DR. WRIGHT'S CELEBRATED REJUVENATING ELIXIR,

Prepared on the strictest Pharmaceutical Principles, by one of the Ablest Chemists of the Age.

NO MINERALS.

Dr. Wright thinks it well to stake his professional character on the fact that no minerals whatever from the least component part of the ingredients in his REJUVENATING ELIXIR—well knowing what ruin has been entailed on the community by opium and mercury.

Generally, to the debilitated, Dr. Wright would say, never despair. No matter how worn down you may be—no matter how weak you are—no matter what the cause may have been—forsake at once whatever has led you to depart from Hygienic principles; take his

REJUVENATING ELIXIR,

and you will soon find yourself a new man, a pride instead of the reverse, to your friends, and a healthy, sound and worthy member of the whole human family.

HELMBOLD'S EXTRACT BUCHU.

JOY TO THE AFFLICTED

It cures Nervous and Debilitated Sufferers, and removes all the symptoms, among which will be found—

Indisposition
to Exertion, Loss
of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite, with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruption on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes,

with

Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility; Restlessness, with Horror of Society.

Nothing is more desirable to such Patients than Solitude, and nothing they more Dread for fear of themselves, no Repose of Manner, no Earnestness, no Speculation, but a Hurried Transition from one question to another.

These symptoms, if allowed to go on—which this medicine invariably removes—soon follow LOSS OF POWER, IMPOTENCY and EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by these direful diseases—INSANITY AND CONSUMPTION? The records of the INSANE ASYLUMS, and the melancholy deaths by CONSUMPTION, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither mirth nor grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

"With woeful measures wan despair
Low sullen sounds his grief beguiled."

Debility is most terrible, and has brought thousands upon thousands to untimely graves, thus blasting the ambition of many noble youths. It can be cured by the use of this

INFALLIBLE REMEDY.

WINER'S CANADIAN VERMIFUGE.

IMPORTANT MEDICAL INFORMATION.

The late Dr. Chapman of Philadelphia has laid it down as a rule, that "worms may be suspected in a child where there is constitution, and especially weakness of the bowels, accompanied by a discharge of slime and mucus," and all medical authorities agree that to work a thorough cure, the stomach and bowles must be invigorated as well as the worms themselves discharged. *Winer's Canadian Vermifuge* fulfils both these conditions. It not only extirpates the vermicules, but strengthens the digestion, increases the solvent power of the gastric juice and imparts a healthy action to the bowels. Hence its cures are complete and permanent.

THE IDEA OF THE LIVING BODY

Being the receptacle of greedy worms, is sickening; and yet six out of every ten children are more or less afflicted with them. Why should it be so? In the case when there are volumes of testimony to prove that a few doses of Winer's Canadian Vermifuge will eradicate the disease? Parents make a note of this established fact, and remember that the medicine is free from all deleterious substances.

PAINLESS IN ITS OPERATION,

Certain in its results; free from all mineral substances, and invigorating to the system; these are the merits of WINER'S CANADIAN VERMIFUGE, a preparation which eradicates every class of internal worms, with a degree of dispatch that is as agreeable as it is astonishing.

DALLEY'S MAGICAL PAIN EXTRACTOR.

THERE IS NOTHING LIKE IT.

"How much pain and suffering—nay, even life itself—may be saved, by having a supply of "Dalley's Magical Pain Extractor" on hand, in case of sudden accidents. In cuts, wounds, burns, scalds, sprains and bruises—casualties to which children are constantly subject—the action of the Pain Extractor is ever the same. Families should never be without it. Full directions accompany each bottle. The genuine is always signed HENRY DALLEY, manufacturer, upon a steel engraved label.

DALLEY'S MAGICAL PAIN EXTRACTOR

Has now been in use ever thirty years; there is hardly a person but what has heard of it, and not a family that has used once, that could be induced to be without a box on hand to make use of sudden accidents. Where once used it is sure to become a standard remedy, because it has no equal in curing burns, scalds, cuts, wounds and bruises, fever sores, piles, and all other inflammatory and cutaneous diseases, where the parts affected can be reached.

A WORD TO FAMILIES.

