BURDEN'S IMPROVED HORSE SHOES. These shoes are of the most perfect and approved form, and are universally admired. They have been approved and adopted by the United States Government since 4 out of last year, as also by the principal shoers throughout the country. None but the best refined horse shoe iron is used, one of which will be found to bend cold, without breaking.
The saving by the use of these Shoes will be found to be not less than fifty per cent. The rapidity with which they are made, the enormous capacity of the machine, and the small cost of working it, enable the manufacturers to give an article of the best quality at a price which must soon cause them to take the place of all hand made shoes. A large assortment, for sale by

JACOBS' ART GALLERY, 93 CAMP STREET, New Orleans.—R. Jacobs at his old post again.
The subscriber respectfully informs the numerous patron of this celebrated Daguerreotype, Ambrotype and Photograph Gallery, established in 1842, that he has secured, for a term of years, the services of M. KAJACOB, the original proprietor, who has just returned from Europe with all the late improvements in the fine art. Thereon may therefore rely on being furnished with portraits of the finest finish.
Miniatures of all sizes in oil colors, on ivory or other material, so as to suit the taste and price of all, will be taken in unsurpassable style. Photographs from life or from copies, public or private buildings, or of machinery, will be taken of any size required, either plain or painted.
The materials in the United States only are employed, and all work done will be guaranteed to give satisfaction.
Instruction given in the art.
The Gallery is elegantly fitted up with an extensive collection of works of art and virtu, and ladies and gentlemen are respectfully invited to visit it.
Prices moderate. Terms cash on delivery.

NEW ORLEANS, JACKSON AND GREAT NORTHERN RAILROAD.
1859. Transportation Department. 1860.
Freight will be received at the Company's Depot, foot of Calliope street, up to 5 o'clock P. M., daily, Sundays excepted.
All Goods intended for transportation must be distinctly marked with the name or initials of consignee and place of destination; and no freight will be received unless consigned to individuals and known on the line of the road or its connections.
Bank railroad receipts for freight may be obtained at the Depot, or at Merry Carson & Armstrong's, Camp street, by those who wish to use them.
The Company holds itself responsible for the value of all cotton shipped by the road, only when the Bill of Lading therefor shall be receipted for at stations on the Road until twelve hours notice to consignees of its arrival at the depot in the city.
The Company and all the Railroads and Steamboats connecting the "Great Southwestern Line" between New Orleans and New York, having made arrangements with the Adams Express Company to run a regular daily line of Express Cars between the two cities, the Express business hereafter carried on by the Railroad Company for its own account, is discontinued, and all Express matter will be carried by the Adams Express. Information can be obtained on this subject of J. J. McELVEER, Reg. 35 Camp street.
Agents of the Railroad Company are not permitted to receive or receipt for bank notes, specie, jewelry or other articles of value. They will be received only by the Adams Express Co., 35 Camp st.

DENTISTRY, SURGICAL AND MECHANICAL.
The undersigned, having located in the city, after a practice of eight years in the State, offers his services to those in need of a Dentist, and hopes, by the exercise of skill and care in his operations, to merit the public patronage.
Having recently discovered an improved method of obtaining the measure of the mouth for fine Artificial Teeth, in gold, silver or another base, he is enabled to adapt the plate with such accuracy to the gums as to cause no inflammation or laceration, to the great gain of ease and comfort, rendering the set useful for the purpose of mastication, and restore the countenance to its natural expression.
All operations on the teeth performed in the most satisfactory manner at prices within the reach of all. My object being more to obtain a reputation as a Dentist than to make money, I would therefore be pleased to have my patients bring their friends and witness my method of operating, feeling quite certain of obtaining the support and confidence of all those in favor me with a call. LOSS OF TEETH—Dr. J. WEST, 112 St. Charles street, continues to supply the LOSS OF TEETH without wires or springs, upon his new principle of self adhesion. This method has procured him universal approbation, and is recommended as being the most marvelous system of supplying ARTIFICIAL TEETH hitherto invented, and in all cases restoring perfect articulation and mastication, and so perfect and natural in appearance as to defy detection by the closest observer. Dr. West's method of filling teeth with gold combines all the modern improvements. Those interested will find these statements to be entirely and scrupulously correct. Dr. W. returns his sincere thanks to the inhabitants of New Orleans and vicinity for the extensive practice they have bestowed him with for the last fifteen years. Office and residence, 112 St. Charles street, second door from LaFayette Square.
