NEW ORLEANS DAILY CRESCENT.

FRIDAY MORNING, NOVEMBER 9, 1860.

TALE ON CHANGE.

THE TALK WAS YESTERDAY. EARLY IN THE DAY

there was considerable activity, which was followed

by a good demand for cotton, resulting in some

thing more than ordinary sales, when compared

with the daily operations for the past seven days.

After market had commenced to fall, which

rather forced the frequency of the flags to follow.

These active and useful members of the body

financial (the brokers in exchange) were, however,

on the alert, while the note-brokers which

drew at an early hour, calling it a half day.

The general quietness and calmness in financial

circles were duly noted and commented on.

The money market, of course, is the chief topic to talk

about. True, the prompt action of the Government

officials in Charleston came in for a share of talk.

We shall have full particulars by mail to-morrow.

The movement was expected, and created no

surprise on the flags, particularly among those

posted up in the current and expected events of the times.

The great landing or levee given daily indications

of continued large receipts of merchandise and

produce, particularly of produce from the great

West, is pointing out the contents of its granaries

and warehouses very liberally. There must be

large shipments for two months to come, to be

sold, and the proceeds returned in sugar, molasses

and coffee, with a good many thousands of sacks

of salt. We notice the clearance of one cargo of

8000 barrels of flour from London. This is the first

cargo exported for Great Britain this season. The

receipts of Western productions are on a larger

scale than in the waters of every line, and the

following comparative figures for two years

past, from the 1st of September to date:

	1859.	1860.
From London, N.Y.	1,200	2,500
From Liverpool, N.Y.	1,500	3,000
From Glasgow, N.Y.	1,800	3,500
From Bremen, N.Y.	2,000	4,000
From Hamburg, N.Y.	2,200	4,500
From Antwerp, N.Y.	2,500	5,000
From London, N.Y.	2,800	5,500
From Liverpool, N.Y.	3,000	6,000
From Glasgow, N.Y.	3,200	6,500
From Bremen, N.Y.	3,500	7,000
From Hamburg, N.Y.	3,800	7,500
From Antwerp, N.Y.	4,000	8,000
From London, N.Y.	4,200	8,500
From Liverpool, N.Y.	4,500	9,000
From Glasgow, N.Y.	4,800	9,500
From Bremen, N.Y.	5,000	10,000
From Hamburg, N.Y.	5,200	10,500
From Antwerp, N.Y.	5,500	11,000
From London, N.Y.	5,800	11,500
From Liverpool, N.Y.	6,000	12,000
From Glasgow, N.Y.	6,200	12,500
From Bremen, N.Y.	6,500	13,000
From Hamburg, N.Y.	6,800	13,500
From Antwerp, N.Y.	7,000	14,000
From London, N.Y.	7,200	14,500
From Liverpool, N.Y.	7,500	15,000
From Glasgow, N.Y.	7,800	15,500
From Bremen, N.Y.	8,000	16,000
From Hamburg, N.Y.	8,200	16,500
From Antwerp, N.Y.	8,500	17,000
From London, N.Y.	8,800	17,500
From Liverpool, N.Y.	9,000	18,000
From Glasgow, N.Y.	9,200	18,500
From Bremen, N.Y.	9,500	19,000
From Hamburg, N.Y.	9,800	19,500
From Antwerp, N.Y.	10,000	20,000

In hard there has been a falling off. As New

Orleans is the only real cash market among the

seaports, we may expect heavy supplies on the

first rail line in the waters of every line, and the

receipts of products from the great and prolific

West.

Freights to foreign countries rate at reasonable

rates. There has been very little difference in

rates from this port and from New York all through

the season; and as the tonnage in port now is in

excess of last year at this time, we may confidently

expect a further increase in the tonnage to be

exported from this port, and the following

receipts of cotton yesterday up to 6 o'clock

last evening were:

	From the River, per Mrs. E. Kennedy, 1,200	From the River, per Mrs. E. Kennedy, 1,500	From the River, per Mrs. E. Kennedy, 1,800	From the River, per Mrs. E. Kennedy, 2,000	From the River, per Mrs. E. Kennedy, 2,200	From the River, per Mrs. E. Kennedy, 2,500	From the River, per Mrs. E. Kennedy, 2,800	From the River, per Mrs. E. Kennedy, 3,000	From the River, per Mrs. E. Kennedy, 3,200	From the River, per Mrs. E. Kennedy, 3,500	From the River, per Mrs. E. Kennedy, 3,800	From the River, per Mrs. E. Kennedy, 4,000	From the River, per Mrs. E. Kennedy, 4,200	From the River, per Mrs. E. Kennedy, 4,500	From the River, per Mrs. E. Kennedy, 4,800	From the River, per Mrs. E. Kennedy, 5,000	From the River, per Mrs. E. Kennedy, 5,200	From the River, per Mrs. E. Kennedy, 5,500	From the River, per Mrs. E. Kennedy, 5,800	From the River, per Mrs. E. Kennedy, 6,000	From the River, per Mrs. E. Kennedy, 6,200	From the River, per Mrs. E. Kennedy, 6,500	From the River, per Mrs. E. Kennedy, 6,800	From the River, per Mrs. E. Kennedy, 7,000	From the River, per Mrs. E. Kennedy, 7,200	From the River, per Mrs. E. Kennedy, 7,500	From the River, per Mrs. E. Kennedy, 7,800	From the River, per Mrs. E. Previously received this Saturday morning, Nov. 8,

Total bales this week up to last evening, 80,000.

