ORPHOMET OFFICE, Ro. M CAMP STREET, Wednesday Evening, April 22, 1868.

Wedseday Evening, april 2, 188.

The money market continues duil and depressed. There is no commercial paper offered on the street, and though the inquiry is fair, there is no pressure on the banks for discount. All good short paper is taken at \$2 cent. First, second and third class mortgage paper is taken by brokers at 10, 12 and 15 2 cent. premium.

There is rather more cheerfulness generally atthe result of the election reports received, which is evinced by the improvement in city currency. Generally, however, there is little disposition to invest money, which continues to accumulate on deposit.

invest money, which continues to accumulate on deposit.

The City Council have resolved to sell the markets in block for ten years to the highest bidder above \$2.200,009. The result will be important in its influence on outstanding issues.

Gold opened this morning at 40% 2019 premium for round lots, the New York morning quotation being 391; later in the day, nowever, it went up to 40 in New York. Transactions here are reported to the extent of \$10,000, in three lots, at 40; \$14,000 similarly divided at 40; \$10,000 at 408; \$10,000 similarly divided at 40; \$10,000 at 408; \$10,000 similarly divided at 40; \$10,000 at 408; \$10,000 similarly divided at 40; \$10,000 similarly divided at 40; \$10,000 at 408; \$10,000 similarly divided at 40; \$10,000 similarly divided at 50,000 similarly divided at 51,000 similarly working \$10,000 similarly si

Domestic Exchange is scarce and so high that distant banks are ordering their balances remitted in U. S. currency. Commercial is selling at ½ to ½ premium, the banks checking at ½.

City notes are rather fluctuating, though no large transactions are reported. At last evening's board saies were made of \$11,000 at \$27\frac{1}{2}\$, \$3000 at \$77\frac{1}{2}\$ and \$4000 at 23. To day prices are firmer. Late in the day \$5000 sold at \$70. the

#### Sommercial Intelligence.

Wednesday Evening, April 22, 1863. Wednesday Results, April 22, 1882. 3

COTTON—The market is firmer under more favorable advices from Liverpool and New York.
Offerings are still light, however, and while the demand appears to be decidedly more active and general, most buyers are unwilling to pay asking prices. Sales up to 3 r. m. reached 1000 baies at till previous figures, but on receipt of the 5 r. m. cable telegram there was evidence of a renewed inquiry, which may result in further operations. Quotations rule nominally at 29:29%c. for Good Ordinary, 30:633%c. for Low Middlings, and 31:631%c. for Middlings, with a decided upward tendency. The continued falling off in receipts tends to strengthen the position of factors.

y bushel.

Oars—The supply is heavy and the demand only moderate. Holders are firm in their views, and are storing rather than sell at reduced prices. Sales to-day are 2210 sacks, of which 65, 890 and 1270 sacks at 74c., and 175 sacks at 75c. 

Bran—The market is well supplied. The inquiry is limited, but prices remain firm. Sales to-day are 250 sacks from the landing at \$1.75 ⊕ 100 lbs.

quiry is limited, but prices remain firm. Sales today are 250 sacks from the landing at \$1.75 %.

HAY—The stock on hand is ample for the demand, which is limited. In inferior grades there
is nothing doing, while the inquiry is principally
for the better descriptions. We still quote \$196
\$21.50 for fair to choice Ohio river.

Point—Prices are still tending upward. Holders, anticipating a heavy advance, show no anxiety to operate, while the movements disclose
more snimation on the part of buyers. Sales are
500 bbis. including 200 bbis, even weight mess,
sold late yesterday evening at \$27.624, 100 bbis.
do., this morning, at \$27.874, and 100 bbis. from
the landing at \$28 gb bbi. Dealers are retailing at
\$28.2502.25 50 gb bbis.

Bacon—Tile movements under this heading
disclose marked improvement in prices. There
is a better feeling generally and more inquiry,
but holders show no disposition to operate. Sales
to-day are 70 casks, of which 10 casks rib sides
and 10 casks clear rib sides and 20 casks clear
sides on private terms—enough is known, however, to justify us in saying at an advance on yesterday's prices—20 casks shoulders at 124c. and
10 casks clear rib sides at 1650. \$2 B. Our report
yesterday of the sale of 21 casks clear rib sides
was made, through a typographical-error, to read
"at 164c. \$2 B." It should have been 164c.

Land—The market is quiet and steady, with
great firmness in prices. The only sale reported
is one lot of 20 tierces at 19c. \$2 B. Frime in
tierces is held at 19c., and in kegs at 19c. \$2 B.

Fautants—No change of any moment to
notice. Offerings of cotton coastwise are light
and freights foreign are depressed. We quote: By
steam to Liverpool \$16026, for cotton, 16d, for coron,
60s. tobacco. Laverpool by sail, to fill
up British and American, 1 and for consignments, —Go cotton, 18c. for coron
and 40s. for tobacco. To New York by sail,
25 for flour. To Bremen by sail, cotton nominal
and 40s. for tobacco. To Havre by sail,
26 for cotton.

There is a big stage of water yet in the Illinois, which is declining, and the Missouri is falling from the highest point lately heard from. There is a satisfactory amount of business doing on the rivers, bat not enough to call out all the tonnage, and rates of freight and passage tend downward. The barge line to New Orleans is employed to its utmost capacity, and every few days a New Orleans packet sails with a full cargo."

From the Louisville Courier, April 20th:

"The river was stationary last evening with 16 feet 7 inches of water in the canal, and 14 feet 7 inches of water in the canal, and 14 feet 7 inches of water in the canal, and 14 feet 7 inches of water in the canal, and 14 feet 7 inches of water in the canal, and 14 feet 7 inches of water in the canal, and 15 feet 7 inches of water in the canal, and 15 feet 7 inches of water on the falls.
