CRESCENT OFFICE, No. 20 CAMP STREET, Friday Morning, Nov. 16, 1860.

The weather yesterday was rainy, and generally disagreeable. The rain ceased falling about the middle of the afternoon, but the clouds remained overcast and threatened another discharge.

Business would have been active had the weather been less inauspicious. As it was, the arrivals of steamers were numerous and the receipts of produce consequently heavy. Most of the packets advertised to leave got off, the coast and lower Tributary boats taking light trips.

Among the arrivals was the new packet Gen. Jno. L. Hodges, Capt. W. S. Steede's new Red river packet. The Hodges is the practical fulfillment of an idea which was born in the mind of Capt. Steede after years of experience in the New Orleans and Red river trade. She is the embodiment of the practical suggestions of those who know just what was wanted to meet the requirements of one of the most important trades in which New Orleans is concerned. She is a very light-draught boat, and yet has a carrying capacity for 2000 bales of cotton. She is as staunch as wrought iron, has great locomotive power and strength, and a cabin which, in its magnificent appointments and appurtenances, is a wonderful specimen of adaptative ingenuity. Her rich furniture was made expressly for the boat, and includes several beautiful specimens of cabinet manufacture for the ladies' saloon. The glassware, chinaware, and new style of chandeliers were also made to order. A beautiful rosewood piano graces the ladies cabin.

The dimensions of the Gen. Hodges are as follows: length of hull 168 feet, with 32 feet beam, and 6 feet depth of hold, giving her great carrying capacity. She has an easy model, and draws light, but 28 inches, which is a remarkably light draught, and a great desideratum for a Red river packet. She has ample power, her engines being 18½ inches in diameter and 6 feet stroke, with 3 boilers 32 feet in length and 40 inches in diameter. She has also a steam capstan, steam freight hoister, and all the improvements requisite to comply with the law to insure safety and speed, while her cabin appointments combine luxury with comfort. She was named for an extensive planter on Red river.

The new packet Capitola, which arrived here Tuesday, and a brief description of which accompanied our notice of her arrival yesterday, is furnished with new locomotive power. She has four engines, two to each wheel, which are so constructed that the cranks work at right angles, similar to the work of the machinery on stern wheel boats. This arrangement of machinery is unique, as we believe no other boat on our river is fitted up in this manner. The Capitola was built at Wheeling at a cost of $15,000, and is intended for the Bayou Bartholomew trade, for which she is admirably well suited. She is 125 feet in length, 30 feet beam, 3½ feet draw, with 5 feet depth of hold. She has four engines, as above stated, with 20 inch stroke and 9 inch cylinder. She has two 2-flue boilers. Capt. J. L. Thompson commands, and Mr. G. W. Thompson is the clerk—both competent, prudent and experienced steamboatmen.

Our thanks are due to Mr. Sam. Halliday, for a copy of the manifest of the steamer City of Louisiana from Cairo. The City of Louisiana leaves for Cairo this evening.

The steamer Rapides will be at the foot of Customhouse street to receive for Red river, for which she leaves Saturday evening.

The Louisville packet John Raine was detained by the rain yesterday, but has all her freight engaged and will leave positively at 5 o'clock this evening for Cairo and Louisville.

The H. R. W. Hill was at the landing yesterday, looking fresh and in first-rate condition. She has been thoroughly overhauled and repaired, and leaves in her regular time in the Memphis United States mail line this evening.

The splendid new Ouachita river packet J. F. Pargoud will be at the landing this morning.

Arrivals from Red river yesterday report that steamer Gelling with 3½ feet on the falls, and 30 inches above Grand Ecore. The steamers Aurora and Emerald arrived hence at Cincinnati on the 12th inst. The new side-wheel Tycoon arrived at Cincinnati from Pittsburg, en route for this city.

The T. L. McGill left St. Louis for this city on the 12th inst.

The steamers Nebraska, Scotland, J. J. Roe, T. G. Twinbull, L. M. Kennett, Hannibal and Crescent City were advertised to leave St. Louis for this port on the 13th inst.

The Arago passed Cairo from St. Louis for New Orleans on the 10th.

The Dixie, Southwester, E. Howard and Ed. Walsh passed Cairo on the 11th, all bound for this city.

