Have You Tried Beggs' German Salve For Piles? If not, why not? Can you afford to suffer longer for the sake of 25 cents. This is the price of the greatest salve on the market. Sold and warranted by W. R. Kennedy.

It's Snow's Pine Expectoant, that is guaranteed to cure coughs and colds. For sale by all druggists. Price 25 and 50c bottle. A Nobby Suit Made to your order at Olof Ekberg's 716 Kansas ave.

NEWS OF KANSAS.

Jerry Simpson Opens His Campaign at Wichita.

The Tescott Bank Robbers Still at Large.

OTHER STATE NEWS.

Missouri Pacific Bridge at Leavenworth Washed Away.

WICHITA, Sept. 4.—Jerry Simpson opened his campaign in the auditorium here last night. A large audience made up of Wichita people and those from surrounding towns was present. Though Mr. Simpson looked emancipated and plucked by ill health his speech was forcible and he spoke clearly.

He claimed the income tax as the only measure passed by the Fifty-third congress in the interest of the masses, and that he said was a Populist measure. To the protective tariff system he charged the closing of factories, and the present lack of employment, and to the Republican financial system he charged all stringency in money matters and said the only relief for the people is to elect Populist congressmen, as they are pledged to give the country a currency based not only on the gold and silver, in sight but upon all the wealth of all the people in the land.

On state matters Mr. Simpson confined himself wholly to the equal suffrage question. He said not a word about the state administration.

In closing Jerry Simpson said he came away from congress as poor as when he went there, and he trusted to his friends to send him back.

DIDN'T GET NEAR THEM. The Posse After the Tescott Bank Robbers Unsuccessful.

SALINA, Sept. 4.—There are various rumors and vague reports of the Tescott bank robbers; but the fact remains that the authorities are beaten for the present and still hunting for a reliable clue. Sheriff Anderson and George Meyers who left here for Brookville last Saturday returned yesterday.

Sheriff Anderson states that the posse never caught sight of the robbers nor did they knowingly get within two miles of them. He thinks they are still in the neighborhood of Brookville, though that is mere conjecture on his part. He went to Tescott today to get a further description of the four men.

It is thought by a great many that the men are concealed in Barker's Hills north of Brookville. Swartz's wound is healing nicely.

DEDICATION AT EMPORIA. New Assembly Room of the State Normal School Opened for Use.

EMPORIA, Sept. 4.—A splendid program was rendered last evening at the dedicatory exercises of the new assembly of the Kansas state normal school, which, with the new additions, will cost in the neighborhood of \$60,000. Among the notable persons who participated in the exercises were: President G. F. Fairchild, of the state agricultural college; Chancellor F. H. Snow, state university; Hon. H. N. Gaines, superintendent of public instruction; S. M. Scott, president of the board of public works; President A. R. Taylor, state normal, and ex-president J. B. Kilgore and R. B. Welch. The formal delivery of the keys was made by S. M. Scott, and a response was made by John Madden, president of the board of normal regents.

Some splendid chorus music was rendered by the Kansas prize chorus of Emporia, consisting of seventy-five voices. Vocal solos were rendered by Mrs. Clara Harris and Mrs. Grace King. The fall term of the normal begins today, and the city is already well filled with newly arrived students.

THE IOIA MYSTERY. Coroner's Jury Declares Cummings Took His Own Life.

IOIA, Kas., Sept. 4.—After a week of close inquiry into the circumstances attending the death of W. A. Cummings, the real estate agent who was found in his office August 24 with his head hacked to pieces with a hatchet the coroner's jury has returned a verdict that "W. A. Cummings came to his death by reason of an over dose of morphine administered by himself, death being superinduced by the loss of blood from wounds presumably inflicted by himself while suffering from delirium caused by the morphine so administered."

The verdict is merely an official declaration of a conclusion upon which the community had already settled.

A cloud burst accompanied by a tornado visited this town last night and did a large amount of damage, destroying shade trees and tearing down awnings and signs. Two inches of rain fell in fifteen minutes.

A FLOOD AT LEAVENWORTH. Bridge Washed Away and a Child Drowned in Three Mile Creek.

