AYER'S AGUE CURE, FOR THE SPEEDY cure of Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in a disordered, depraved, or impoverished state of the blood, caused by the malaria of miasmatic countries.

No one remedy is louder called for by the necessities of the American people than a sure and safe remedy for Fever and Ague. Such we are now enabled to offer, with a perfect confidence that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, is the established maxim in this case, and no one can in violent attacks of this baleful distemper. This remedy expels the miasmatic poison of Fever and Ague from the system and prevents the development of their terrific symptoms, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in following directions, where Fever and Ague prevails, everybody should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great many cases of this complaint occur any other ever discovered for the speedy and certain cure of intermittents is, that it contains no Quinine or mineral, consequently is productive of no quinine or mineral effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Headache, Rheumatism, Gout, Neuralgia, Blindness, Toothache, Earache, Catarrh, Asthma, Hepatitis, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and derangement in the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures all these ills. It is an invaluable protection to lumbermen and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the influence of the poison generated from the system, and exerted accumulate in sufficient quantity to shake into disease. Hence it is even more valuable for protection than cure. Both will prove alike from Intermittents, if they avail themselves of the protection this remedy affords.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can easily withstand or resist them. Their powerful properties search and cleanse, and invigorate every part of the human organism, correcting its diseased action and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy as sure as simple and inviting.

Not only do they cure every day complaints of everybody, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints arising from a low state of the body or obstruction of its functions. They are an active purgative, and by their operation of the blood and the restoration of tone and strength to the system debilitated by disease.

Ayer's Cherry Pectoral.

For the rapid cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is the theme of universal astonishment, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are the source of fatality. While many inferior remedies thrust upon the community have failed and been ill-starred, this has gained friends by every trial, conferred benefits on those who have tried it, and produced cures too numerous and too remarkable to be forgotten.
