WORST IS OVER.

Financial Excitement in New York Is Subsiding.

Secretary Cortelyou Hands Out \$25,000,000.

TO STAND TOGETHER.

Other Trust Companies Will Back Up the America.

Run on That Institution Was Resumed Today.

New York, Oct. 24.—All the overnight developments in the financial situation were reassuring. The series of conferences last night participated in by Secretary Cortelyou, J. Pierpont Morgan, John A. Stewart, James Stillman and other representative bankers and men of affairs, disclosed an agreement in the opinion that the banking situation is well in hand and that with the government deposits to be made by Secretary Cortelyou today there will not only be enough cash on hand, but even more than might be needed in an emergency.

The conferences were held throughout all of last evening, beginning early and continuing up to 1 o'clock in the morning, at which time Secretary Cortelyou gave out the following statement:

"I have said to the gentlemen who called upon me today that any statement to the public regarding existing conditions here should be made with the utmost frankness, so depositors and others interested in banks might realize that entire reliance could be placed upon it. Those familiar with the facts have known that the situation was made serious, largely because of the circulation of unfounded rumors and the unreasonable anxiety of many who thought only for the moment. To pass safely through such a day as this, one of the most unnecessary excitement as it has been is the evidence of strength and support on the part of those who have undertaken the difficult task of re-establishing public confidence wherever there is weakness, and it has been in a comparatively few instances, strong and able men rendering aid, and in behalf of the treasury department I believe that it is my duty to do so, and I shall do in the largest way possible whatever may be necessary to afford relief. If the press of the city will continue its co-operation and if the public, on its part, will reflect upon the real strength of our banking institutions, there will be a prompt return of the confidence which the trust company warrants. America no matter what contingencies may arise today, through a committee formed under J. Pierpont Morgan's direction,

Mr. Morgan's pronounced part in staying the panic, and the calming statements by John D. Rockefeller, President Stillman of the National City bank and Vice President Frank A. Vanderlip of the same institution—these things, it is not fair to fail to help what is in some respects the most acute money crisis New York city has seen since the Grant-Ward failure in 1854.

Governor Hughes' prompt appointment of a new superintendent of banks in the person of Clark Williams, a prominent banker, and the fact that he suddenly vacated this week, and the steps taken to have the Knickerbocker Trust company resume business are other satisfactory signs.

As is always the case in time of financial excitement, New York bankers and brokers were at their desks early this morning awaiting the London quotations on American stocks.

The Hamilton bank in West One Hundred and Twenty-fifth street, suspended payment to depositors today. A notice was posted on the doors of the bank this morning, announcing that the bank was solvent, but in justice to depositors payment had been suspended until public confidence in banking institutions was restored.

The Empire City Savings bank, located at 231 West One Hundred and Twenty-fifth street, posted a notice this morning, announcing its suspension for 30 days under the banking laws. The officials of the bank declare that the institution is financially solid, but that they desire to avail themselves of the 30 days' notice of withdrawal under the state law, because they feared a run owing to the suspension of payment by the Hamilton and Twelfth Ward banks in the same neighborhood. The Empire City Savings bank, according to a recent statement, owed its depositors about \$2,300,000.

At 9 o'clock this morning it was announced that the Hamilton bank, which has its place of business in One Hundred and Twenty-fifth street, had decided to suspend payment pending the complete restoration of public confidence. A notice posted on the bank's doors declared it was solvent, but suspended payment in justice to its depositors, until confidence in banks is restored.

among investors is not warranted, and I hope the good common sense of American people will control the situation, personally I have absolute faith in the future of values of our securities and the soundness of underlying conditions.

WESTERN FAILURES.

A Number of Nevada Institutions Close Their Doors.

Reno, Nev., Oct. 24.—The State Bank and Trust company with headquarters at Carson and branches at Goldfield, Tonopah, Manhattan and Blair has closed its doors. The state bank examiner is in charge. Difficulty is due to inability to realize on stocks placed as security for a loan made by Sullivan Trust company last year. T. B. Hickey, president of the bank, is one of the wealthiest men in the state and the bank assets are thought to exceed liabilities. No fear is entertained that depositors will lose a cent. Hickey is now in San Francisco.

Following the announcement that the State Bank and Trust company had temporarily suspended, the Nye & Combs Co. bank, Frank Golden, president of Carson, Tonopah, Goldfield, Manhattan and Reno, put out a sign stating that the bank would be closed for three days in order to have sufficient coin shipped in to prepare for any run. There is no excitement and the feeling prevails that there will be no run.

Goldfield, Nev., Oct. 24.—The State Bank and Trust company has closed its doors. A notice posted on the door says that the suspension of the Knickerbocker Trust company, heading the accounts of the run on the institution and thinking that the doors would be reopened she left her home early to withdraw her account. With other disappointed depositors she lingered around the State Bank and Trust company.

More Cheerful in London.

RACES ALL OVER.

(Continued from Page One.)

52 free ascensions, landing in Germany, France, Holland and Belgium. His most noteworthy voyages previous to his latest achievements in winning the international cup were from Paris to Duz, 32 miles, and from Paris to Von Abercron of the balloon Busseldorf in the international race last year. In the Pommeren he won the Busseldorf competition last September against 22 competitors.