LEAVENWORTH, Sept. 4.—During the rain and electric storm here the water in Three Mile creek could not be carried off fast enough and was dammed up, making a large reservoir. At one place the water became so high it washed away three stables and drowned four horses. The little child of a colored family living in the neighborhood was also drowned.

The water rushed into the house so fast that the grown persons had barely time to escape with their lives. The Missouri Pacific bridge across Three Mile creek, south of the union depot washed away and trains over that road will have to come in over the Wyandotte until the bridge can be repaired.

FOR VIOLATING ANTI-SCREEN LAW. The Case Against Wear Coal Company Argued at St. Scott.

St. SCOTT, Sept. 4.—The case of the State vs. A. H. Kirkwood, superintendent of the Wear Coal company of Pittsburg, Kan., was argued by counsel before Judge J. B. West in chambers.

The case involves the constitutionality of the famous anti-screen coal legislation of a year ago, and is the first case of the kind brought by the state against mine owners for violation of the anti-screen provision of the statutes. Judge West reserved his decision.

MARRIED TO SPITE ANOTHER.

An Emporia Young Man Marries One Girl to Pique Another.

EMPORIA, Sept. 4.—Last Tuesday George Hammers and Miss Daisy Oiger, both respected young people of this city, were married. Two days later Hammers quietly left here for Chicago without any explanation to his wife.

WICHITA INUNDATED. A Cloud Burst Visited That Town—Lightning Killed a Child.

WICHITA, Sept. 4.—A terrific storm visited this city at an early hour this morning. The lower portion of the town was inundated by a cloud burst, and many telephone wires are down.

EMPORIA BICYCLE RACES. EMPORIA, Sept. 4.—In the bicycle races held here yesterday the one mile race was won by Whitesey of Emporia.

Burned by Lightning. LYNCOX, Sept. 4.—During a heavy storm the barn of M. S. Shout, a farmer living five miles northeast of this place, was struck by lightning and totally destroyed, together with the contents, consisting of seventy-five tons of hay, a valuable station, and other personal property. Loss, \$2,500.

Banker Little's Case Continued. OATHE, Kas., Sept. 4.—The A. M. Little case was today continued by Judge Burris by agreement until November 12.

He Was Poor and Sick and Lonely. MOUND CITY, Sept. 4.—Sunday Edward Sawyer ended his life by firing a ball from an old 32 caliber revolver into his heart.

Drowned by the Boat Capsizing. LEAVENWORTH, Sept. 4.—Lineman Luckey of the telephone company of this city was accidentally drowned in Atchison. He was crossing the river at Atchison on a skiff when it got into a whirlpool and capsized with him.

WORLD'S CARNIVAL CITY.

St. Louis Offers a Continuous List of Attractions—Her Carnival Fall Festival Commences September 5, and Holds Full Week Until October 20, 1894.

The successful series of carnival seasons inaugurated by the citizens of St. Louis some fifteen years ago, continue as ever for the season of 1894, and from the morning of September 5, to the evening of October 20, the city will be one scene of gayety and splendor. Many new, novel and unique features have been added to the long list of standing attractions, and from every point of view this season of high carnival will outshine all previous attempts.

The St. Louis Exposition, the only one of its kind in the United States, that has lived year after year with flattering results, will throw open its doors to the public September 5, and remain in a state of activity until the evening of October 20. Sousa's Grand Concert Band has been re-engaged for the season and will give the usual number of concerts during the afternoons and evenings. The entire Missouri exhibit which appeared at the World's fair will be transplanted here, and find space in the commodious building.

The exhibitors, both foreign and home, will present new ideas in displaying their goods, and in addition to other features, a full complement of specialty artists will perform on the stage of the Music Hall.

The Great St. Louis Fair, which will open Monday, October 1st, and continue during the week, promises to afford many pleasant surprises. The "Midway Pleasure" feature at the World's fair will be reproduced in full, and the people of the west and southwest given an opportunity to see in real life the inhabitants of every civilized and uncivilized country on the face of the globe.

The "Streets of Cairo," "Old Vienna," "Moorish Palace," "Hagenbachs," "Perry Wheel," etc., will be faithfully portrayed.

