Cotton Tide.—We received by Adams Express yesterday afternoon, papers from Cincinnati of Friday and from Memphis of Saturday---a little more than two days from the former city.

Worcester's Dictionary.—We have received from the publishers, through Mr. Thomas L. White, bookseller, 105 Canal street, a copy of Worcester's great Dictionary of the English language, recently issued from the press of Messrs. Hickling, Swan & Brewer, Boston. This is the quarto illustrated dictionary of which so much has been said and written, and for elaborate fullness and comprehensiveness, it is probably unequalled by any work of the kind. It is handsomely printed, neatly and strongly bound, and its matter is comprised in eighteen hundred large quarto pages. It contains all that a student need know about the English language.

Personal.—We were much pleased at meeting in our city Mr. Tracy Robinson, General Southern Agent of the Mississippi Central Road, and Mr. S. E. Carey, General Ticket Agent of the same road. We wish we could have the pleasure of greeting just such visitors every day in the year, and we hope they may like our people as well as our people like them. They are just the gentlemen to make their great route popular, as it should be with the traveling public.

We also note the presence in the city of Hon. John C. Haines, Mayor of Chicago, who has come down to find where the Mississippi runs to. We hope he may find his visit pleasant, and return to his own domains with a store of agreeable reminiscences of his sojourn in the Southern metropolis.

Floral.—From earliest times---since Virgil aired his dreamy pastoral fantasies in immortal eclogues and bucolics---the pursuit of floriculture has been as a fine art compared with the vocation of kitchen gardening, cultivating vulgar cabbage and onions. In fact, horticulture is awarded the same relation to floriculture that house painting is to picture painting, and is classed with the mechanic in opposing contrast with the artiste. The man who finds his pleasure in devoting himself to cultivating and cherishing the most beautiful of all the works that proceed from the versatile hand of nature---the fair and fragile flowers which charm men for a day with their blooms and perfume, and then pass away forever, having no practical value but only a fanciful appreciation---has the soul of a poet in him, whether he versifizes it in metrical feet or not. This poetic passion animates our acquaintance with Martin, who varies the monotony of his occupation as toll-gate keeper, near the Half-Way House of the New Canal shell road, by cultivating the rarest and most beautiful of plants in his flower garden, and doing up the floral offspring of his pets into the most tasteful and fragrant of bouquets. He has indulged his passion for floriculture until he has fairly overstocked his premises with specimens of valuable plants, and those who wish to secure an assortment, or any one of the choice varieties which his garden paradise affords, can do so by leaving orders at "Ed's House," or at Andrew Doyle's, both on Front Levee street. Next time you are "on the shell," inspect Martin's bouquets!

I. O. O. F.—Notice is published that a regular meeting of Orleans Lodge No. 11 will be held at room No. 1, Odd Fellows' Hall, at half-past 7 o'clock to-morrow evening.

The Balls To-Night.—This being St. Joseph's Day, or Mid-Lent, the night as usual will be given up to dancing and masquerading revelry, in different parts of the city. We give a list of such balls as we know are to take place:

The Chasseurs à Pied.—The grand military, mask, and fancy dress ball of this company, at the New Opera House, will be a splendid affair. Capt. St. Paul authorizes us to state that gentlemen may subscribe to-day, upon application to Mr. H. Buffler, Comptroller of the Opera House, and honorary member of the Chasseurs.

Young Men's Benevolent Association.—The ball of this Association, at Odd Fellows' Hall, will be a gay and delightful affair. Gentlemen may yet procure tickets.

The Ladies' Leap Year Ball.—This, at Union Hall, Fourth District, will be a delightful party, and one of those merry novelties which are to be seen only once in four years. But we need not say much about it now, as the party is made up, and no more invitations will be issued to anybody.

Ball in the Third District.—At the New Lusitano's Hall, corner of Greatmen and Elysian Fields streets, the gentlemen of the Third District are to give a ball for the benefit of the indigent widows of that part of the town. From the names of the gentlemen concerned, (leading members of the new Lusitanos and Sons of Louisiana Associations) we are able to predict that it will be a meeting large, fashionable and delightful.

The Varieties.—"Pauvrette, or the Avalanche" commences a second week to-night. We do not know that a more generally attractive bill could be posted by the management than this splendidly elaborate scenic drama.

Medical Electricity.—Announcement is made that Dr. Smith's next lecture on Medical Electricity will be delivered in the Lecture-room of Odd Fellows' Hall at 7½ o'clock this evening.

The Amphitheater and Museum.—Rumsey and Newcomb's Minstrels appear at the Amphitheater this evening in one of their best selected entertainments.

This is the last day of Tom, the blind negro boy pianist, at the Museum, as he leaves to-morrow for his master's Georgia plantation. Those who like to see what is wonderful should visit this most marvellous natural phenomenon, in making whom nature accomplished of her most eccentric feats.

Legal Card.—The professional card of J. K. Dixon, Esq., will be found in another column of the Crescent. We take pleasure in mentioning that, of our own knowledge, Mr. Dixon is a practitioner of large ability and experience in his profession, and those in need of legal service will do well to confide their interests to his care. His office is at 27 Camp street.

