THE ALABAMA CLAIMS AND CANADIAN ANNEXATION.

A Washington dispatch of the 11th inst. says: The project of Canadian annexation in the settlement of the Alabama claims, with the joint consent of England and the colonies, begins to attract attention in governmental and diplomatic circles, and is by some regarded as likely to become a prominent feature in General Grant's administration. The views expressed on this subject by a part of the American press are, in favor of the annexation of the colonies, and the demand for annexation among the colonies, especially in Nova Scotia, have encouraged a belief in the feasibility of the scheme, if managed with diplomatic tact and a careful regard to English feelings. Objections to the possibility of its accomplishment, and doubts as to the policy and safety of such an enlargement of the republic are strongly urged by individuals
