

KANSAS CLUB NEWS

Matters of Interest to Women About the Doings of the Kansas Clubs.

Mrs. Mary Hanford Ford of Kansas City will come to Topeka for a series of three lectures the last week in March.

The Kansas history department of the city federation met Thursday night with the chairman, Mrs. W. A. McCarter, to plan the work for the year.

The members of the committee pledged themselves first of all to solicit members for the Woman's Kansas Day club.

It was decided to continue the work begun by Miss Lucy Kingsman, as chairman of this department, of collecting and preserving personal reminiscences of old citizens of Topeka relating to the history of the town and state.

The department will list and locate historical spots in Topeka with a view to finding on the map of modern Topeka where old Topeka lay.

The members of the civics committee of the City Federation of Women's clubs met Thursday with the members of the civics committee of the Commercial club to discuss the abolition of bill boards in Topeka.

The new number of the Club Member, Mrs. L. D. Monroe, editor, will be out next week.

One of the most interesting club meetings of the week was the afternoon at the home of Mrs. M. A. Low Thursday, for the West Side Forestry club.

Mrs. W. A. Johnston of Topeka, director of the general federation, and Mrs. Eustace Brown of Olathe, president of the state federation, visited in Leavenworth this week and were guests of honor at a luncheon which Mrs. F. H. Lemon gave Tuesday and a dinner which Mrs. C. C. Goddard gave Tuesday night.

The Art club met with Mrs. Norman S. Wear Monday. The programme follows: "The Art of Mural Painting," Mrs. Marburg; "Rug Weaving of New England," Mrs. Wiggins; "Mural Decoration in the Congressional Library," Mrs. Norton; "Violet Oakley," Mrs. Palmer; "Howard Chandler Christy," Helen Hogeboom.

Western Sororists met today with Mrs. Lee Monroe and the annual election of officers was held.

Mrs. C. H. Samson entertains the Minerva club Monday.

The Porcia club had a Colonial dinner Wednesday evening at the home of Dr. and Mrs. Crumline. The house was decorated with flags and bunting in the national colors.

The Portia club had a Colonial dinner Wednesday evening at the home of Dr. and Mrs. Crumline. The house was decorated with flags and bunting in the national colors.

The Portia club had a Colonial dinner Wednesday evening at the home of Dr. and Mrs. Crumline. The house was decorated with flags and bunting in the national colors.

spent in old fashioned games and music. All had a delightful time.

The Golden Rule club will meet with Mrs. A. W. Whitsett, 1610 West street, next Friday afternoon.

The Ceramic Art club will meet with Mrs. W. C. Webb, 827 Quincy street, March 6, instead of with Mrs. E. E. Bloom, first announced. Annual business meeting and election of officers.

WILL BE HERE TUESDAY.

Prof. Henry Fay Look to Give Pipe Organ Concert With Glee Club.

The Pipe Organ association have been holding in reserve for a sort of surprise to the people of Topeka a musical event in the auditorium on Tuesday evening, March 3rd.

Prof. Henry Fay Look, Latest Acquisition to Topeka Musical Circles.

Since Prof. Penny went to Kansas City, the association has been planning for an organist, whose services could be commanded for our large organ, whose skill and talent was somewhat commensurate with our extraordinary instrument.

They believe that they have succeeded in this undertaking by an arrangement with Washburn college, for the services of Henry Fay Look of Boston.

Mr. Look has been added to the teaching force of the musical department of Washburn, and since the beginning of the college year he has demonstrated an aptitude in assisting Prof. Klingenberg in the piano department, that has made him a favorite there in that line.

He has also demonstrated his ability as a choral director that has been highly pleasing. He has organized and drilled a glee club, which has attained a rank and degree of proficiency that has never been equaled in that institution, and he has organized a surplus choir in the First Congregational church, which enjoys the unique distinction of being the only such organization west of the Mississippi river, outside of the Episcopal churches, and the monthly Sunday evening concerts given by this choir, have become so popular that crowds have been turned away for want of room.

