

WOMAN.

Female, owing to the peculiar and important relations which they sustain, their peculiar organization, and the offices they perform, are subject to many sufferings. Freedom from these constitutes in no small degree to their happiness and welfare, for none can be happy who are ill. Not only so, but no one of these various Female Complaints can long be suffered to run on without involving the general health of the individual, and even long protracting.

PERMANENT SICKNESS AND PREMATURE DECLINE.

For it is pleasant to consult a physician for the relief of these various delicate affections, and only upon the most urgent necessity will a true woman so far sacrifice her greatest charms as to do this. The sex will then thank us for placing in their hands simple specifics, which will be found efficacious in relieving and curing almost every one of those troublesome complaints peculiar to the sex.

HELMHOLD'S EXTRACT OF BUCHU.

Remedies suffer in esteem, and hundreds of others apply vainly to druggists and doctors, who either merely soothe them with the hope of a cure or apply remedies which make them worse. I would not wish to say anything that would do injustice to the afflicted, but I am obliged to say that although it may be professed from excessive exhaustion of the powers of life, by laborious employment, unwholesome air and food, profuse menstruation, the use of tea and coffee, and frequent childbearing, it is far from caused by direct irritation, and applied to the mucous membrane of the vagina itself.

LIFE, HEALTH AND HAPPINESS OF WOMAN.

In all classes of society, and which, consequently, affect more or less directly the welfare of the entire human family. The means that nature designed for corporeal development, to be wasted and perverted in the restraint of dress, the early confinement of school, and especially in the unhealthy treatment of the ball room. Thus, with the body half clothed and the mind unduly excited by pleasure, pursuing in midnight heat the hours destined by nature for sleep and rest, the work of destruction is half accomplished.