The Cincinnati Gazette of the 13th says:

The weather was clear, warm and pleasant yesterday. The river commenced rising on Sunday night, and up to last evening had risen fully two feet. There is a fleet of boats in port, and but little business for them to do.

The shipments for St. Louis and Memphis continue moderate, and for Pittsburg and New Orleans light.

The St. Louis Republican of the 13th says:

The river at this port was nearly stationary yesterday, not having risen more than half an inch since Sunday evening. There is six feet in the channel out to Cairo.

The Illinois river is still rising slowly, with three feet in the channel from Lasalle to the mouth.

The Upper Mississippi is rising above the Lower Rapids, and is nearly stationary below. There is four feet on the upper and three feet on the lower Rapids. Below Keokuk there is five feet in the channel.

The Missouri river is falling, with three and a half feet scant in the channel from Leavenworth to the mouth.

Thorville for Bayou Sara.—The new and fine passenger packet Iberville, Capt. V. B. Barasco, commander, and Mr. E. B. Mumford, clerk, leaves at 9 o'clock this morning for Bayou Sara and the coast.

Grosse Tete for Bayou Sara.—The fine freight packet Grosse Tete, Capt. James McQuoid, commander, and Mr. Geo. Wilkinson, clerk, leaves at 10 o'clock this morning for Bayou Sara and intermediate landings.

Ida No. 4 for Red River.—The fine, staunch and popular passenger packet Ida No. 4, Capt. W. T. Scovell, commander, and Mr. Alack Bell, clerk, will leave at 5 o'clock this evening for Shreveport and intermediate landings.

Mary E. Keene for Lake Providence.—The regular and elegant passenger packet Mary E. Keene, Capt. W. B. Richardson, commander, and Messrs. Janney and Armstrong, clerks, will leave at 5 o'clock this evening for Vicksburg and Lake Providence.

Grand Duke for Memphis.—The superb and popular packet Grand Duke, Capt. Sam. Applegate, commander, and Mr. F. V. Collos, clerk, will leave at 5 o'clock this evening for Memphis and the Bends.

H. R. W. Hill for Memphis.—The large and fine-sided passenger packet H. R. W. Hill, Capt. T. E. Stowell, commander, will leave at 5 o'clock this evening for Memphis and the Bends.

Gladiator for St. Louis.—The staunch and invincible Gladiator is again in the arena demanding her quota of freight and passengers for St. Louis. The G. is one of the most regular, as she is also one of the finest of our St. Louis passenger packets, and has earned and deserves her great and ever-increasing popularity. Capt. John Klinefelter commands, and Mr. R. A. Dharman occupies the office. She leaves at 5 o'clock this evening for Cairo and St. Louis.

City of Louisiana for Cairo.—The fine, first-class passenger packet City of Louisiana, Capt. T. Wright, commander, and Mr. Sam. R. Holliday clerk, will back out for Memphis, Cairo and all intermediate landings, at 5 o'clock this evening.

Fanny Bullitt for Louisville.—The fine passenger packet Fanny Bullitt, Capt. H. W. Smith, commander, will leave at 5 o'clock this evening for Louisville and intermediate landings.

John Raine for Louisville.—The fleet and superb passenger packet John Raine, Capt. Wm. Underwood, commander, and Mr. A. Palacio, clerk, will leave at 5 o'clock this evening for Cairo and Louisville. The Raine ranks among the foremost of the famous Louisville line of elegant packets, and is a perfect model of a steam carrier. Don't forget her this evening.

LISFRANCK'S FEMALE CORDIAL—

BEAUTIFYING!—INVIGORATING!—REGULATING!

For producing a Blooming Complexion, Erect and Graceful Carriage of the Body, Cheerful Disposition, Removing Blotches and Eruptions from the Face, Curing Low Spirits or Melancholy, Dizziness, Palpitation of the Heart, Pains in the Head, Back or Limbs, Whites, and all the various forms of Diseases Peculiar to Young and Delicate Females or Irregular Menstruation, to which the Female Sex is subject.

IT HAS NEVER BEEN KNOWN TO FAIL!

Originally compounded for the purpose of bringing on and regulating the Monthly Periods of Women, which it does under all circumstances. Ladies! Lisfranck's Female Cordial also proves to be the best Female Invigorator and Beautifier known.