At the commencement exercises of the conservatory, he was singled out by the dean, Prof. Wallace Goodrich, as the organ soloist of that occasion, from a school numbering more than 2,500 pupils. He was the organist of the Pilgrim Congregational church of Boston until he came west, and was at the same time serving as organist for the First Spiritual Temple of Boston, officiating at six services every Sunday. It is an undoubted fact that the musician of Boston accord to Prof. Wallace Goodrich, the dean of the New England Conservatory of Music, the distinction of being the most competent musical critic of New England and this is what he said: "Mr. Look is a university graduate, a man of unusual refinement and culture, and an excellent musician of experience, both as an organist and choir master. He is a graduate of the New England Conservatory of Music, and an excellent performer, as well as a man of charming personality."

Prof. Look will give his first organ recital in the auditorium Tuesday, March 3, and will be assisted by the Washburn College Glee club. Admission 25 cents.

Following is the programme: Glee Club. "Violet" J. S. Bach. "Tocatta in D Minor de Bricqueville." Etude pour pedaller (Played with the feet only.) Handel. "Mulligan Musketeers" Atkinson. "Humoresque Op. 101, No. 1" Dvorak. "Tocatta in G Major" Rheinberger. "Tocatta in D Minor de Bricqueville." Etude pour pedaller (Played with the feet only.) Handel. "Mulligan Musketeers" Atkinson. "Humoresque Op. 101, No. 1" Dvorak. "Tocatta in G Major" Rheinberger.

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA.

La Grippe Is Epidemic Catarrh

The disease now known as "grip" used to be called "influenza."

It very closely resembles a cold, but is more tenacious in its hold upon the system and produces more profound disturbances.

Grip is in reality epidemic catarrh. When it once begins it spreads over the country very rapidly.

People do not catch the grip from each other, but each one catches it from the atmosphere.

"Most Effective Medicine Ever Tried for La Grippe."

Robert L. Madison, A. M., Principal of Cullowhee High school, Painter, N. C., is chairman of the Jackson County Board of Education.

He is a writer of occasional verse and has contributed to a number of leading papers and magazines—religious, educational and secular.

In speaking of Peruna, Mr. Madison says:

"I am hardly ever without Peruna in my home. It is the most effective medicine that I have ever tried for la grippe."

"It also cured my wife of nasal catarrh. Her condition at one time was such that she could not at night breathe through her nostrils."

"In consequence, an inflamed condition of the throat was brought about, getting worse and worse and yielding to no remedy until Peruna was tried."

Healthy Mucous Membranes.

Those who are fortunate enough to have perfectly healthy mucous membranes ordinarily do not catch the grip.

The mucous membranes lining the nose, throat and lungs, when in a normal state, are an effectual barrier against the invasion of grip.

But, if there happens to be the slightest catarrhal derangement of the mucous membranes, then the victim becomes an easier prey to the grip.

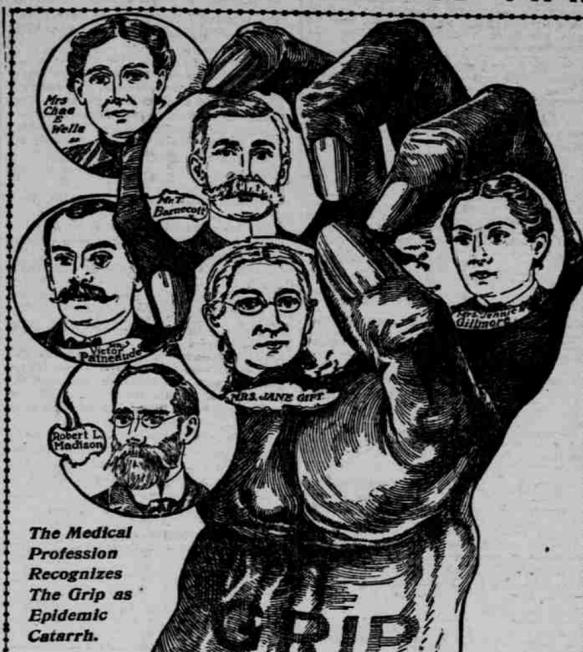

This in part explains why some people get the grip, while others do not.

