CHESTNUT GROVE WHISKY!

CHESTNUT GROVE WHISKY

The Proprietor of the above CELEBRATED WHISKY desires to introduce the article to the public and physicians of this and country, as the

Purest Distillable Stimulants

which has ever been prepared for medicinal use. It proves itself a cordial at once healthful and invigorating, to the enfeebled whether by age or disease. It is distilled from the best rye and malt, and its nutritious properties are preserved by a process peculiarly his own, whereby the Fusil Oil and other products injurious to health, are entirely removed. The Whisky is not rectified, but is carefully separated, so that a absolute purity of flavor results from any foreign admixture is guaranteed.

In addition to the following testimonials from the most eminent Analytical Chemists of Philadelphia, New York and Boston, the Shaw Agricultural Society have awarded it with gold Diploma, and Dr. Jackson, of Boston, has bestowed under oath to its absolute purity. Read the testimonials:

CERTIFICATES:

Philadelphia, Sept. 9, 1858.

We have carefully tested the samples of Chestnut Grove Whisky which you sent us, and find that it contains none of the poisonous substances known as Fusil Oil which is the character-atic and injurious ingredient of the Whiskies in general use.

ROBERTS, GARRETT & CAMAC,
Analytical Chemists.

New York, Sept. 5, 1858.

I have analyzed a sample of Chestnut Grove Whisky, received from Mr. Charles Wharton, Jr., of Philadelphia, and having carefully tested it, I am pleased to state that it is entirely free from poisonous or deleterious substances. It is an unusually pure and fine flavored quality of Whisky.

JAMES R. CHILTON, Analytical Chemist.

Boston, March 7, 1859.

I have made a chemical analysis of commercial samples of Chestnut Grove Whisky, which proves to be free from Chelsea y Fusil Oils, and perfectly pure and unadulterated. The flavor of this Whisky is derived from the grain used in manufacturing it. Respectfully,

[BY THE SOUTH-WESTERN AND ASSOCIATED LINES.]

From Missouri.

KANSAS CITY, July 10.—The Fort Scott Democrat, of the 7th inst., reports the occurrence of a bloody battle between Gov. Jackson, commanding the Missouri forces, and Gen. Siegel, commanding the Federalists, near Carthage, in which the latter were completely routed and driven back with great loss.

At the first onset the Missourians were driven back. The officers ordered a retreat, but the order was not heard on the wings, which continued to advance as the center gave way, nearly surrounding the Federalists, who retreated.

The fighting was mainly carried on by artillery, the Federalists retreating as the Missourians advanced. They finally reached Carthage, seven miles distant from where the fight began.

Gen. Siegel, it is reported, was attacked during the night, and compelled to retreat towards Springfield.

Gov. Jackson is fortifying himself.

CROPS IN CLAIBORNE PARISH.—The Homer Iliad says:

We have been blessed with refreshing rains during the present week. If we can have one more good season after this, Claiborne parish and all North Louisiana will raise corn enough for two years' consumption.

The weather is quite pleasant. A refreshing shower fell on Tuesday. Crops are now looking excellently well.

A SUPERBRAINAN VOYAGER.—We have it from good authority that, in digging a well some distance down on Bayou Bend, upon reaching the depth of 20 feet, the diggers discovered a good sized live terrapin. This to us seems "monstrous strange," and the question naturally suggests itself, how came that terrapin there? Perhaps he had a contract with some underground railroad, and was exploring the route. [Alexandria Constitutional.

LOUISIANA FLOUR.—Last Monday we were presented by Mr. W. Rose with a sack of flour, which was just ground at his steam mill, adjoining our corporation. It is a very superior article, and stands quite high in the Mr. Rose has a splendid flour mill in our midst. [Shreveport Southwestern.

WEATHER AND CROPS.—We have had several good showers this week.

The prospect for crops is beautiful. Corn and cotton will produce more than a full crop.

[Lavaca (Texas) Patriot.

We have had bountiful rains during the last week, and the prospects for crops were never brighter. Without our country is enjoying unparalleled good health for the season. [Iron Baptist.

A SCRAP FROM HISTORY.—It is a circumstance somewhat remarkable that Virginia was the eighth State of the thirteen to give in its adhesion to the Federal Constitution in 1787, and is now the eighth State of the South to secede from it. But what is more, her recent relucatance to leave the Union was only equaled by her original aversion to becoming a part of it, under the Constitution that was presented for ratification.

The Convention of 1787 was composed of members, a majority of whom were elected to vote for the Federal Constitution; and it was only after the clause declaring that "the power granted under the Constitution, being derived from the people of the United States, be resumed by them whensoever the same shall be perverted to their injury and oppression, and that every power not granted thereby remains with them at their will," was inserted in the ordinance of ratification, that six or more of the majority opposed to the measure consented to vote for it. Even with this accession of strength, the Constitution was carried only by a vote of 89 to 79. [Charleston Courier.

Letter from Bishop Otey to Wm. H. Seward.

MEMPHIS, TENN., May 10, 1861.

To the Hon. Wm. H. Seward, Secretary of State, etc., etc.:

DEAR SIR: I know not that a voice from one holding so humble a position as myself, claiming only to be a minister of the "gospel of peace," can reach you and obtain a calm and dispassionate hearing. "*Silent leges inter arma*," is a maxim that not unfrequently furnishes a justification to those who silence remonstrance, and with whom passion rather than reason prevails in the prosecution and attainment of their objects. There are crises in the affairs of nations which sometimes constrain men to overlook the differences in their relative positions and venture beyond the limits which a becoming modesty prescribes, in order to attempt valuable ends. The threatening aspect of the times portending disaster and ruin, equally to the assailed and the assailing, prompt me urgently to make this communication. If it fails of any salutary influence, the author of it will at least be conscious of purity of intention, and of having done what he could, according to his preference, to promote "peace and good will among men."

The blood of my ancestors was "poured out like water" on the battle fields of the revolution, and I was born almost within hearing of the shouts of the final victory, achieved on my native soil, that closed the conflict and proclaimed the independence of America. All the recollections of childhood, and all the glowing anticipations of youth and manhood, were associated in my mind with the glowing events of that period and the