His Royal Highness, the Mighty Veiled Prophet and retinue, will enter the gates of the city on the evening of October 2d, and parade through the principal thoroughfares as of old. Visitors to the city will arrive at the handsome New Union Station, the largest railway edifice in the world, and the most perfect in every appointment. Great inducements to visit the Carnival City are offered via the Missouri Pacific railway and Iron Mountain route, from all points on the system.

For complete programme, giving each week's attractions in detail, address any agent of the company, or H. C. Towns, General Passenger Agent, St. Louis, Missouri.

THE DEATH RECORD.

Mrs. Alice Ingram, a colored woman, 23 years old, died yesterday at her home on Hancock street, of consumption. The funeral was held today at 3 p. m., under the auspices of the Pearly Rose tabernacle.

An infant son of Mr. and Mrs. A. A. Fenwell, living at 325 Branner street, died yesterday and was buried this morning at 11 o'clock.

Washburn College Opens September 12th, with superior facilities for art study.

Born. Mr. and Mrs. Schwearing are the parents of a son, born August 31.

Superintendent of Telegraph A. R. Lingafelt of the Rock Island is in Danversport, Ia., for a day or so.

Good work done by the Peerless.

HOUSEHOLDER REPLIES.

He Will Prosecute Ben. Henderson for Criminal Libel.

The Atchison Champion publishes a personal letter to the editor from M. A. Householder, of the state board of charities, in which he says the charges of Henderson for "bloodthirsty" are "absolutely false in each and every particular." He has never accepted one cent dishonestly from any person connected with any of the institutions under the control of our board or from any other person. This I stand ready to prove any day. I have accepted contributions to the campaign fund for the state central committee from persons in these institutions, and have the receipts from the chairman of said committee for every penny received. I shall consult an attorney and if the above clipping amounts to criminal libel, immediately upon my arrival here, for your paper circulates in Cherokee county, I shall swear out a warrant for the arrest of Mr. Henderson and every one committing an offense in the publication of the above libelous statement.

FELL 1,000 FEET.

Cable to a Coal Shaft Broke and it Went Crashing to the Bottom.

MOWEQUA, Ill., Sept. 4.—A serious accident happened at the Assumption coal shaft, about seven miles south of here today. In lowering a cage the wire cable broke and the cage fell to the bottom, demolishing everything in its way. The shaft is zig-zag and 1,000 feet deep.

The engineer, losing control of his engine, let the up-bound cage go up through the roof of the shaft house, carrying complete destruction in its path. The whole side of the engine room was torn out and the cable drums were wrecked. Twelve men at work below had not been taken out. As there is no air shaft they are in a very bad position.

DEPEW, MEDIATOR.

All Communications Between Mr. and Mrs. Vanderbilt Through Him.

PARIS, Sept. 4.—Mrs. Vanderbilt is at Schwabach with her three children. Col. and Mrs. William Jay have been with her. There has practically been no communication between Mr. Vanderbilt and his wife for some weeks past unless through Chauncey Depew who was called last week to consult Mr. Vanderbilt on the death of President Newell of the Lake Shore road.

Col. Jay acts in all respects as Mrs. Vanderbilt's representative and will be her counsel in any settlement. The publicity has caused all parties, however, to consider the non-advisability of a divorce and it is reported that renewed efforts are being made by Cornelius and others and by intimate friends of both parties to bring about a formal reconciliation. It is now considered probable that this will be effected.

BEER IN A SATCHEL.

How Ed. Tyman Supplies a List of Customers Daily.

Ed. Tyman, the North Topeka jointist and clubkeeper, is still selling liquor in violation of the law while he is out of jail.

A. Q. Wilson, a little man who has traveled all over the west as a temperance agitator today told a JOURNAL reporter all about Tyman's way of doing business.

Mr. Wilson is a harness maker by trade and during the last two weeks he has been employed in the harness shop of Frank Hale on Kansas avenue in North Topeka. From the window in front of his work bench Mr. Wilson says he had plain view of Tyman's place of business which is in a room back of Moody's barber shop. He says Tyman deals in beer from the Anheuser-Busch brewing company which he receives in cases every day. His customers do not always visit his little back room, but he carries the beer out to them in a very good looking hand satchel. Tyman has such a good business that he can not take care of all of it himself and he has an assistant in the personage of a small boy about 12 or 14 years old who handles the beer and carries it out to customers at intervals.