When you look around your house, and you think there is nothing wanting, your children all playful and smiling, and everything forebodes comfort and happiness, suddenly one of the dear young ones falls, and a deep cut is the result of the accident. You now look everywhere for relief and you can't find it—why? Because you have neglected to have on hand a box of "Dalley's Magical Pain Extractor"—this is the whole trouble. Remember and always have it on hand. Instant relief will be had.

DALLEY'S MAGICAL PAIN EXTRACTOR

Will subdue the pain and inflammation from the severest burns or scalds, in from one to twenty minutes, heal the wounds without sore, and effectually cure fever sores, piles, salt rheum, inflammatory rheumatism, sore and inflamed eyes, cuts, wounds bruises, old sores, scald head, corns and bunions, sprains, swellings, felons, chilblains, bites of insects, sore nipples or swelled or broken breasts, and all other inflammatory and cutaneous diseases, where the parts affected can be reached.

OSGOOD'S CHOLAGOGUE,

GREAT DISCOVERY.

A simple tonic, both by able practitioners and chemical analysis, have demonstrated the great value of Prof. De Grath's beautiful combination, called

ELECTRIC OIL,

for the relief and cure of pain. But the people themselves are rendering their verdict in a manner both unmistakable and satisfactory. More than twenty thousand bottles have been sold in a very short time—a great proportion to those who heard others recommend it, who had tried it. That it's a splendid discovery is everywhere acknowledged, and nothing like it was ever before prepared.

The only genuine ELECTRIC OIL is Prof. De Grath's, which is to be had at all the respectable Druggists in this city, and at wholesale and retail, at the proprietor's prices, of the Agent.

Particulars of Foreign News.

PER STEAMSHIP AFRICA.

Advices by the steamship Africa are to the 20th ult. from Liverpool. We extract the following intelligence:

The Zurich Conference.

The conference at Zurich appears to be making no headway. It is asserted that the delay is partly attributable to Austria's stickling in matters of etiquette, especially as regards the cession of Lombardy. The Austrian plenipotentiaries are represented to have declined direct conference with the representatives of Sardinia, who protest against Lombardy being charged with any portion of the Austrian debt.

The latest telegram, dated Zurich, August 19, says that on the day previous there was a conference between the plenipotentiaries of France and Austria, and on the 19th one between France and Sardinia. It further states that in the next sitting of the conference it was supposed the question of the boundary of Lombardy and her participation in the Austrian debt would be settled.

A Paris letter in the Independence says:

"Some particulars of what took place in the first sittings of the Congress have come to me from a very authentic source. The first sitting presented nothing of importance; after an exchange of powers a preliminary conversation on general facts was opened. It was only at the second one that things took a more serious turn. When the points agreed on at Villafranca, which stipulates for the return to the Duchies of their princes, were mentioned, the Sardinian plenipotentiary declared that it was impossible for him to adhere to that clause, and that his instructions injoined him not to consent to a proposition which Piedmont could never accept. An animated discussion then arose, which was supported by Baron de Bourqueney and Count Colloredo against the Sardinian plenipotentiary, and it became at length so warm that the last named representative was obliged to leave.

"Private interviews have since taken place, but nothing has shaken the determination of M. Desambrois, as his instructions on the point are precise. The matter has been referred to Victor Vicams, Turin and Paris. It follows as a matter of course that the Sardinian Cabinet will maintain the same attitude, unless the Emperor Napoleon should weigh so heavily on King Victor Emanuel as to induce him to yield."

Louis Napoleon's General Amnesty.

Paris, Aug. 18.—No doubt seems to be entertained that yesterday's amnesty is complete and unlimited in all respects, that it passes the sponge over every past offense, and relieves all persons from the action of the law of public safety so long as they shall not incur fresh condemnation from the tribunals. The satisfaction it gives is great and general, not only here, but, according to a telegraphic correspondence, among the majority of the exiles in London and Brussels, who are particularly pleased with the absence of all conditions, and many of the principal of whom, it is said, propose immediately returning to France.