The rational thing to do is to keep the system free from catarrh. In attempting to do this most people have found Peruna to be invaluable.

Systemic Catarrh, the Result of La Grippe. Pe-ru-na Receives Credit for Present Good Health.

Mrs. Jennie W. Gilmore, Box 44, White Oak, Ind. Ter., formerly Housekeeper for Indiana Reform School for Boys, writes:

"Six years ago I had la grippe, which was followed by systemic catarrh."

The Medical Profession Recognizes The Grip as Epidemic Catarrh.

"The only thing I used was Peruna and Manalin, and I have been in better health the last three years than for years before."

"I give Peruna all the credit for my good health."

During an epidemic of grip Peruna should be used. The doses recommended on the bottle are sufficient.

After the grip has once been acquired, Dr. Hartman recommends the use of Peruna in teaspoonful doses every hour during the acute stage, after which the directions on the bottle should be followed.

Experience has shown that the people who use Peruna as a remedy for grip generally recover sooner and are less liable to the distressing and long-continued after-effects of the grip.

When Peruna has not been used during the course of the grip and the patient finds himself suffering from the after-effects of this disease, a course of Peruna should be resorted to.

Suffered Twelve Years From After-Effects of La Grippe.

Mr. Victor Patneade, 328 Madison st., Topeka, Kan., member of Knights and Ladies of Security, writes:

"Twelve years ago I had a severe attack of la grippe and I never really recovered my health and strength—but grew weaker every year, until I was unable to work."

"Two years ago I began using Peruna and it built up my strength so that in a couple of months I was able to go to work again."

"This winter I had another attack of la grippe, but Peruna soon drove it out of my system. My wife and I consider Peruna a household remedy."

Pneumonia Follows La Grippe.

Mr. T. Barnecott, West Aylmer, Ontario, Can., writes:

"Last winter I was ill with pneumonia after having la grippe. I took Peruna for two months, when I became quite well, and I can say that any one can be cured by it in a reasonable time at little expense."

Pe-ru-na—A Tonic After La Grippe.

Mrs. Chas. D. Wells, Sr., Delaware, Ohio, writes:

"After a severe attack of la grippe, I took Peruna and found it a very good tonic."

Mrs. Jane Gift, Athens, Ohio, writes:

"Six years ago I had la grippe very bad. I read a testimonial of a woman who had been cured of grip by Peruna. My husband bought me a bottle of Peruna. I was soon able to do my work. I continued using it until I was cured."

Calendar for February 1908 showing days of the week and dates.

The Twenty-Ninth and How It Happened

There are a great many people who do not understand the philosophy of the leap year or how there comes to be an extra day—the 29th of February—every leap year.

Those centennial years of which the number, after suppressing the two ciphers, is divisible by four, be regarded as leap year, the purpose is accomplished.

So much for legend. And now for history. In the year 1288 the following law is said to have been passed in Scotland:

Our civil year is founded upon the period of the revolution of the earth about the sun. If the natural year had exactly 365 or 366 days there would be no trouble. The civil year would accord with it and represent precisely the same period of time.

And ever since then, concludes the legend, which it is needless to say, is not found in Butler's "Lives of the Saints" or in any other work of hagiological authority, if a man refuses a leap year proposal he must pay the penalty of a silk gown and a kiss.

Rosini, the musical composer, was born on February 29, 1792. On the 29th of February, 1864 when he was 72, he celebrated what he called his 18th birthday, and in the pleasant companionship of mutual friends declared his deliberate purpose to "turn over a new leaf and disregard the frivolities of youth, and the indiscretions of his teens."

Keep up a good circulation of the blood and you will not take Cold, have the Grip or be sick. Most sickness in the winter is caused by a checked circulation, it may be from sitting in a draft or by standing still on the cold pavement while talking to a friend.

If you have taken Cold, take Humphreys' "Seventy-seven" right away, it will start the blood coursing through your veins and break up the Cold. At Druggists, 25c.
