## River Intelligence.

General Remarks—Business—The Weather. Dispatch from the T. S. Conley—The St. James and Iberville—Clippings from our Exchanges—Departures To-day, etc., etc.

CRESCENT OFFICE, No. 70 Camp street, } FRIDAY, June 8, 1860.

The weather yesterday was hot—not warm—and sufficient to enervate the system of the oldest inhabitant. One feels like crawling into a refrigerator and spending the remainder of the summer.

There was comparatively nothing doing on the levee. The local packets are doing very little, and outsiders, although few in number, are grateful for a dray load.

The Imperial and Autocrat left yesterday, with good trips.

From a dispatch received yesterday by Mr. George D. Hag, we learn that the T. S. Conley will be at the landing this morning ready to receive freight. She leaves for Alexandria to-morrow evening.

The two new steamers, the St. James and Iberville, for the Bayou Sara Mail line, will be launched on the 15th of this month and will be ready on the 1st of August.

In yesterday's report we mentioned that the New Orleans and Memphis line of packets were to be sold at auction, on the 15th inst. From Memphis advices of Wednesday last, we learn that two of the steamers were disposed of at private sale, and the others will be served in a like manner, should they find purchasers within the specified time. Capt. Alexander Irwin, late of the Nebraska, purchased the Belfast from the company on the 5th inst., for the sum of $12,000. He will make a trip with her between St. Louis and this port, and will subsequently repair and place her in the old trade between Memphis and New Orleans. The Ingomar has been sold conditionally to Capt. Charles Clark, her late commander. He is en route for this place, and on his return the transfer will be consummated.

Capt. F. G. Batchelor, President of the Cincinnati and St. Louis Line, has contracted for a fine side-wheel passenger packet for the line. The hull will be launched on the 1st of August and the boat completed by the 15th of September. She is to be of large dimensions, 193 feet long, 37 feet beam and 6½ feet hold.

The Kentucky Legislature, at Louisville a few days since, passed a joint resolution tendering the thanks of the State to Capt. Blair, of the steamer Union, an upper tributary boat, on the charge of attempting to pass counterfeit money. It turned out that the money was not counterfeit, and the doctor had entered suit against the officers of the boat for damages.

The steamer Planet has been laid up at St. Louis in consequence of dull times.

We understand that Capt. Dittman, commander of the fleet packet Jacob Strader, of the Cincinnati and Louisville trade, has been arrested by the Sheriff of Lagrange for the drowning of a newly married couple, who, while endeavoring to cross the river in a skiff, were run over by the steamer and perished.

Within the past few days freight for Red river has become abundant and with fair prices. The steamers Telegram and Texas have succeeded in obtaining large trips, and will leave this evening for Shreveport. The Ashland left last night with a tolerable trip for the Onachita.

The St. Louis railroad line packet Wm. M. Morrison arrived with a goodly number of passengers, also the Eleanor and Robt. Watson, from Shreveport. Red river is in the same condition as of old, with no prospects for the better. Navigation above Shreveport is entirely suspended.

The departures yesterday were by no means many. Among the few we notice the Autocrat for Louisville, Ohio Belle for Cincinnati, the Imperial and Crescent City to St. Louis, with ordinary loads. The Perfona, Emerald and J. C. Fergus, from the Ohio, are due here to-day. The Edward Walsh for St. Louis, and Universe for Cincinnati, passed up from Memphis on the 6th inst. At St. Louis, on the 4th, the railroad line steamer J. C. Swon had arrived, with a full trip. The steamers Flying Cloud, Hannibal, Sovereign, Jno. J. Roe and Champion were due there from New Orleans. The Minnehaha left on the 5th for the South. At Cincinnati on Tuesday last, the Diamond and Queen of the West had arrived. The boats loading at that port for the South are the City of Madison, Alice, Jesse K. Bell, Judge Torrence and Fort Wayne.

The Lower Mississippi is rising, with thirteen feet water at President's Island.

