

NO BASEBALL.

Judge Sheldon at Olathe Up-holds Sunday Law.

Holds That Playing Ball Is a Violation.

OPINION A LONG ONE.

Went Back to Formation of Constitution.

Case Will Go to the State Supreme Court.

Olathe, Kan., Oct. 30.—Judge Sheldon of the district court in this city yesterday held that playing baseball on Sunday was a violation of the Sunday law. His opinion covered fourteen typewritten pages and came up on a gemurrer to an information filed by County Attorney Thornton against Frank Prater, one of the Olathe Eagles' players. The opinion went back to the constitution of the state in arriving at the intention of the legislature of 1858, 1862 and 1888.

Judge Sheldon referred to the discussion of the courts of Nebraska, Michigan, Ohio and New York as not agreeing with the supreme court of Missouri and closed as follows:

"That baseball is a game and that persons who engage in playing such game on Sunday violated the plain provisions of section 257, and that I have no right to exempt them from the duty of clearly expressing my opinion regarding the provisions of said section in deciding this motion, although the opinion does not correspond with the opinion of the supreme court of Missouri, and the motion to quash the information will be overruled."

The case will come on for trial in January and will be no doubt carried to the supreme court by the ball team, as the matter has never been passed on by the supreme court of this state. As is known Judge Sheldon is the first district judge in the state to pass on the matter.

MAYBE HE'S A RAD MAN.

Independence Sheriff Makes What He Regards as an Important Catch.

Independence, Oct. 29.—An exciting melee occurred yesterday on the train between this city and Coffeyville. A big, burly fellow, apparently a half-breed Indian and negro, was seated in the smoking compartment. He had all the earmarks of a thorough going crook. His facial expression, size and general demeanor were such as to excite suspicion in the mind of the sheriff. He was sleeping peacefully in the rear of the car, the intrepid little sheriff, Chas. Faxon, was seen to approach, having been tipped off by the conductor. Reaching the seat in which this beauty lay peacefully wrapped in slumber the sheriff tapped him on the shoulder. The man roused up and showed fight, but Faxon had him "dead to rights." After a little scuffle Faxon got the best of him. Upon searching the man the sheriff found two 38-caliber Colt revolvers, inserted in big 44 frames, and a big bunch of "the steel" skeleton keys which seem to be the "knights' coat of arms and cognizance."

HIS RUN DASTAROUS.

Resulted in Cliff Carter Being Sent to Penitentiary.

Iola, Kan., Oct. 30.—When Cliff Carter was making his escape from the county jail here last week, resulting in his spending a few hours in a cornfield and on the run, he probably thought he was improving his condition. As a matter of fact he made quite a run, having run from the reformatory at Hutchinson to the state penitentiary at Leavenworth. Judge Foust had made up his mind to send Cliff to the reformatory, but when Cliff came before him the judge sent him to the penitentiary for from five to ten years on the grand larceny charge and from one to five years on the burglary charge. If these are not enough, there remain two other penitentiary charges, stealing a shotgun and breaking jail. Whether it is as customary if he had anything to say why he should not be sentenced, Carter said he had and tendered the court a bribe of \$100. It is a statement of the trials he has endured while in jail, and alleges cruel treatment on the part of the officials. Judge Foust gave the court the documents long enough to get an idea of its contents and then told Carter that his "defense" was irrelevant.

Parker Company Home.

The Abilene Chronicle says: Hundreds of people were attracted to the Santa Fe depot a little after noon Sunday for the loading of engine whistles, ringing of bells and the sight of a train of 23 yellow cars all gaily decorated with flags and bunting to meet the home-coming of the Messrs. Cramer & Tyler's. W. Parker shows, known as the No. 2 company. After a twenty-five weeks' season which opened here in Abilene on May 15, the train returned to Neb., Oct. 26th and which took them as far north as Winnipeg, Canada; west to Fargo, North Dakota; and

UNFAILING SATISFACTION

In the unanimous verdict of those who know by experience the ease, comfort, appearance and durability of Kirkendall's Electric Welt Shoes

Modelled on graceful, symmetrical lines, perfect in fit, individual in style, these shoes have won an enviable reputation in the western shoe trade. No shoe could be more serviceable, more comfortable, however made, and we guarantee expert workmanship, fitness of material and complete satisfaction. No "breaking in," and comfortable from the first day. Made in variety of leather and built on honor for comfort and service. If your dealer cannot supply you, write us. We'll learn why and advise where you can get them. F. P. KIRKENDALL & CO., OMAHA, NEB.

NO ONE CAN TELL

Result of Washburn-K. U. Game Is Uncertain.

Coach Weede and His Men Not Over Confident.