Another installment of the Asia's mails from

Liverpool came to land yesterday. The Europa's

mails were due, but did not come. The Charleston

mails, or papers of Monday, were due, but came

not. However, we are not suffering for want of

intelligence, as it will take all this week and part

of the next to get through talking of the election.

Something is expected here, we are expected by

last evening's tract from Jackson, Miss. We have

only to remark that yesterday closed quiet and

calm on the flags.

The War in China.

A dispatch of the 2d inst. from Washington to

the New York Herald says:

Dispatches were received this morning at the

Navy Department, from the Chinese, dated at

the 2d inst. The dispatches, dated at Peking, 7th

inst. say: "We arrived at the anchorage of Peking

on the 2d inst. The Chinese fleet, consisting of

PUBLISHED EVERY DAY, SUNDAY EXCEPTED, BY J. O. NIXON, AT NO. 70 CAMP STREET.

TELEGRAPHED TO THE NEW ORLEANS CRESCENT.

PRESIDENTIAL ELECTION RETURNS

[SEE THE FOURTH EDITION HERE.]

MISSOURI GOES FOR DODGERS.

St. Louis, Nov. 8.—The election returns from

the counties in the interior of the State of Missouri

come to hand very slowly. Douglas has thus far

an extensive majority, and there can be no doubt

but that he has carried the State.

Further Mississippi Returns.

LOUISVILLE, Nov. 8.—The election returns from

the counties in the State of Mississippi, has gone

for Breckinridge. The following is the official vote

of this county: Breckinridge, 831, Bell 309, Doug-

las 3. The majority of Breckinridge over Bell is

522 votes.

In Noxubee county Breckinridge has a majority

of 263.

Holding the Palmetto Flag.

CHARLESTON, Nov. 8.—The Palmetto flag, owned by

Mr. James Gray, owned by the Messrs. Cushing of Boston,

is now lying at our wharf under instructions from

her owners to hold the Palmetto flag. The flag

has already been raised and a salute of fifty guns

is being fired from the shore.

From Columbia we have received nothing

in regard to the secession movement. The

people in all portions of the State manifest

strongly in favor of the secession of the South since

the news of the election of Lincoln has been re-

ceived.

[NOTE.—There is no possibility of receiving any

information further to-night on account of interferences

in the working of the telegraph lines East and

West.—EDITOR.]

In the Field with Garibaldi.

The following is a letter from a venerable but

restless friend who, accompanied by Mr. Ed-

ward and other Englishmen, went to "see the

fighting" in Italy. Although, however, he is not

found in the lists of the volunteers, he has

been in camp and in all quarters of the globe, to

the discomfiture and embarrassment of the per-

sons of the South. He writes as follows: "I am

not at all a bloodthirsty person, but rather ex-

actly the opposite. I have seen a great deal of

slaughter, a most painful and revolting sight

on the 6th inst. I was generally understood that

he had been in the field, and immediately

closed to Capua. We have a very good

(roughly speaking, the same party), arrived at

Santa Maria about a clock A. M. and found all

the troops moving toward Capua. The army

following, I must say, half of them were boys. But

little fellows of ten, eleven, twelve years, fight

with as much courage as old artillery men. They

are not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

not at all afraid of the enemy. They are

Local Intelligence.

CANINE SCENERY.—We dropped in yesterday

noon at the School of Medicine to hear Dr. Austin

Plant, Jr., lecture and demonstrate the circulation

of the blood. The experiments were very inter-

esting. The subjects operated on were live dogs.

Dr. Plant illustrated the arteries and veins, and

the difference between the two. He then demon-

strated the effect of the heart on the circulation

of the blood, and the effect of the lungs on the

circulation of the blood. He then demonstrated

the effect of the heart on the circulation of the

blood, and the effect of the lungs on the circula-

tion of the blood. He then demonstrated the

effect of the heart on the circulation of the

blood, and the effect of the lungs on the circula-

tion of the blood. He then demonstrated the

effect of the heart on the circulation of the

blood, and the effect of the lungs on the circula-

tion of the blood. He then demonstrated the

effect of the heart on the circulation of the

blood, and the effect of the lungs on the circula-

tion of the blood. He then demonstrated the

effect of the heart on the circulation of the

blood, and the effect of the lungs on the circula-

tion of the blood. He then demonstrated the

effect of the heart on the circulation of the

blood, and the effect of
