely graves, thus blasting the ambition of many noble youths. It can be cured by the use of this

INFALLIBLE REMEDY.

General Agents.

WINER'S CANADIAN VERMIFUGE.

IMPORTANT MEDICAL INFORMATION.

The late Dr. Chapman of Philadelphia has laid it down as a rule, that "worms may be suspected in a child where there is emaciation, and especially weakness of the bowels, accompanied by a discharge of slime and mucus," and all medical authorities agree that to work a thorough cure, the stomach and bowles must be invigorated as well as the worms themselves discharged. *Winer's Canadian Vermifuge* fulfils both these conditions. It not only extirpates the vermicules, but strengthens the digestion, increases the solvent power of the gastric juice, and imparts a healthy action to the bowels. Hence its cures are complete and permanent.

THE IDEA OF THE LIVING BODY

Being the receptacle of greedy worms, is sickening; and yet six out of every ten children are more or less afflicted with them. Why should this be the case when there are volumes of testimony to prove that a few doses of Winer's Canadian Vermifuge will eradicate the disease? Parents make a note of this established fact, and remember that the medicine is free from all deleterious substances.

PAINLESS IN ITS OPERATION.

Certain in its results; free from all mineral substances, and invigorating to the system; these are the merits of WINER'S CANADIAN VERMIFUGE, a preparation which eradicates every class of internal worms, with a degree of dispatch that is as agreeable as it is astonishing.

For sale in New Orleans wholesale and retail by

J. WRIGHT & CO, Sole proprietors.

DALLEY'S MAGICAL PAIN EXTRACTOR.

THERE IS NOTHING LIKE IT.

How much pain and suffering—nay, even life itself—may be saved, by having a supply of "Dalley's Magical Pain Extractor" on hand, in case of sudden accidents. In cuts, wounds, burns, scalds, sprains and bruises—casualties in which children are constantly subject—the action of the Pain Extractor is ever the same. Families should never be without it. Full directions accompany each box. The genuine is always signed HENRY DALLEY, manufacturer, upon a steel engraved label.

DALLEY'S MAGICAL PAIN EXTRACTOR

Has now been in use over thirty years; there is hardly a person but what has heard of it, and not a family that has used once, that could be induced to be without a box on hand in case of sudden accident. Where once used it is sure to become a standard remedy, because it has no equal in curing burns, scalds, cuts, wounds and bruises, fever sores, piles, and all other inflammatory and cutaneous diseases, where the parts affected can be reached.

A WORD TO FAMILIES.

When you look around your houses, and you think there is nothing wanting, your children all playful and smiling, and everything foreboden comfort and happiness, suddenly one of the dear young ones falls, and a deep cut is the result of the accident. You now look everywhere for relief and you can't find it—why? Because you have neglected to have on hand a box of "Dalley's Magical Pain Extractor"—this is the whole trouble. Remember and always have it on hand. Instant relief will be at hand.

DALLEY'S MAGICAL PAIN EXTRACTOR

Will subdue the pain and inflammation from the severest burns or scalds, in from one to twenty minutes, heal the wounds without scar, and effectually cure fever sores, piles, salt rheum, fetlam sore throat, rheumatism, sore and inflamed eyes, cuts, wounds bruises, old sores, scald head, corns and bunions, sprains, swellings, felons, chilblains, bites of insects, sore nipples or swelled or broken breasts, and all other inflammatory and cutaneous diseases, where the parts affected can be reached.

For sale in New Orleans, wholesale and retail, by

J. WRIGHT & CO.,
21 and 151 Chartres street.

Sole agents for the Southern States, and to whom all orders should be addressed.

FEVER AND AGUE.

OSGOOD'S CHOLAGOGUE.

This is the only sure and certain remedy for this baleful disease. No one need ever again complain of having it, unless they have never taken this celebrated remedy. If once they take

OSGOOD'S CHOLAGOGUE,

then farewell to Chills and Fever forever.

For sale in New Orleans, wholesale and retail, by

J. WRIGHT & CO.,
21 and 151 Chartres street.

Sole Agents for the South, and to whom all orders should be addressed.

GREAT DISCOVERY.

Ample tests, both by able practitioners and chemical analysis, have demonstrated the great value of Prof. De Grath's beautiful combination, called

ELECTRIC OIL,

for the relief and cure of pain. But the people themselves are rendering their verdict in a manner both unmistakable and satisfactory. More than twenty thousand bottles have been sold in a very short time—a great proportion to those who heard others recommend it, who had tried it. That it's a splendid discovery in everywhere acknowledged, and nothing like it was ever before prepared.

The only genuine ELECTRIC OIL is Prof. DeGrath's, which is to be had at all the respectable Druggists in the city, and at wholesale and retail, at the proprietor's prices, of the Agent.