Mr. Wilson says he wants Tyman's place closed up and he will make a temperance speech tonight at the corner of Fifth street and Kansas avenue, when he will tell what he thinks ought to be done with the Topeka joint.

FRED CLOSE'S RAILROAD.

Close is at Galveston Hobbnobbing With Capitalists and "Sich."

GALVESTON, Sept. 4.—The Gulf and Interior people, which took a look at the jetties yesterday morning. The steam yacht Richmond and a delegation of Galveston citizens were on hand to receive the visitors and the following gentlemen composed the party: Mr. T. C. Dunn, financial agent of the London syndicate who contemplates taking the bonds of the company; Mr. W. W. Charles of the King-Charles company, which concern has the contract to lay the steel rails and ties on 300 miles of the road to be built; Colonel F. J. Close, secretary of the company; Financial Agent E. E. Carpenter, General Land Agent L. C. Featherstone, General Attorney Noah Allen of the Interstate road. Mr. C. B. Dorchester, Judge R. R. Hazelwood, Captain L. Ely and J. P. Harrison of the Sherman committee and the following Galvestonians: Col. Walter Gresham, H. B. Cullum Ald. Harris and others.

The terminals at Bolivar and the government work on the harbor were inspected and the party returned to the city during the afternoon.

A meeting of the directors of the company was held during the afternoon, but no definite conclusions were reached.

Messrs. Dunn and Charles will remain here several days to finish up their pending contracts.

Debs Files a Demurrer. ST. LOUIS, Mo., Sept. 4.—The American Railway union, Eugene V. Debs and others, defendants in the injunction cases growing out of the late strike, by their counsel, have filed a demurrer to the bill of complaint introduced by the government. In their demurrer, the defendants ask for judgment, and that the bills be dismissed because of their insubstantiality.

Hung to an Electric Light Pole. WATERTOWN, Wis., Sept. 4.—The man Bourke, who assaulted Mrs. Boone near here some days ago, was caught yesterday, and as the officers were bringing him back here last night, he was taken from him by a mob and hanged to an electric light pole.

ANIMALS AND VEGETABLES.

Influence of the Ice Age on Their Distribution Over the World.

In the light of modern science we cannot view the distribution of animals and plants over the globe as either accident or fortuitous. Many laws relating to distribution are either wholly unknown or are known so imperfectly that it is quite possible that future study and observation may lead to their serious modification. Of a few points we may feel quite sure. In the geological age immediately preceding the present one an ice sheet spread itself from the far north toward the south. Its southern limit seems to have been an irregular line extending through southern Iowa, central Illinois and on the east to the Atlantic coast. In Europe and Asia the ice sheet extended quite as far south.

As a result of this invasion of the ice most native forms of life disappeared, and their places were filled by northern forms which gradually came in advance of the ice. When the ice sheets retreated, many of the northern forms began to adapt themselves to the changed environments. As conditions in Europe, Asia and America were different, organic forms developed differently, and hence arose the diverse forms of European, American and Asiatic faunas and floras.

The animals and plants on a few islands deserve brief mention. During the latter part of the glacial period the British islands were wholly submerged, and almost or perhaps all of the animals and plants then living on those islands were exterminated. Then the land of western Europe slowly rose, and what are now the British islands were connected with the continent.

While this connection lasted animals and plants passed over to the islands, but before all of the European species had time to establish themselves the island became separated by the sinking of the land, and the separation has continued to the present time. Before all of the forms of life which reached England could get as far west as Ireland the latter island was separated from England by a sinking which resulted in the formation of the Irish sea.

This separation accounts for the absence of reptiles in Ireland without invoking the aid of good St. Patrick. The peculiar plants and animals of Madagascar and Australia were both commented on, and their low forms of life attributed to their early separation from the other continents. Attention was directed to the fact that in both Australia and Madagascar generalized animals long since extinct in other places still survive. Thus in Madagascar is found the lemur, a generalized monkey, and in Australia the ceratodus still lives. This latter animal is intermediate between the air breathing animals and the water breathers.—Professor Whiting.

