

The Mayor's Song.
BY CHARLES KINGSLEY.
Clear and cool, clear and cool,
By laughing, shallow, and dreaming pool;
Cool and clear, cool and clear,
By shimmering, shallow, and dreaming pool;
Under the eaves where the oozle drips,
And the fried wall were the church bell rings,
Unfaded for the unfaded;
Play by me, bathe in me, mother and child.

Dank and foul, dank and foul,
By the smoky town in its murky cowl;
Foul and dank, foul and dank,
By wharf and sewer and stinky bank;
Darker and darker the further I go,
Baser and baser the river I flow;
Who dare sport with the sluic-drow;
Shrink from me, turn from me, mother and child.
Strong and free, strong and free,
The flood gates are open, away to the sea;
Free and strong, free and strong,
Cleansing my streams to a hazy along,
To the golden sands and leaping bar,
And the taintless tide that awais me afar,
As I lose myself in the infinite main,
Like a soul that has sinned and is pardoned again,
Unfaded for the unfaded,
Play by me, bathe in me, mother and child.

VILLAGE SPECTACLES.

A man from one of the interior towns came to New Orleans, and while here, there occurred a fire in the night. He got up and went; and when he arrived he found a large party. He struggled through, but to encounter a squad of policemen, who formed a hollow square, and would let no one pass. He tried to show his way through, but a policeman roughly pushed him back with his club, saying: "You can't come in here, my friend, nor anybody else." Our country friend looked at him and quietly remarked: "O, excuse me; I didn't know this was a private fire," and went home and went to bed.

The eating houses (so-called) on the lines of railway south of the Ohio river, are tough holes. You pay a dollar for a cold, dry, meager, beggarly, nondescript, menial meal, the shameless proprietor taking your money with an air that would seem to indicate that that was all that was necessary, the fare provided being a matter of no consequence. At one of the swindling, mock, eating houses, A. H. asked the money taker "if he didn't have any tooth-picks?" "Y-e-s, we did have some, but the passengers got to carry 'em off, and we stopped buyin' any more!"

New York now numbers 25,000 Southern voters, who are permanent residents, and who have gone there during and since the war. It is a pity that as many energetic, enterprising, go-ahead New York merchants wouldn't come to New Orleans and make things hum. We shall all go to see the way things are going on in this town now.

We can now say one thing to our sister cities, and that is that New Orleans is free from gambling bells; but it would be a confounded, Washington, Congressional lie if we did say so, for they are thicker and a bigger nuisance than the smallest.

Why, among the thousand old and new "weeklies," published in New York, don't they have a paper to take the place of the Clipper, "in general theatrical and sporting news," without partaking of its vulgarity? It will do very well in its place, and for people like such a paper it is just such a paper as people like; but to people of sense and taste, the "leaders" and paroxysms of wit (!) of "our Jim," are enough to make a horse laugh his oats. The obituary of "our Jim" is looked for by "Village Spect" with great eagerness.

If Ben Brumel had been alive these times, so as to have gone to Pettus & Co's, Broadway, No. 530, New York, he would have been still more the "glass of fashion and the mould of form" than he now has the reputation of. Gentlemen going to New York this summer will make a note of Pettus' card, in another column.

Ellis' "Circulating Library" is a great institution, certainly. It affords plenty of valuable reading to those who are not able to buy a library outright for themselves.

NEW BOOKS.

A DOCTRINAL AND BREVITARY VIEW OF THE HOLY EUCHARIST. By Hon. Geo. S. Lacey, Member of the Louisiana Bar.

