THE FOLLOWING IS THE ARTICLE...

The following is the article "Pollard's Southern Opinion," for which, according to Richmond telegrams, he was assassinated by a brother of the young lady alluded to:

An ELOPMENTS, SO-CALLED, ON CLAY STREET—AN UPPER TEN FAMILY CONCERNED—DRAKFUL INCIDENT.

"Oh no, we never mention 'em—old air."

The Indian summer has passed away, and with it has passed a fair and radiant daughter of one of our first citizens—a noble Clay street—

"Nobly unexpecting a mesalliance, much less the father, until last Saturday night, when the daughter, who was the light of the household, company with one (a masculine) who would ever have been proclaimed his son-in-law.

The runaway parties have been heard from, and it is now said the lady proclaims herself a wife of some six months, and that her affianced is the choice of her life.

"What God but 'ed together let us man put asunder."

This gay young man, who had whisked away the angel, is a Lothario named Horace Ford, of Goodrich county, which county ought to be proud of him.

Horace went to New Orleans, and not having been shipwrecked by the way, telegraphed or wrote his beloved. Thus it was that on the 15th of the month of August, the crimson period of October, when the forests change their garments, down to dull, chill November.

Alas, that love should never run smooth, in an eventful, but never did and never will, so they say. She responded, all unknown to the healthy dad, and he replied. Thus affairs progressed until Horace announced last week that he was off for Texas right away, and couldn't stop for tridles like an affiance.

Then it was that the Girl of the Period made up her mind and bundle. She would follow him—yes, she would follow him to the uttermost parts of the earth.

Her departure created, of course, a hubbub in the mansion on Clay street, and amid the stringing of hats and coats, and the packing of trunks, the telegraph was invoked, and parties sent in hot pursuit.

It was surmised that young Ford, instead of going off to Texas "right away," as he announced, had fled for New York, and that he had taken with him a young lady, who was observed to weep bitterly by the conductor, to whom she related her tale of woe and distress.

TELEGRAPH COMPANY.

THE NATIONAL TELEGRAPH COMPANY.

A new enterprise, to be known as the NATIONAL TELEGRAPH COMPANY, has been organized, with valuable franchises conferred by a recent act of Congress, for the purpose of establishing TRUST LINES OF TELEGRAPHS on all the principal railroads and rail routes in the United States.

The Stock is to be issued upon the same principle as that of the Merchants' Union Express Company, which recently commenced operations. The design is to invest the entire business community in the enterprise. This is done not so much to dispose of the Stock as it is to secure the use of the country through which the lines pass.

The Capital to be \$10,000,000.

In 100,000 Shares, of the par value of \$100 Per Share.

But the actual amount to be paid in Cash is \$25 Per Share.

And this amount is to be paid as follows: One per cent at time of subscribing, and two more, until the entire capital has been subscribed, and then on calls to be made by the Board of Directors; instalments not to exceed Five per cent per month. When thirty-five per cent of the par value of the shares has been paid, certificates of stock will be issued. This will give the Company a paid up

CASH CAPITAL OF \$2,500,000.

Which will be sufficient to duplicate lines to all, or nearly all, the paying points reached by the present monopoly.

The present Telegraph Companies of the country have been consolidated into one huge monopoly, and are now earning over six millions of dollars per year, or over one hundred per cent on the actual cost of their lines, their present capital having been watered over one thousand per cent.

The National Telegraph Company has the honor of recognition from the United States Government of the importance of their enterprise, with a grant of the most valuable franchises ever conferred upon a Telegraph Company. No competing line has ever had the right now granted by Congress to this Company to construct and operate lines over every Railroad and Mail Route in the United States. The position of this Company differs from that of any company ever before organized. The question of the Right of Way is forever settled.

The stockholders of this Company cannot be sold out or transferred to any other Company. The act of Congress under which this Company has been organized prohibits transfer of the franchise granted.

Actual Capital Required.

The Company confidently believes that thirty-five per cent of the Capital Stock will be subscribed and fully equipt

Twenty-five THOUSAND MILES OF WIRE.

Which will connect all the commercial centers and important places in the United States. This opinion rests upon the most reliable estimates and responsible offers to construct and equip the lines.

The NATIONAL TELEGRAPH COMPANY is organized under the laws of the State of New York, and franchises conferred by an act of Congress, approved July 8, 1868.

President—GEORGE B. SEEVER, of Cleveland, Ohio. Vice-President—ROBERT SQUIRES, of New York City. Secretary—GEORGE B. WALTER, of New York City.

COMPANY'S OFFICE: Nos. 44 AND 66 BROADWAY, NEW YORK.

A limited amount of the Capital Stock of this Company is offered to the locality, and those having an opportunity, and who will be pleased upon equal terms with its competitors, and will secure the interest in all franchises which have been secured, or may hereafter come, to the Company, from any and all sources.

Resident Director for the State of Alabama, Mississippi, Texas and Louisiana, DANIEL EDWARDS, 23, 25 and 27 New Adams Street, New Orleans.

At the Office of R. O. Dun & Co., 70 Canal Street.

Parties subscribing to the Stock will communicate by letter to the Resident Director, DANIEL EDWARDS, this day, at the time of subscribing.