Classic Music Society.—The fifth grand concert of the association of talented amateurs and professionals, known as the Classic Music Society, will be given on Wednesday of this week at Odd Fellows' Hall. A choice programme is promised and a rare treat is in store for those who have the good fortune to be present.

The St. Charles.—The Nelson sisters commence an engagement at the St. Charles to-night, appearing as *Atalanta* and *Hippomenes* in the burlesque entitled "Atalanta," which will be preceded by the comedy "Faint Heart Never Won Fair Lady," and followed by "Robert Macaire," by Messrs. DeBar and Scallan.

Benefit at the Varieties.—Mr. H. Bland, a cultivated and successful player of the Varieties company, announces his benefit for Wednesday night, when Shakspeare's comedy "As You Like It," cast to the best strength of the company, will be performed.

REAL ESTATE SALES.

Hundreds of the solid men of New Orleans owe their fortunes to the steady and rapid appreciation of real estate property in which they put their first capital and, patiently suffering it to remain, withdrew it in time multiplied ten, twenty or fifty fold; or have improved their property and now find it really almost invaluable; its price cannot be quoted and it can only be determined by the amount which a business capitalist may fancy to give rather than not have it.

It would seem that in the most crowded and desirable business portions of the city real estate, generally, would be worth no more this year than it was the last or the year before; but such is not the case, and for the reason that, as the area of business enlarges, centrality of location becomes more valuable than ever, and enhances the cost of securing it, while the spread of business enhances the cost of real estate in its outer limits of area also, and thus the appreciating influence radiates its effects even to the farther suburbs of the city, among the residential estates.

As illustrative of the increase of the value of centrally located real estate, we quote a few sales, made last week, from the books of Col. J. B. Walton, auctioneer, though these may scarcely be fair instances to cite, as there is no telling how much more than it might otherwise have brought was realized on the property in consequence of the experienced and intelligent business management of the Colonel.

The prices are very large, certainly. A four-story store on Canal street was sold to Mr. A. Pepin for $61,000, and another on the same street to Smith & Bro. for $60,000. A four-story store on the southeast corner of Magazine and Common streets was bought by Mr. B. A. Shepherd for $51,000, and a brewery, way up on the corner of Annunciation and Poeyfarre streets, with six lots of ground, was taken by Messrs. Lewis and Samuel Eusnacht, at $20,500. These are tall figures; and while they tempt holders to put their real estate in the market, they also give them an idea of the progress of the appreciation of such property in New Orleans, and the promise that there is of holding on for a rise.

Page's Venus.—The much and deservedly praised painting of "Venus guiding Æneas to the Latin Shore," by William Page, American artist, has finally reached New Orleans in its triumphal tour of exhibition. It has gained the high encomiums of art connoisseurs in Europe and America, and is, undoubtedly, worthy all its fame. The exhibition of the Venus of Page will commence this evening at Odd Fellows' Hall, and continue thereafter, day and evening, for a limited period.

Ladies' Fair.—The ladies of the First Presbyterian Church propose to hold an entertainment and a Fair at Odd Fellows' Hall, on Thursday, Friday and Saturday evenings next. Being got up by this congregation, it will, of course, be something grand in the Fair way.

The Bosen Panorama.—J. Insco Williams' series of panoramic illustrations of scenes in Scripture history is having an extraordinary run in New Orleans, for to-day commences the eighth week of its exhibition, a steady stream of visitors having set toward Masonic Hall ever since it was first unrolled there in January. This panorama is exceedingly well painted.

☞ A Word About Hair Restoratives---The original, as it is still the best, preparation for restoring gray hair to its original color, and rendering it strong, healthy and beautiful, is Batchelor & Co.'s Inimitable Hair Coloring or Restorative. Every other preparation advertised for this purpose is but an imitation of this. Most of them are made with water, and require the expense of a hair dressing to accompany them, as they leave the hair harsh and dry. Batchelor's is made with oil and stimulating spirits, affording an agreeable hair wash, aside from its value as a restorative. It is sold at a reasonable price, placing it within the reach of all. We might introduce certificates from Clergymen, Senators, and well-known citizens in all parts of the country, but it is not necessary. We leave our readers to judge that if imitations can produce comparatively successful results, the original and unimitated article must surpass them all. [Journal.

☞ Sloat & Co.'s New Elliptical Sewing Machine, in the uniformity and beauty of its work, is far in advance of any Sewing Machine for plain work or family sewing---using two threads and making the Lock Stitch, so justly extolled as the only stitch that cannot be loosened or unraveled. It is fast---superseding the complicated Wheeler & Wilson Machine, as it does away with the troublesome leather pad and loop checks; and it is pronounced by the most scientific, the very best plain sewing Machines. Side by side with those from the several houses of the combination, this really remarkable Machine has proved its great superiority. They are for sale at No. 99 Canal street. m13 2dmaW

☞ Boys' Clothing! Boys' Clothing!---We invite the attention of Parents and Guardians to our present assortment of well-made CLOTHING for Boys. Also, a full stock of reasonable FURNISHING GOODS. No Deviation in Prices.