The measure, it appears, extended not only to refugees, but to persons suffering banishment in the French penal settlements, and two steamers have started for Algeria and Guiana, in order to bear the good news speedily to the unfortunate men who have at various times been transported thither on account of real or alleged political offenses. Surprise was the first emotion excited by this important decree; there was, perhaps, a little want of confidence; but when people had time to reflect on the measure, and to recognise that it was not only one of clemency but, in fact, the wisest thing the Emperor could do, any lingering mistrust melted away, and was replaced by satisfaction and gratitude. All the Paris papers of any mark are warm in their acknowledgments.

Great Britain.

The second mate (John W. Moody) of the American ship Mary, arrived in the Tyne, had been found guilty of willful murder by the coroner's jury which investigated the circumstances attending the death of a seaman named Daniel William, from ill-treatment. Moody had been committed for trial.

A report by the London District Telegraph Company shows that they are making good progress with their enterprise. Eighty-nine sub-district stations are to be ready for operation on the 1st of January. Over 118 miles of wire have been completed, and an additional 53 miles is in progress.

Eleven ships had been taken up by the English government for the conveyance of troops to India, and others were to be chartered.

Mr. Ten Broeck's horse "Starke," the winner in the last great English race, seems to stand very high in the betting circles for the Ebor Handicap race; out of ten entries he stands only second to the favorite. The betting was 100 to 30 against Volatile, and 4 to 1 against Starke; 8 to 1 being laid against Feeress, which is the next favorite for choice.

France.

The Emperor is said to have sent orders to Marshal Vaillant, in Italy, not to allow the troops there to receive orations from the Italians, but to maintain a reserved attitude.

The Emperor and Empress left Paris on the 17th for St. Saveur, where they will sojourn till the 5th of September, when they proceed to Biarritz.

Italy.

The National Assembly of Modena had been opened by Signor Farini, who deposited the powers given him as Dictator in the hands of the Deputies, urging them to express freely and calmly their wishes for the definite settlement of the constitution of the country. In addressing himself to Europe, he said: "We are ready to give to the civilized world all the guarantees or order and peace, conditionally that liberty is assured to us, and this Italy shall be restored to the Italians". The assembly voted an address of thanks to the Emperor Napoleon.

A journal of Turin states that the army of the League of Central Italy is to consist of 40,000 men, under the command of Gen. Garibaldi. The other Generals are Ribotti, Mezzacapo and Rinalli.

The King of Sardinia arrived at Turin on the 17th, and was welcomed with great enthusiasm which had assembled on the railway station. The National Guards and the Piedmontese troops were drawn up in line along the passage of his majesty.

The friends of Italy were said to be uneasy at the presence of the young Grand Duke of Tuscany in Paris.

Germany.

A letter from Eisenbach says: "A second meeting of German patriots has been held here. It was attended by thirty members of the democratic and constitutional party. A new declaration on the subject of federal reform was drawn up, based on that previously adopted here, and on the declaration of the patriots of Hanover. The declaration, which will soon be published, was adopted unanimously—proof that a national party, which will include all the friends of progress, is growing up amongst us."

The Roman States.

The Roman correspondent of the Morning Post, in a letter dated 13th ult, says:

Concessions of a more important nature than a mere change in the presidency of the Council of State or a complete transformation of the Council itself, are expected to be promulgated within a day or two. The government printing offices in the Quirinal Palace are hard at work in the preparation of the long-desired *motu proprio*, which is to announce to Rome and Italy the conditions upon which the supreme pontiff has consented to join the confederation.

The printers have been obliged to take an oath of secrecy, and every precaution is observed to prevent any revelation of the text of this document before the day of its publication, which is expected to be on Monday, the 15th; but rumors are of course afloat, and amongst other heads the most accredited are those of a general, but not unlimited, amnesty—administrative and financial reforms—an army of 25,000 men, 15,000 of whom in active service, and 10,000 in reserve, for federal duty. The provinces to be divided into five legations, having their seats of government at Bologna, Forli, or Pesara, Macerata, Perugia and Velletri, each to be presided over by a Cardinal with lay delegates.

Spain.

Cholera prevailed in Spain, but it was confined to the province of Murcia.

Most of the Madrid journals, of the 8th of August, publish articles which protest in violent terms against a declaration made