In Case of Apparent Death.

The new method of Dr. Laborde, which consists in making rhythmic traction on the tongue to bring about the respiratory reflex action, has been tried a great deal in France in the last two years in all sorts of cases of apnoea by drowning, electric shock, lightning stroke and the cases of apparent death in the newly born. Some 63 cases are given where patients were recalled to life by this method, and as it is so simple—using an ordinary tongue forceps, such as is on hand during chloroform or ether inhalation, the tongue is pulled forward and regular rhythmical movements are given to it—it is proposed to issue some simple directions that can be posted in every hospital and be in the hands of every midwife or any one who may be liable to see apnoea, such as those who give anesthetics.—American Therapist.

A Queer Mexican Plant.

In Mexico there is a plant known by the name of Palo de Lecha. It belongs to the family of euphorbia. The Indians throw the leaves into the water, and the fish become stupefied and rise to the surface and are then caught by the natives. In this case the effect of the narcotic soon passes off. The milk of this plant thrown upon the fire gives out fumes that produce nausea and headache. The milk taken internally is a deadly poison. It will produce death or insanity, according to the size of the dose. There is a popular belief among the lower class in Mexico that the insanity of the ex-Empress Carlotta was caused by this poison.—San Jose (Cal.) Mercury.

His Trademark.

A certain judge who is blessed with a tremendous head of hair, which is generally in a state of wild disorder, was questioning a youthful witness to make sure that he comprehended the character and importance of the oath he was about to take. "Boy," he said, with his severest and most magisterial manner, "do you feel sure you can identify me after six months? Now, be careful. Think before you speak." "Well, your honor," replied the boy after a prolonged survey of the judge's portly figure and rugged features, "I ain't sure, but I think I could if you wasn't to comb your hair."—San Francisco Argonaut.

England's Poisonous Snakes.

There are 1,500 different species of snakes known to naturalists, and only four kinds of snake or snakelike creatures are to be found in England. Of these but one is poisonous, and it is very rare. The ordinary snakes to be found in countries inhabited by civilized man are harmless, and but few of the poisonous snakes are deadly in their poison, even though the effects may be serious. A study of snakes and their ways would do much to do away with the educated fear of the reptiles that most people have.—Liverpool Mercury.

A Card of Thanks.

To the many friends who so kindly assisted us in our sad bereavement, and who furnished the many beautiful floral offerings, we wish to extend our heartfelt thanks. Mark L. Freeman, Mary A. Freeman, Mamie E. Johns, Sadie A. Slaughter.

A RETIRED BUSINESS WOMAN.

A Page From Her History.

The important experiences of others are interesting. The following is no exception. I had been afflicted with heart disease 25 years, much of the time very seriously. For five years I was treated by one physician continuously. I was in business, but obliged to retire on account of my health. A physician told my friends that I could not live a month. My feet and limbs were badly swollen, and I was indeed in a serious condition when a gentleman directed my attention to Dr. Miles' New Heart Cure, and told that his sister, who had been afflicted with heart disease, had been cured by the remedy, and in less than an hour after taking the first dose I could get to bed. I decided to give it a trial. I had decided to take one bottle of the New Heart Cure the swelling had all gone down, and I was so much better that I did my own work. On my recommendation six others are taking this valuable remedy.—Mrs. Mesgan, 50 W. Harrison St., Chicago, Ill.

TODAY'S MARKET REPORT.

Chicago, Sept. 4.—The markets today were all steady at slight changes from the closing quotations Saturday.

There was some outside demand for wheat and though Liverpool was reported dull, the price for December opened 3/8c higher, at 57c, touched 56 3/4c @ 56 1/2c, but sold at 55 3/4c.

Corn was firm in Liverpool, but the trade here evidently expected an easier market on account of the general rains in the corn belt. May accordingly opened 3/8c off, at 52 3/4c, but the country seemed to think the rain too late to do any good and its buying advanced the price to 53 3/4c, ending off to 53 1/2c.

May oats started 3/8c lower, at 85 1/2c, but recovered the loss. Provisions were firm. January pork opened 2 1/2c up, at \$13.95, sold at \$14.00, and fluctuated several times within that range.