The objects of this work are well and succinctly set forth in the title. The author, who is a gentleman that for many years back has held a high position at the bar of our State, sets forth, first, his views relative to the doctrine of the real presence in the Holy Eucharist. He utterly rejects the transubstantiation doctrine, but holds that the body and blood are mystically present in the sacrifice. This point he elaborately argues, quoting many of the ancient writers to sustain the ground he takes. Then he discusses the question of how the Eucharist shall be celebrated. To elucidate this he again introduces many extracts from the patriotic writings, some of which are very interesting. The several liturgies of St. James, St. Mark, St. Clement, Malabar and St. Chrysostom, are all set forth at length, making an interesting and instructive chapter. The conclusion which we draw from the book is that the object of the writer has been to set forth in a clearer manner the doctrine of the Eucharist and to claim for its celebration that magnificence and solemnity which he contends all former custom warrants. For sale by Gresham, No. 92 Camp street.

THE CHRISTIAN SABBATH VINDICATED, AND THE SABBATH IN ITS POLITICAL ASPECT.

This is a book which has been written to prove that the obligation to observe the first day of the week as a day of rest and to keep it holy rests upon every man. The author—who does not publish his name—begins by tracing the observance of the Sabbath from its ordination in Eden through the various periods of the ante-Christian world, shows from St. Paul why the first day was substituted for the seventh, and closes by arguing that not only in the matter of the keeping of the Sabbath but in every other religious practice, there should be a union of church and state. On this latter point—the union of church and state—he insists strongly, asserting that he believes that as long as England "in an official form and with no hesitating accents, acknowledges the royal authority of Jesus Christ and honors his Sabbath," her government will be "absolutely indestructible." The book displays great research. It is written in a clear, rather diffuse style, and is well adapted to the understanding of every one who may feel interested in the subject of which it treats. For sale by Gresham, 92 Camp street.

JEFFERSON CITY PROPERTY FOR SALE.—Capitalists, by referring to our real estate column, will perceive a rare opportunity for one of the most judicious investments which the market presents. Messrs. Bouigny & Co., auctioneers, No. 127 Gravier street, are advertising a number of splendid building sites on St. Charles Avenue, very desirable localities, being delightful during the summer season and remote from the bustle and turmoil attendant upon city life. One square of ground on Magazine street, corner State, with a fine residence, suitable for a small family, and the grounds in a high state of cultivation, together with other properties, comprising one of the most attractive localities yet offered in our sister city.

The show will be disposed of at low figures and on long credit so as to close a certain interest, and we know of no chance for a speculation more favorable in its character or one that will certainly afford a superior interest.

EDITORIAL PARAGRAPHS, ETC.

Which burning is carried on in Mexico. Napoleon has a farm that pays. Bierstadt is laid up with sore eyes. Germanic late visit to Paris was innocuous. Bismarck office seekers give Carl Schurz no rest. Bishop Huntington enjoys a present of a \$25,000 residence.

Geo. Ellis has the American Artisan, Harney's Journal, Police News and Western World. Carl Formes' voice has grown as rasping as a coffee-mill. "Poor Carolina" tends to the Pyrenees this summer.

Mrs. Grant intends to give receptions every Tuesday afternoon. The Alaska Times boldly announces that it will be "independent in politics."

The Queen of Holland recently attempted to kill herself on account of domestic trouble. Queen Victoria will this year visit Switzerland again, and make also a trip to Sicily and Greece.

Actresses have now two avenues to success—gorgeous dressing, artistic undressing.—Ex. A grandchild of the Russian czar received \$600,000 worth of Christmas gifts.

Napoleon is a good chess player, but the game excites him, and he is angry when beaten. George F. Nesbit, the well known printer of New York, died on the 7th, aged 61.

Strawberries are selling in New York at \$10 a quart. Friends of Stanton propose to give him a sum of money.

A Florence letter says that Ristori will visit this country again next spring. It is said that Senator Sprague's wife is always in the Senate gallery when her husband speaks.

Juarez has recently had a birth day and a serenade. Why should an old maid be invisible? Because she isn't a parent.

Ellis has just added an invoice of new and interesting books to his very popular circulating library. The health of the prince imperial of France is reported to be very feeble. Physicians have no hope of his recovery.

Thanks to the officers of the steamers City of Norfolk and Concordia and the Southern Express Company. The newspapers of the country are copying as verities, various April 1st sells which appeared in the New Orleans journals.