It has been fully tested in Mobile, and proves to be equal to all the high encomiums bestowed upon it.

The lady of one of the most prominent citizens of Mobile has recently been cured of Debility and Low Spirits bordering on Insanity, through the use of one bottle of the Female Cordial. None of Lisfranck's Female Cordial, after all other remedies had failed, this organ was excited to healthy action, and she was restored to health, and has entered the society of her family and friends.

Numerous equally surprising cures of the most desperate Female sources of disease have become known to the proprietors.

Sold by JOHN WRIGHT & CO., New Orleans; TALLANT & CO., Mobile, and Druggists generally. sel3 ly

KATHRAN'S TROPICAL ROOFING!

Cheaper and superior to any other ever used in a Southern climate.

Its tested and concordant qualities are:

1st. DURABILITY—equal to the best slate roofs.

2d. IMPERMEABILITY—Superior to any other; no cracks or leaks before possible.

3d. BEAUTY—It presents a smooth and granite-like surface, and, although in color much less cool, though it is as good, any slate or wood roof, and even less than the inferior composition roofing heretofore offered to the public, saves the cost of gutters and leaders.

4th. INCOMBUSTIBILITY—It will resist fire better than a shingle roof.

5th. CONVENIENCE—It will not soften under the heat of this climate; and protects the interior of buildings from the intense heat of summer.

6th. SOLIDITY—It becomes harder and smoother from exposure; can be put upon roofs of any slope; and being of the lightest, does not require heavy rafters to support it, while it is of the simplest construction and breaking, nor does it require repairs.

The "TROPICAL ROOFING" is a chemical compound of asphaltum, composed of the best Trinidad, Bermudez and Bermuda, in proportions discovered by actual experiment and experience to the climate.

Testimonials of the correctness of the above are in the hands of the agent, and may be verified by any person wishing it before contracting.

All orders left at the Post-Office, Box K No. 2, will be promptly attended to; or apply to

SPRING HILL INSTITUTE, AN EPISCOPAL SCHOOL.—A Boarding School, six miles from Mobile, on the Shell Road. The Rev. Bishop Polk, Rector. The Rev. Wm. Mercer, Principal.

The Course is Collegiate and thorough. Boys are prepared for College or for business; or remaining long enough they go through a regular College Course in the Classics, Mathematics, Natural Sciences, &c. The French, Spanish and German languages also form a part of the regular course—the former, especially, being taught as a spoken language by a Professor from Paris.

Spring Hill is too well known for the extraordinary salubrity of its climate, and the excellence of its cuisine, to need comment. Parents may rely on this institution as affording a safe and reliable home for their sons. The principal and proprietor, an Episcopal clergyman, native of Annapolis, Maryland, gives the entire attention to the work, and pledges himself fully to do his whole duty.

For catalogues, giving terms, etc., apply at this office.

For further particulars address,

REV. J. J. NICHOLSON, Mobile, Ala.

CHEROKEE REMEDY!!—AN UNFAILING Specific for all Diseases of the Urinary Organs, and a General Alterative and Blood Purifier.

☞ This "Remedy" excels which all other preparations full. It is entirely unlike every other Sarsaparilla previous to the introduction of this. See symptoms above.

☞ It is "nature's own remedy" for Gonorrhea and Gleet, Gravel, Stricture, and is especially recommended for Prior Affection, Whites in Females for Inflammation of the Kidneys.

☞ As a general alterative and blood purifier it has no equal, and does not fail to cure Scrofula, Secondary Syphilis, Glandular Swellings, Mercurial and all Chronic Diseases, curing them more speedily and permanently than any other medicine known. It does this by purifying and cleansing the blood—causing it to flow through the natural pores and skin, thus carrying from the system all impure and pernicious causes which have induced disease.

☞ In all old cases of Gonorrhea and Gleet that have baffled all medical skill, it is especially recommended: in old cases it never fails, and, recent ones in from one to three days. A few doses positively removes all scalding heat, chordee and pain.

☞ It does not affect the breath, or interfere with any class of business.

☞ It requires no restrictions from other medicines.

☞ It can be put on the table-table or in the counting room without its ever being suspected as a "remedy" for private diseases.

☞ A treatise on Venereal disease, with full directions for those concerned sent to persons each b