January lard sold between \$5.00 and \$5.05, against 7.07 1/2c at the close on Saturday.

January ribs sold at \$7.22 1/2 @ 7.20, against \$7.17 1/2 on Saturday.

Estimates for tomorrow: Wheat, 457 cars; corn, 450 cars; oats, 415 cars; hogs, 23,000 head.

WHEAT—Firm. September, 57 3/4c; December, 57c; May, 52 3/4 @ 53c.

CORN—Higher. September, 50 3/4c; October, 50 1/2c; December, 50 1/2c; May 50 1/2 @ 51c.

OATS—Firm. September, 20 3/4c; October, 20 3/4c; May, 35 1/2c.

PORK—Higher. September, \$14.13; January \$14.17 1/2.

LARD—Higher. September, \$7.07 1/2; October, \$7.25 1/2; January, \$7.23 1/2; Ribs—Higher. September, \$7.22 1/2; January \$7.25.

RYE—Quiet. 46 3/4c. BARLEY—Firm. 50 3/4c. FLASHED—Steady. \$1.23. TIMOTHY—Firm. \$5.30.

HOGS—Receipts today 14,000; official receipts yesterday 24,765; shipments yesterday 6,865 head; left over about 4,500; quality poor. Market active and best grades 5 cents higher, other grades easy and in some instances were 3 cents lower. Sales ranged at \$5.02 @ 5.23. High \$5.40 @ 5.50 for rough packing; \$5.50 @ 5.25 for mixed; \$5.70 @ 6.35 for heavy packing and shipping lots.

CATTLE—Receipts for today, 6,000. Market steady and firm for good, with common quality easy. Sheep—Receipts 8,000. Market steady and moderately active.

KANSAS CITY, September 4.—WHEAT—1/2 lower. No. 2 hard, 45 1/2 @ 47c; No. 3 hard, 45 1/4 @ 46c; No. 2 red, 45 1/2 @ 47c; No. 3 red, 45 1/4 @ 46c.

CORN—Firm. No. 2 mixed, 52 1/2 @ 53c; No. 2 white, 52 1/2 @ 53 1/4c.

OATS—1/2c lower. No. 2 mixed, 30 1/2 @ 31c; No. 2 white, 30c.

RYE—No. 2, 36c.

FLAX SEED—Steady. \$1.10 @ 1.12.

BRAN—Dull. \$6.00 @ 7c.

HAY—Weak. Timothy, \$6.00 @ 2.00; prairie, \$7.00 @ 2.00.

BUTTER—Firm. Creamery, 19 @ 23c; dairy, 16 @ 15c.

EGGS—More active and firmer. Strictly fresh, 12c.

CATTLE—Receipts, 8,900; shipments, 2,400. Market for best steady, others weak.

TEXAS STEERS, \$2.55 @ 3.25; beef steers, \$1.10 @ 5.60; native cows, \$2.10 @ 2.75; stockers and feeders, \$2.10 @ 3.50.

HOGS—Receipts 10,100; shipments, 300. Market opened strong, closed weak and slow. Bulk of sales \$5.50 @ 5.85; heavies, \$5.75 @ 6.00; packers, \$3.70 @ 6.00; mixed, \$3.00 @ 5.80; lights, \$5.20 @ 5.80; pigs, \$3.25 @ 5.40.

SHEEP AND LAMBS—Receipts, 1,500; shipments, none. Market slow and steady. Good to choice natives, \$2.50 @ 3.25; good to choice westerns, \$2.25 @ 3.00; common and stockers, \$3.50; good to choice lambs, \$3.25 @ 4.25.

American Steam Laundry, 112 West 7th street, tele. 341.

Olof Ekberg.

The new Merchant Tailor. Try him 716 Kansas ave.

\$5.00 PER MONTH

Pays for medicine and treatment, at 322 Kansas avenue, opposite state house. Dr. Graham, the well-known national eye specialist, will treat you, and will forfeit \$100 for any case he cannot benefit or cure. It makes no difference how many physicians have failed to cure you or what your disease may be. Consultation or advice is free. Day or night at 322 Kansas Ave.