KENNEDY WORKS HARD

Realizes That He Has No Walkaway.

One Thousand Rooters Coming From Lawrence.

Neither the Washburn squad nor the Jayhawk bunch were able to get a practice work yesterday on account of the wet grounds on both the Washburn and McCook fields. The weather at the present time is poor for football practice as the fields are heavy and the men can not get their plays off at all with any sort of precision. Then the present weather is altogether too conducive to lame limbs and "charley horses" and other ailments demoralizing to a football player.

For this reason Coach Weede of the Washburn squad did not allow his men to don their suits last night but kept them indoors. All the men were ready to practice but Weede thought it advisable to keep them off the field. Instead they remained in the football quarters where Coach Weede gave them a chalk talk on the different formations and ground into the heads the theory of the game.

Hope, the Cool Headed, Reliable Washburn Quarterback.

The indications are that the crowd, which will witness this game, will be a record breaker. The sale of seats at the present time is better than the managers of the two teams had hoped for in their wildest dreams. It is not unlikely that standing room will be at a premium at the big game which will virtually decide the championship of Kansas.

Kennedy Is Working Hard.

Lawrence, Kan., Oct. 30.—Since the Jayhawkers climbed out of their hole in the last 20 minutes of the K. S. C. game there has been a little hoop in the camp of Kennedy's braves that Kansas will meet Washburn on even terms Saturday. The tremendous fighting ability of the red headed quarterback when, by five successive quarterback end runs he advanced the ball from the center of the field and turned it into the arms of the wide receiver, has been taken as a sure sign of greatness at K. U. and he is now the football hero. Last night, on the field of preparation, Kennedy and Perry Kurov, "Sprouty" Porter, the great halfback of last year's freshman squad, who ran circles around the varsity, appeared on the field to arrange matters with the coaching staff that he had removed his conditions and was ready for his first workout. He is the man that Kennedy has been looking longingly at all season. If he can make a year school but by the Nebraska game he will be in good condition. He will not be used in the Washburn game for it is feared to put him in without mending him. One thing is certain, that the battle Saturday will be the greatest ever seen at Topeka. The Jayhawkers are a well balanced line and a lopsided backfield. Only the kicking of Porter can save Kansas from a drugging and everyone knows that Kennedy and Perry know it and their stern commands and the secret practice are sure signs that they are worried.

Porter, Whose Right Foot May Win for K. U.

At Lawrence the same conditions prevailed and Coach Kennedy did not allow his men to work out. Both teams are anxious to get in all the work they can and the present weather may have the effect of dampening the ardor of the players on the two teams.

WHITLOW IS A FREE MAN.

The Accused Drayman Will Return to His Home at Moran.

Iola, Kan., Oct. 30.—Samuel Whitlow, charged with the murder of Miss May Sapp at Moran, September 27, was released from jail yesterday on \$10,000 bond. He spent most of the night at the home of his father-in-law, and in consultation with his attorneys. He will return to Moran today, but declines to say what he expects to do during the intervening time before his trial begins. He is proprietor of a feed store at Moran, and it is probable he will resume the management of his business.

Great Place for Potatoes.

This community is getting to be great on sweet potato raising. A. H. Hartley raised 1,600 bushels of such acres. E. Ornsdorff had 30 acres in sweet potatoes and several acres produced over 250 bushels to the acre. If the average were 240 bushels, Mr. Ornsdorff raised over 7,000 bushels. Mr. Ornsdorff at 75 cents and \$1 per bushel will have quite a tidy sum of money for his summer's work. There is no better soil for sweet potato raising than is found here.—Arkansas City Traveler.

Another Daily at Junction City.

Junction City, Kan., Oct. 30.—The publication of a new daily, The Daily Sentinel, hereinafter commenced, here with H. M. Bunce and A. D. Colby of this city the publishers. The new daily is independent in politics.

Municipal Ownership at Wichita.

Wichita, Kan., Oct. 30.—Mayor Graham has called a special election to be held December 3 to give the Wichita voters an opportunity to vote on municipal ownership. The petition for special election bearing 2,800 signatures was presented Monday.

LOW PRICE STARTS WHEAT.

European Orders for 600,000 Bushels Received in Chicago.

Chicago, Oct. 30.—The break in the price of wheat brought large European orders for immediate shipment. About 300 left here last Sunday on steamers for Guaymas. Many of them are destined for Torreon. A great many of these orders seem to be at one time lived in the United States and are laboring under the impression that they can get an again.

Chinese Come by Thousands.

