

FORBARE TRUST

Members of the Recently Disolved Paper Combine Have Reorganized in Effort to Evade the Law.

WORK FOR GARFIELD. He Will Insert Probe Under the Williams Resolution.

Lumber Situation to Come in for an Airing.

Washington, Feb. 2.—Once more the paper combinations of the country are to be placed upon the grill by the federal government.

The investigation will not only affect newspapers which pay \$25,000,000 annually for paper, but also the same, but book publishers and box-board, writing, and other paper manufacturers who consume at least \$71,000,000 worth of paper annually.

The general paper company of Chicago, which was a selling corporation, organized under the laws of the state of Illinois, and the mills controlled by it, scattered among Illinois and other paper making states of the west, was dissolved some months ago as a result of judicial proceedings instituted in Minnesota.

The investigation which the government made of the paper combine. Paper company disclosed a working arrangement between it and the International Paper company and the Great Northern Paper company.

It appears, however, that the International Paper company, which is the Canadian as well as the home situation in mind for some time. It has possession of 1,600 square miles of woodland in the states and controls 2,000 square miles in Canada.

It appears, however, that the International Paper company, which is the Canadian as well as the home situation in mind for some time. It has possession of 1,600 square miles of woodland in the states and controls 2,000 square miles in Canada.

But there is not the slightest prospect of the tariff on pulp or paper being removed until 1905. That there will be at least one modification of the duties, if not their removal, is not doubted, but whatever action is taken will be taken when the general subject of tariff is under consideration.

So far as the paper companies alleged to be in combination are concerned, they deny emphatically that they have any agreement whatsoever, or that there exists any territorial division. Indeed, from their claim, it would seem that previous to the most active competition in every branch of the paper business.

The investigation of the paper situation can be conducted by the commissioner of corporations coincidentally with that which has been directed to make into the lumber situation. The pulp now used for the manufacture of paper is obtained from spruce and poplar, which are the only kinds of wood at present suitable for use by the processes so far perfected for treatment. But manufacturers say the time may come when paper will be made out of cottonwood, which grows along the Ohio and Mississippi rivers and the pine trees of the south.

Inquiry to Be Through. Commissioner Garfield will investigate every phase of course, of both the lumber and the paper industry. In fact, he should develop that combinations exist in the two industries in violation of the anti-trust law, the facts will be certified to the attorney general.

In Wall-street today that the steel report had been completed and was most favorable to the trust. This rumor had for its basis news in the minds of men who were bulling the market.

DRUGGISTS' LIQUOR SALES. Those in January Show a Substantial Increase.

The druggists of the city who hold liquor permits literally slipped down to the year end to the office of Judge Hayden to file a report of their doings for the month, as far as the sale of liquor is concerned. The reports filed indicate that business for the druggists has picked up considerably since John Schenck has taken charge of the county attorney's office. An inspection of the permits also indicates that there was a prevalence of colds during the latter part of the month which amounted almost to an epidemic.

Table with columns for names and sales figures for January and December.

Combine to Control Prices. The investigation which the government made of the paper combine.

The investigation which the government made of the paper combine. Paper company disclosed a working arrangement between it and the International Paper company and the Great Northern Paper company.

SEEN FROM THE GALLERY

The state free employment bureau is getting a short rest. D. W. Blaine, the man from Pratt, which is a rough spot on the smooth bosom of the great western desert, is busy with matters of the state.

Medame Shotwell-Piper.

The stage presence of Madame Piper is remarkably attractive. Commented the St. Louis Republic, in this connection "she sings with spirit and a dramatic quality which has her hearers."

Among the few in the house who did not try to crawlish when the anti-trust proposition was checked up to them, was one Doctor Brierley. He did not say that he wanted to add an amendment for the benefit of the whole world, and to use the words of the United States.

Word of what happened was sent to Llewellyn C. Parker, who communicated with the attorney general of Delaware. As soon as he was informed of the circumstances, Attorney General Handing had that state communicated with the local authorities. The discharge of Mrs. Beddell was at once ordered. Chief Black will be prosecuted.

So far as the paper companies alleged to be in combination are concerned, they deny emphatically that they have any agreement whatsoever, or that there exists any territorial division. Indeed, from their claim, it would seem that previous to the most active competition in every branch of the paper business.

AT AUDITORIUM TONIGHT. Well Known Singers Will Appear With Cycle Quartette.

Though the rise of Madame Shotwell-Piper has been but a matter of three or four years' development, few American singers are better known than the young dramatic soprano who is to be heard here at the Auditorium this evening with the Cycle Quartette.

NOTES FROM THE LEGISLATURE.

A bill has been introduced by Senator Tucker which was drawn by Fred S. Jackson, the attorney general, and which is designed to make it easier to obtain evidence of the violation of the anti-trust law. It provides that courts may require the production of their books and furnish such information as may be sought by the attorney general or county attorney.