☞ The Finkle & Lyon Sewing Machines are giving very perfect satisfaction to all who have tried them. The absence of all complicated fixings, which have been the cause of so much vexation in other Machines, renders the Finkle & Lyon Machine a desideratum long sought for. The simplicity of its construction, its certainty of action, and almost noiseless operation, are equally astonishing to those who have heretofore been so troubled in their experience with other Machines. It is no wonder that the Finkle & Lyon Sewing Machine has so rapidly risen to the top wave of public popularity. Persons who have heretofore been discouraged by their previous troubles with Sewing Machines, are invited to a careful examination of the Finkle & Lyon Machine.

Perfect satisfaction will be guaranteed, or the money cheerfully returned.

Prices of Finkle & Lyon Sewing Machines---$55, $80, $85, $90, $100, $115, $125.

They are sold, if desired, on a trial, with any and all other Sewing Machines. WALTER BENNETT, Agent, 33 Camp street, New Orleans. m3 2p1t&W

☞ Experience teaches us that delicacy prevents many females from applying for the means to alleviate suffering and ease life. That objection is obviated in the case of "Sir James Clarke's Female Pills, prepared after the prescription of Sir James Clarke, Physician to the Queen of England, and well known to be the only sure and safe remedy for female difficulties and obstructions from any cause." They can be sent in a bottle containing 50 pills, post free, by enclosing $1 and six postage stamps to any agent.

☞ The Closing Years of Life are often rendered wretched by ailments which are trifling in themselves, and easily cured if taken in time. Affections of the liver, stomach, and other organs concerned in digestion are the most frequent. They naturally make the sufferer nervous, irritable and complaining, and relatives and friends are forced to bear the brunt of their ill-humor. The use of Hostetter's Celebrated Stomach Bitters will prove an efficient remedy for this evil. It will not only strengthen the whole physical organization, but entirely cure the most obstinate cases of indigestion, diarrhœa, dysentery and liver complaint. The first physicians in the country are loud in their praise of this preparation. Another recommendation of the Bitters is that it is so palatable to the taste that it may be used even as a beverage.

Sold in New Orleans, wholesale and retail, by J. WRIGHT & CO., 21 and 151 Chartres street, sole agents for the Southern States, and to whom all orders should be addressed, and by druggists and dealers generally every where. m19 2p6&1tW

☞ Martyred Heads!---Hundreds of heads of hair are ruined by the use of deleterious dyes for which no scientific authority is responsible.

CRISTADORO'S EXCELSIOR DYE, on the contrary, possesses the highest scientific credentials. It has been analyzed by Dr. Chilton, who stands at the head of our Experimental Chemists, and he states in his certificate that nothing injurious enters into its composition.

This UNQUALIFIED APPROVAL, added to the well-known fact that it is the most reliable and the most natural dye ever manufactured, have given it immense prestige, and the sales are running up from month to month with a rapidity that severely taxes the energies and resources of the proprietor.

Noises in the Head.

READ!

For ten years I suffered from noises in my head, and, fearing to become totally deaf, I placed myself under Dr. VON MOSCHZISKER'S treatment, who relieved me in a very short time.

The Charter Oak Cooking Stove.

PURCHASE NONE OTHER.

The most thorough and complete BAKING STOVE ever introduced; simplicity and economy are its two great and most important features. No complicated directions are required to operate this Stove, which are the objections to most other Cooking Stoves now offered. One plain direction is here sufficient, and it does not Bake, Cook and Broil beyond your expectation, with far less fuel, return it. The money will always be cheerfully refunded.

Beware of Counterfeits.

CONTAGION.

Much valuable time has been lost in disputing about the contagion or non-contagion of cholera, yellow fever, etc. This diversity of opinion has arisen from ignorance of the true or only cause of disease, which is known to be corrupt humors. A person whose blood is pure, may enter the pest-house unharmed; while he whose blood is corrupt will inhale the contagion in the street. In order, therefore to be secure from cholera, yellow fever, or any other supposed contagious disease, we must keep the blood and other fluids in a state of purity. This can be done in the most effectual manner by WRIGHT'S INDIAN VEGETABLE PILLS of the North American College of Health; because they completely cleanse the stomach and bowels from all bilious humors, and other impurity, and drive every description of poison from the body.

Said Indian Vegetable Pills also aid and improve digestion, and therefore not only furnish perfect security against any contagious malady, but give new life and vigor to the whole frame.

Only Sure Remedy for Worms.

There are worm medicines, so called, as harmless and at the same time as useless as water. There are others which are admirably adapted to kill the patient as well as the worms. Wynn's Canadian Vermifuge belongs to neither of these two classes. It destroys internal worms in all cases, while instead of injuring the general system, it gives tone, strength and vigor to every muscle and fiber and function of the human frame. These are its characteristics and the source of its great popularity.
