

Official Journal of New Orleans. J. D. NIXON, Editor and Proprietor. OFFICE: NO. 50 CANAL STREET. PUBLISHED EVERY MORNING, EXCEPT SUNDAY, AT THE PRESS OF J. D. NIXON, No. 50 Canal Street, New Orleans, La.

MONDAY MORNING, JANUARY 14, 1861. ADVERTISING RATES: For the first square, one dollar per week; for the second square, fifty cents per week; for the third square, thirty cents per week; for the fourth square, twenty cents per week; for the fifth square, fifteen cents per week; for the sixth square, ten cents per week; for the seventh square, seven cents per week; for the eighth square, five cents per week; for the ninth square, four cents per week; for the tenth square, three cents per week; for the eleventh square, two cents per week; for the twelfth square, one cent per week.

Mr. Cullum's idea of a dual Executive seems to have been already adopted at Washington City. Instead of one President we now have two. We have Gen. Scott and the Old Public Functionary, provided it be allowed to count the latter as one. Nominally, the O. P. F. is the Chief Magistrate, but the duties of the office appear to have all devolved upon Gen. Scott. The former is the shadow of Executive authority, while the latter is the substance.

The arrangement differs from that proposed by Mr. Cullum, however, in this, that whereas he advised that one of the Presidents should be a Northern and the other a Southern man, both of our Presidents are now from the North. Both are in the interest of the North. As long as the Executive power was vested in Buchanan alone, this made no special difference, there being so much sympathy and timidity about him that he was incapable of either much good or much evil. But when Gen. Scott, who is unquestionably a man of action and a man of boldness, was admitted into the Presidential partnership, by a private arrangement with the Old Public Functionary, we immediately detected a change in the policy of the Administration. From the inactivity which the President was pledged by his Annual Message to a marked transition to a policy of activity and vigor—to a policy which comprehends the employment of force to make the Republic of South Carolina once more a dependency of the old Federal Union. Buchanan, simply, was pledged against coercion. The firm of Scott and Buchanan appear to have opened a new set of books, and to have undertaken to follow different principles.

Gen. Scott is the senior Army officer of the whole United States, but he appears not to have control of the Army and Navy both. It must have been at his suggestion that the Star of the West was sent to Charleston with orders for Anderson; that the Harriet Lane was fitted out as a Custom-house—and that the "Brooklyn" now hovers off the coast of Charleston, like a piratical craft, no one knowing her business. We say this must be General Scott's work, since neither the Functionary himself nor his Connecticut Navy Secretary, whatever their wishes might be, could have positively had the grit necessary to such decided and positive movements.

This acquittal Mr. Buchanan of all responsibility for these extraordinary and indefensible proceedings, the one of it most now rest upon Gen. Scott. And it is with confidence that we say this old soldier and war-worn veteran will not fail to find the laurels he has plucked on so many a battle-field, and closing a life which has been dedicated to a defense of our people against foreign foes, by now making war, or at least threatening hostilities, against a sovereign State, which asks simply to be left alone in the peaceful enjoyment of her own independence. Everybody knows that the attempt will fail. Everybody knows that the Federal Government cannot sustain South Carolina, and that even if it could, a Union of force would be but a mockery—and yet we see Gen. Scott, now, apparently, as eager to push forward this shameful business as if he were fighting, in the vigor of his youth, the enemies of the country from a foreign shore. The old soldier, who had a prospect of going to his grave, ensconced in the hearts of every American citizen, seems bent now upon the fatal folly of fomenting civil war, and encomping a hostile raid upon the very people whom he has himself led to battle and to victory, and who have, in other times, fought so gallantly and so gloriously by his own side. Very well. The cause of South Carolina is the cause of every other Southern State. The first gun fired at her will be the signal gun of revolution throughout the South. If Gen. Scott is a devotee of lightning, the flames of civil war will be kindled in this effort of subjugation—but if he does not desire to forch the affection and admiration of the Southern people, and bring curses upon his head instead of blessings, he will speedily abandon the lead of a movement which is as unwise as it will prove unprofitable.

Gen. Scott, it is believed, will not be able to do more than to hold the fort. The attention of the members of this club is directed to the notice published in another column. It will be observed by advertisement that the partnership of Messrs. Gordon & Foster ceased on the 1st instant. Mr. Foster's share, Mr. Wm. Gordon, of the above firm, has associated with him Mr. A. H. Gordon, and will continue the business under the name of W. Gordon & Co.
