SELIGMAN.

[BY S. C. DOLZ]

Mr. James Lamport of the engineer corps is in town on business connected with the railroad.

Mr. F. E. Middleton is the latest arrival in Seligman. He comes to accept the position of night yardmaster.

Quite a bunch of cattle are being gathered for shipment, and in consequence a large number of "boys of the saddle" are in town.

For the past two or three days it has been more or less cloudy. Every indication points to bad weather very soon, and from the predictions of old-timers, it will be a prolonged storm.

Seligman's new Harvey house is up and in another week or two will be ready for the lath and plaster. All the furniture, we understand, is to be made on the ground, and when turned over to the Harvey system will be a very handsome building.

Mr. L. Cole, for some two or three months past night yardmaster at Seligman, has resigned his position and gone to Albuquerque. Rumor has it that he will, upon his arrival, be married. If such is the case, we extend to him our best wishes and hope success will ever be his lot, be he where he may.

One of the most enjoyable parties of the season was given on Hallowe'en at the home of Mrs.

Iler, by Mrs. McKray. The evening was spent very pleasantly in playing high five and eating that delicious candy. We hope there will be many more such enjoyable parties given during the winter.

Work on the big steel bridge over Hell Canyon has not progressed with the rapidity expected and a party who recently visited there predicts that it will take until the middle of December or first of January to complete the structure.