Mexico City, Oct. 30.—According to a dispatch to the Record since the first of the year there have arrived at the port of Salina Cruz 4,763 Chinese, of this total two-thirds having as their destination the United States. About 300 left here last Sunday on steamers for Guaymas. Many of them are destined for Torreon. A great many of these orders seem to be at one time lived in the United States and are laboring under the impression that they can get an again.

Galveston Flooded Again.

Galveston, Tex., Oct. 30.—A wind and rain storm of unusual severity struck this city early today. A number of persons in the water were blown to the ground and two or three persons are reported injured. The downpour was heavy for an hour and low areas are flooded. A telegraph wire with the exception of one used by the Associated Press are down.

Miners Pray for Mitchell.

Wilkesbarre, Pa., Oct. 30.—John Mitchell day was observed as a general holiday throughout the anthracite region. Many meetings were held and prayers were offered for the recovery of Mr. Mitchell.

Haughey is at all able to play he will be found in the Blue lineup. And if he is there, no matter how disabled he may be, he will play a great game. That is a habit of his. Johnston will probably play and although Smiley may be put in and Johnston saved for tackle. Johnston plays both positions well. White is still out of the game but probably be ready to play a part of Saturday's game.

RHEUMATISM THE BLOOD SATURATED WITH URIC ACID POISON

A disease so painful and far-reaching on the system as Rheumatism must have a deep and well-laid foundation. It is neither an accidental trouble nor one caused by outside influences; it is in the blood and system before a pain is felt.

Rheumatism is caused from an excess of uric acid in the blood which has gotten into the circulation because of a torpid or sluggish condition of those members whose duty it is to carry off the daily collection of refuse and waste matter of the body. This being left in the system sours and generates uric acid, an irritating, pain-producing poison, which the blood absorbs and distributes to all parts of the body. This acid, circulating through the system, acts as an irritant to the different muscles, nerves, bones and tissues of the body, and produces the inflammation and swelling and the terrible pains of the disease.

When the blood is overburdened with uric acid it continually grows weaker and more acid, and poorer in nourishing qualities. Then Rheumatism becomes chronic and not only a painful and distressing disease, but a formidable and dangerous one as well. The general health is always affected, the oils and fluids which lubricate the joints and muscles are destroyed by the acrid matter which the blood is continually depositing in them, the muscles shrink and lose their elasticity, the lining of the joints becomes hard and thick, and the sufferer is often left a hopeless cripple. But worse still, when the blood becomes fully saturated with the uric acid poison the heart is attacked, the corrosive matter settling on the valves and muscles of this vital organ, and then Rheumatism usually proves fatal.

Some persons inherit a predisposition or strong tendency to Rheumatism, for like all blood diseases it can be transmitted from generation to generation; but whether the disease is inherited or is brought on by a torpid, inactive condition of the system, the cause is always the same—the blood is filled with uric acid poison.

Temporary relief from the suffering and torture of Rheumatism is often afforded by the application of plasters, liniments and other home remedies, but as such treatment does not reach the blood, no curative or preventive effect can be expected. The next exposure to cold or dampness, or a spell of indigestion, or other systemic irregularity, will cause the old aches and pains to return, while the real disease is all the while getting a firmer hold on the system.

There is but one way to cure Rheumatism, and that is to cleanse the blood of the uric acid poison. S. S. S. is the proper treatment, because it goes down and attacks the disease at its head, and by filtering out every particle of the poison and strengthening and enriching the blood, cures Rheumatism in every form. S. S. S. changes the sour, acid-burdened blood to a rich, healthy stream, which quiets the pain-racked nerves, muscles and joints, and gently but surely removes every particle of the cause of Rheumatism from the circulation. S. S. S. reaches inherited cases as well as those which have been acquired, and good results are always experienced from its use. S. S. S. is the greatest of all blood purifiers, and it is an absolutely safe remedy because it contains no strong minerals to damage the system. Special book on Rheumatism and any medical advice you desire free.

THE SWEET SPECIFIC COMPANY, ATLANTA, GA.

Mrs. Ida Palmer, of 196 Fulton St., Brooklyn, N. Y., writes as follows: "I wish you to know what great benefit I received from the use of S. S. S. I have been afflicted with Rheumatism for twenty years, sometimes being entirely laid up by it and always lame in some part of my body. It grew worse until it was misery to attempt to walk at all; my right knee was nearly twice its natural size and was drawn up considerably shorter than the other one. A friend advised me to take S. S. S., which I commenced. I had tried so many things that I must say that I had very little faith that it would do me any good, but I was willing to try anything that promised relief. Before I had been using it long I was greatly relieved, and continuing the medicine I soon found that I was entirely cured. The lameness and soreness all left, I can straighten, move or bend my leg as well as any one and I have never known what Rheumatism was since. I am 65 years old and feel deeply grateful to S. S. S."
