

Woman. Females, owing to the peculiar and important relations which they sustain, their peculiar organization, and the office they perform, are subject to many ailments. Freedom from these contribute in no small degree to their happiness and well-being, for none can be happy who are ill. Not only so, but no one of these various female complaints can long be suffered from without involving the general health of the individual, and are long producing...

PERMANENT SICKNESS AND PREMATURE DECLINE. For it is pleasant to consult a physician for the relief of these various delicate affections, and only upon the most urgent necessity will a true woman so sacrifice her greatest charm as to do this. The sex with whom the greatest pleasure is to be derived, is that which is free from all these ailments, and who are long producing...

HELMHOLD'S EXTRACT OF BUCHU. Hundreds suffer on in silence, and hundreds of others apply vainly to druggists and doctors, who offer merely palliatives, and who hope of a cure or apply remedies which make them worse. I would not wish to assert anything which would do injury to the afflicted, but I am obliged to say that although it may be produced from excess of exhaustion of the powers of life, by laborious employment, immoderate air and food, profuse menstruation, the use of coffee, and recent childbirth, it is far more caused by direct irritation, applied to the mucous membrane of the vagina itself.

LIFE, HEALTH AND HAPPINESS OF WOMAN. All diseases of society, and which, consequently, affect more directly the welfare of the human family. The means that exist for the prevention of disease, and the means that exist for the cure of disease, are the result of the early confinement of the school, and especially in the unhealthy excitement of the ball room. Thus, with the body half clothed and the mind unduly excited by pleasure, the system is brought to the point of exhaustion, and the result is a permanent sickness and premature decline.

THE WIND, yesterday morning, detached a heavy piece of wood from the roof of the building No. 17 Camp street, and sent it down the head of a lady who was passing, causing a painful wound upon the scalp. The sufferer was kindly attended to and cared for in the store of Messrs. I. G. Henry & Co., opposite, and within half an hour afterward was able to depart homeward.

THE ROBBERY OF MESSRS. FORCHIMER & HABER'S STORE, in the city of New Orleans, which was published on Sunday morning, the facts not having then come to our knowledge, failed to give proper credit to Mr. J. Holland, the private watchman employed upon the spot. It seems that a little before 11 o'clock, on Friday, Mr. Holland noticed a man with three bundles of cloth on his shoulder going down Camp street, towards Gravier. He at once commenced to watch him, following him to the street of the same name. When near Magazine street the thief became alarmed, and throwing the cloth down commenced running. Mr. Holland picked up the cloth and finding Officer Finn, the two went to hunt up the store where the goods had been procured. An examination showed that the store of Messrs. Forchimer & Haber had been opened, and subsequent inquiry the next day proved that the goods had been removed, valued at \$12,000. It is reported officially to the central station of Officer Finn, and our report having been copied from the records of the office the credit due to Mr. Holland, who is an efficient and active officer, was not given.

SPECIAL OFFICERS BENEDICT and CUNNINGHAM yesterday arrested on Howard street, boy named John Morton, aged 14 years, charged with having stolen from the residence of Mr. Potash, adjoining his own, a gold watch, two gold chains and a revolver, valued at \$125. Special Officer Benedict stated that he saw the accused on his approach toward the revolver on the fence back into Mr. Potash's yard, and that he went there and found it. He then arrested Morton, and by dint of close questioning from him learned the means of recovering the articles which had been either pawned or sold at ruinously small rates.

MR. E. M. BOULTING, late collector of internal revenue for the Second District, has been required by Judge Durrell to furnish bail in the amount of \$25,000 for his appearance at the trial upon to answer the charge now pending against him in the U. S. Circuit Court.

FIVE BARRELS OF WHISKY belonging to the barge Burt were stolen from the dock, on the corner of St. Charles and Canal streets, the cargo reported to the fact on the river police station to answer the charge now pending against him in the U. S. Circuit Court.

THE TEMPERATURE yesterday, as shown by the thermometer at C. Duhamel, 111 Canal street, later corner Bienville and Chartres streets, was as follows: At 6 A. M. 69 degrees; 12 M. 75; 3 P. M. 76; 6 P. M. 73.

He will undergo examination probably this morning.

ABOUT HALF-PAST 7 O'CLOCK yesterday a son of Mr. Peter Copley, 15 years old, living at No. 547 Canal street, was severely bitten by a dog. The animal was shot by officer Campbell.

WE LEARN that a youth, scarcely eighteen, was arrested last evening at the corner of Toulouse and Bourbon streets, for being intoxicated, by a police officer who beat him so severely about the head that he was wetting in his blood when he was taken to the station. We hope Recorder Gastinel will inquire into the action of this officer and ascertain whether there was any justification for the violence. We were told there was not.

AS A YOUNG LADY was on her way home from the Opera House last evening, she stepped on one of those mischievous bricks called dandy-traps. We heard the squinting, which sounded very natural, having worn white trousers under the same circumstances, but it was quite queer to hear, "whoop, jumpin' crickets, I knew it would come!" coming from the lips of the young lady and the shivering which ensued. We appreciated the feeling of the fair one and suppressed a giggle.