Alfred Leblanc, the pilot of the second Leblanc, was born at Paris, April 13, 1869. He is chief director of a great French lead and zinc works and is known as an ardent hunter, and all around sportsman. He has been for several years a qualified pilot in the Aero club of France. One of his most noteworthy ascensions was made March 16 of the present year, when in company with his present aide, E. W. Mix, he started in the Limousin, a small balloon, from the park of the Aero club in St. Cloud at 8:30 p. m. and landed at the next morning at 7:50 o'clock on the island of Rugen, in the Baltic sea at Pomerania making a total journey of 650 miles in 20 hours and 20 minutes.

Alfred Leblanc is an American born at Columbus, O. It is a peculiar circumstance that Erbslooff's aide in the winning balloon is also an American, being connected with the Blue Hill observatory at Hyde Park, Mass.

MET IN AIR.

Competing Balloonists Carried on Conversation With One Another.

New York, Oct. 24.—Alfred Leblanc, pilot of the French balloon L'Isle De France, and E. W. Mix, his assistant who landed at Herby, N. J., having all but won the James Gordon Bennett trophy, and the international race, arrived in this city today. They had assumed position of day for Boise to assume position of weekly editor of Idaho Scimitar, a weekly paper being started by Leblanc at Dubois. For years Lockwood was editor of the Weiger Signal. He was making a present of a six shooter to a friend and in showing him the gun he made the trip across the bay hazardous and a safe landing on the narrow neck of land on the Maryland eastern shore questionable.

He Kept the Pistol Too Long.

Boise, Oct. 24.—R. E. Lockwood, a well known Idaho newspaper man, accidentally shot and killed a man today. He had planned to leave today for Boise to assume position of weekly editor of Idaho Scimitar, a weekly paper being started by Leblanc at Dubois. For years Lockwood was editor of the Weiger Signal. He was making a present of a six shooter to a friend and in showing him the gun he made the trip across the bay hazardous and a safe landing on the narrow neck of land on the Maryland eastern shore questionable.

A Bank for Glasco.

Chicago, Oct. 24.—Close—WHEAT—Market steady. Bulk of sales, \$5,595,750; tops, \$2.82½.

Chicago Live Stock Market.

Chicago, Oct. 24.—CATTLE—Receipts today 7,000 head. Market 10c lower. Bulk of sales, \$5,595,750; tops, \$2.82½.

Chicago Produce Market.

Chicago, Ill., Oct. 24.—BUTTER—Market steady. Creamery, 33½¢; dairy, 21¢.

NEW YORK STOCK MARKET.

New York, Oct. 24.—STOCKS—Prices of stocks shot up buoyantly on the opening bell. An excellent feeling prevailed over the measures taken over night to fortify the financial position. Early advances in London heralded the recovery here. Westinghouse Electric rebounded 10 points from yesterday's closing and then moved higher. American Tobacco preferred jumped 4½ points, Baltimore and Ohio 2½ points, General Electric 2½ points, Union Pacific, Southern Pacific, Canadian Pacific and Atchafalpa 2 points, Great Northern preferred 1½ points, St. Paul and Northern Pacific 1½ points, American Amalgamated Copper 1½ points and a general range of advances running up to a point. Good stocks ran off contrary to the current of the market. Southern Pacific preferred falling 3½ points and Missouri Pacific and Toledo, St. Louis and Western 1 point.

After the opening burst of activity the market became quieter and there was some reaction.

The advance did not hold longer, heavy realizing and renewed liquidation in certain stocks speedily wiping out the initial advances. Federal Mining preferred dropped 1½ points, American Pump preferred 6 points, Missouri Pacific 4½ points, Corn Products 4½ points, Southern Pacific preferred 3½ points, Illinois Central, Sugar, Mackay companies and others 1½ to over 2 points. The whole market reacted decisively to below last night's closing.

The renewal liquidation caused some disorderly breaks in prices, but the market steadied and became quiet again. The 50 per cent money rate indicated the continued stringency of the money market. Northern Pacific was carried down 5 points below last night, the other Hill and Harriman stocks, St. Paul, Illinois Central, American Pump, Western Sugar between 5 and 4 points. New York Air Brake broke 11 points, American Express 4½ points, United States Express preferred 5 points, United States Paper preferred 5 points and Kansas and Texas, Westfield and American Cotton 2½ to 2 points. Rallies run from 1 to 1½ points in the most active of the weak stocks. The pressure of liquidation was very evident in the bond market, where sharp declines were general.

Speculation favoredish. St. Paul, Atchafalpa and the Hill stocks reacted to the lowest, but there were momentary good rallies in other lines. New York Air Brake got down 14½. U. S. Leather preferred 11½, American Smelters, Securities preferred 10, National Biscuit Co. 5½, Toledo, St. Louis and Western 5½, Mackay companies and Granby Mining 5, Northern Pacific preferred 4½, Chicago, St. Paul, Minnesota and Omaha dropped 5, but immediately recovered.

The list covered close to the low point of the day, although offerings were scanty. The market was quiet, with prices of inactive stocks. American Smelters' Securities preferred B extended its decline to 11½. American Telephone and Telegraph and Texas Land Trust 5, Illinois Central and National Biscuit preferred 2½ points.