The Cincinnati Engineer of the 5th says:

The weather yesterday was warm and sultry with refreshing showers in the afternoon and night. Rain is seven feet water in the channel, and is rising. At Whaling's bar there are eight feet, and at Island. The river at Louisville is falling slowly. The Kanawha and Marietta packet is falling steadily, with four feet large from Charleston to the mouth. Opposite this point the river is falling steadily, with ten feet scant between Louisville, and six feet scant between the falls and Portland is falling. Along the Lower Ohio is seven and a half feet water, and receding. Between St. Louis and Cairo there is seven and a half feet water, with six feet to Keokuk. At Keokuk there is a fair stage of water. The Upper Mississippi is falling steadily, with 7 feet on the lower and 4½ feet on the upper rapids, and the northern part of the river is falling. The Missouri remains at about 6 feet on Sandstown bar. The Illinois is still falling, with 5 feet on Beardstown bar.

*Ship for Bayou Sara.*—The express United States mail and passenger packet Capitol, Capt. V. B. Johnson, commander, Mr. P. Mumford, clerk, left 5 o'clock this morning for Bayou Sara.

*Ship for Bayou Sara.*—The large freight steamer Grosse Tete, Capt. E. P. Gross, commander, Mr. Wilkinson, clerk, leaves this morning at 9 o'clock for Bayou Sara and intermediate ports.

*Ship for Red River.*—The light-draft passenger packet Texas, Capt. C. W. Stinde, commander, Mr. Culbertson and Perry, clerks, leaves this morning at 5 o'clock positively for Alexandria, Red River. Shreveport and all way landings on the route.

*Ship for Red River.*—The fast and splendid passenger packet Telegram, Capt. R. S. Lake, commander, Mr. J. P. Chandler, clerk, leaves at 5 o'clock this evening for Hurricane and Carolina and all intermediate landings on Red river. This steamer has an elegant cabin, large and commodious state rooms, and her accommodations are unsurpassed.

*Ship for Alexandria for Louisville.*—The fine, fast and unrivaled passenger packet Gen. Jno. A. Quitman, Capt. A. W. Cannon, commander, leaves at 5 o'clock P. M. "in the interim" for Louisville and intermediate landings. Mr. C. P. Reynolds, the clerk, will be found at his post in the office, to see that passengers are properly accommodated.

*Shipper for St. Louis.*—The neat passenger packet John Warner, Captain H. R. Patterson, master, Mr. Chas. F. Warner, clerk, leaves as a regular packet for the above port this evening at 5 o'clock. Those wishing to ship freight or take passage should call early. The Warner has first-class accommodations, and passengers will be well entertained on board. Do not forget the John Warner for St. Louis this evening.

*John Walsh, Railroad Line Packet for St. Louis To-Morrow.*—The splendid and first-class passenger packet John Walsh, Captain W. P. Lamothe, commander, Mr. D. V. Dawley, clerk, backs out to-morrow at 5 P. M., for all landings up to St. Louis. She has a large and exceedingly neat and spacious cabin, admirably appointed, and arranged for comfort and convenience. Travelers who secure rooms will find everthing they can possibly require for their comfort and entertainment on the trip, and they will also have clever officers for traveling companions. The John Walsh connects with the different railroads for all points North and East. Passengers can procure through tickets by applying at the office of the Company, No. 61 Camp street.

## PETITIONS—OFFICIAL.

NEW ORLEANS, April 2, 1860.

To the Honorable the Common Council of the City of New Orleans:

**GENTLEMEN—The undersigned owners** of property on both sides of Rampart street, from Bienville to Orleans street, most respectfully petition your honorable body, agreeably to Section 120 of the New City Charter, to sell at public auction, after ten days' notice in the official journal, the contract for paving with square blocks both sides of Rampart street, from Bienville to Orleans street, and for raising the sidewalks on each side and paving the same with flat stones. The whole work to be performed in conformity with the specifications of the City Surveyor.