The recall of Rosecrans from Mexico is said to have been resolved upon. Hale, it is said, has also had notice to quit Madrid.

Carl Schurz wickedly declares that H. J. Raymond of the N. Y. Times has a magnificent future behind him. The New York Sun denies, by authority, the story that A. T. Stewart has protested against the appointment of Collector Grinnell.

Prussian journals say a Protestant jubilee is to be held next autumn at Baden to counterpoise the council at Rome. The Austrian government has ordered half a million of breech loading guns of an American pattern, to be delivered within twelve months.

The Green Southern Sewing Machine Depot.

While some of the greatest minds in the world are now occupied in considering the ways and means by which the condition of females who are forced to labor for their bread might be ameliorated, it may appear somewhat pretentious on our part to advance the opinion that at the above establishments poor women can obtain an article which will go far towards enabling them to be independent and to earn an easy living than all the speculations and theories of philosophers North or South. Mr. Hedrick, the proprietor, has made a name in this community—and in fact, all over the South, by selling always the latest improved machines at prices within the reach of the poor, and at his two depots, Nos. 87 and 118 Canal street, can always be found such an assortment that none can fail being suited as to kind as well as price.

But Mr. Hedrick's great machines is the "Willcox & Gibbs," which appears to combine all the qualities of the high priced with the additional advantages of being cheaper and easier to learn than all others. We are sure that with one of those valuable labor-saving machines a sewing woman of but moderate skill can earn a comfortable living by working only half her time, and rest satisfied, too, that her work will never rip as long as the thread remains sound.

At the great Southern sewing machine depot there can also be found that beautiful and perfect piece of mechanism the "Elipic Sewing Machine," and the "Home" manufacturing machine, which will sew the finest tissue paper or oambrie and the heaviest sole or harness leather. In these establishments will also be found every class of thread, needles and other things used on any kind of sewing machine, as well as detached pieces to supply those which have been broken. We invite general attention to the advertisement, which occupies an entire column in another page.

EXTENSIVE SALE OF SQUARES IN BOSTONVILLE BY WALTON & DESLODGE.—We have to call attention to this important sale, which takes place on Wednesday next, the 14th, at the St. Charles Auction Exchange. The sale is to effect a partition and is in pursuance of an order of the probate court of the parish of Jefferson. The property to be sold has been subdivided into one hundred and six squares and will be offered by squares. We would advise those wishing to purchase to examine the plans of these squares, now on exhibition at the auction exchange. The whole of this property is destined to become very valuable, and if rumors are to be relied upon, the location of a great public work on this, or the next adjoining tract, will hasten this result. For the purpose of assisting bidders and purchasers, Messrs. Walton & Deslozge have had printed lithographic plans of the Bostonville squares, which can be obtained at their office, No. 6 Carondelet street.

A gold watch was lost at the Fair Grounds last Tuesday night. The loser advises elsewhere that if it is returned to the address of X. Y. Z., at the Casseport office, a liberal amount will be paid and no questions asked. This statement is made in good faith. The watch is priced as a gift, and it is hoped that the party having it in possession will restore it immediately.

AN EMPORIUM FOR ALL THE LATEST STYLES. Determined not to be surpassed by the attractions which the fair is presenting to all our energetic merchant, Mr. B. T. Walsh, assisted by his courteous salesmen, is offering such inducements at his famous bazaar, No. 110 Canal street, that both citizens and strangers to call and examine his elegant stock of summer fabrics, satisfied in his own mind that their prices and style will make up for the disappointment they have experienced.

A FASHIONABLE RESORT.—As a compensation for those who have been debarrated from attending the great Agricultural Fair, Mr. G. B. Genie, the popular clothier, No. 14 Camp street, invites both citizens and strangers to call and examine his elegant stock of summer fabrics, satisfied in his own mind that their prices and style will make up for the disappointment they have experienced.

