In response to a question as to how cigars seized for non-payment of taxes may be put upon the market, no stamps being affixed by which seizure was made, Rollins decides that stamps shall be affixed necessary to cover the tax, and the collector shall accredit to his stamp account from the proceeds of their sale, so much as may be equal to the value of the stamps affixed, and pay the balance, if any, into the treasury.

The amount of sale does not pay expenses and the tax due thereon, then the law authorizes the collector to bid the cigars in for the government for an amount not exceeding the tax. If it is thought Congress will provide for furnishing stamps to goods sold under forfeiture.