A LEADING DENTIST.—We do not propose to address our remarks to the citizens of New Orleans, as but few of them are ignorant of the high reputation which has long been accorded to the distinguished operator Dr. J. S. Knapp, No. 15 Baronne street, but to strangers who visit our city and desire to be informed on the subject, we particularly design this notice. For the past 30 years Dr. Knapp has been practicing his profession among us with marked success, and so extensive has his patronage become that we doubt if any of his competitors can produce a more flattering record. In the practice of dentistry he has no superior, and with the lately introduced agencies at his command, the timid may now baffle all apprehension of that much dreaded pain, which heretofore attended operations in this line. An additional evidence of Dr. Knapp's acknowledged ability, the chair of Dean of the Faculty is now occupied by him and from which he has delivered many an instructive lecture.

MISSING WEATHER.—The Hancock Club finds itself lacking two wreaths which they lent to the St. Vincent Fair. Parties having them in their possession are requested to read the advertisement relative to them published elsewhere.

NEW ELBORADO.—From the nightly throngs which are to be observed in passing the New Elborado, No. 59 St. Charles street, we would infer that this brilliantly lighted saloon was quite a favorite with the votaries of the gaming tables. Strict order is apparently kept, and no disturbances have as yet interfered with its workings.

BARTRAM & FENTON'S Family Sewing Machines. John Frank, sole agent, No. 140 Poydras street, between Camp and St. Charles streets, the latest improvement on all other family machines. Ladies can be taught the whole secret of sewing on the same in one hour.

DIAMOND GRIST MILL.—The attention of planters, millers and distillers, coffee roasters and grinders, is directed to these celebrated mills and being superior to all others heretofore introduced and much better adapted for grinding all grains common to the South and Southwest into fine meal, hominy and grits. Mr. W. D. Levitt, No. 166 Gravier street, is the agent and patentee, from whom they can be obtained at manufacturers' prices.

Messrs. Steel & Co., of 72 Camp street, have favored us with one of their perpetually copying letter-books. This is a copying book which can be used without either water or a brush, and is truly a great labor and time-saving invention. Messrs. Steel & Co. are sole agents for them.

Visitors to the State Fair will find it to their interest to read the advertisement of Messrs. J. A. Braselton & Co., on the fourth page of this day's CRESCENT.

WASHINGTON GOSSIP.—Washington specials of the 6th, says:

The Cuban revolutionary minister has declined the public dinner and serenade tendered him, and prefers that no public demonstration will be made on his account pending the decision of the government on the question of recognizing the insurgents in Cuba. The administration still declines to receive him, while the Spanish minister stands ready on a woman's notice to demand his passport if the Cuban representative is recognized in any official way.

Lathrop Holey had an interview with the president to-day, and was appointed to a foreign mission, either Austria or England, and will probably be nominated to-morrow.

The bill authorizing the retirement ofrevet Major General P. H. Rensselaer with the full rank of colonel in the regular army, was to-day reported from the Senate military committee without amendment.

The Teche Country.

DESCRIPTION BY MR. HEDRICK, OF THE CHICAGO TRIBUNE.

Mr. Hedrick, editor of the Chicago Tribune, writing from Franklin, La., says: "After making close inquiry and personal investigation I am convinced that there is no part of North America in which an intelligent Western or Eastern farmer can make as much money with a given amount of capital and labor as in this Teche district, or more extensively speaking, in the Attakapas (pronounced Tuck-a-paw) country. Let half a dozen farmers come here together and purchase a plantation and divide it up among them in proportion to their means, each paying five or six thousand dollars, and reserving as much more to erect buildings, put up sugar little cane mills, purchase mules, wagons, farm implements and provisions until they can raise a crop. Thereafter this will be the result: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it. Put half of this in cane, and half of the other half in corn; spend \$4000 to \$5000 on improvements, stock, living and after a year or two the result will be: With \$6000 a man can purchase, say, 100 acres of cleared cane land and 150 acres of timber adjoining it.
