This was a mild and unusually favorable February for the Kansas wheat crop. The moisture the state received was the third heaviest on record for February and greater than the combined amounts of last November, December and January. A large per cent of it occurred as snow, which fell on unfrozen ground and soaked in as it melted. Very few counties in the northern half of the state had less than six inches of snow and many, even in the extreme western part had ten inches or more. The soil was thoroughly soaked at the close of the month.

AT THE THEATERS.

At the Novelty.
Hodges and Tynes in "A Night on a New York Roof Garden" return to the Novelty this afternoon for an engagement of three days. Since their appearance here early this season new songs and comedy have been interpolated and the piece revised so that it would hardly be recognized. Among the musical numbers is "Just a Night on Broadway," which will be sung by Jimmie Hodges. This is the first time this song has ever been used in Topeka. Several new people are in the company and the prospect is for an entertainment even better than that offered by them on their first appearance here. The Parshleys, instrumentalists; Carl and Rhea, singing and dancing, and a new comedy photograph complete the program for the weekend.

Cecil Fanning.
Cecil Fanning, baritone, will be at the Grand Friday afternoon at 4 o'clock, an attraction of the Radcliffe concert series. Mr. Fanning is a widely known singer and has met with a great degree of success in his concerts in the United States and Europe. "Christian at the Hip."

With the coming of photoplays like "The Christian," which is being shown at the Hip theater all this week, the passing of the shallow and trifling picture plays is indicated. By taking a world masterpiece of fiction and presenting it in a photoplay without detracting anywhere from the original

necessary for the production, but the result was worth while because "The Christian" stands today alone as a work of motion photoplay. It had plot and heart interest and is the sort of a story that will absorb the interest of all who see it.

Added to the talent of Mr. Hall Caine, who wrote the book, is the wonderful work of an all-star cast headed by Miss Edith Storey and Earle Williams. Given people of their caliber a real masterpiece to work on, they can produce something so far beyond the ordinary that other picture plays would seem stale and flat.

At the Orpheum.
The Thursday's change at the Orpheum finds Augusta Evans' famous play, "St. Elmo," as the feature. This old story has been reproduced into an elaborate photoplay, depicting the manners and customs of the day before the Civil War when the chivalry of southern gentlemen was proverbial. The scene is set in the grand old mansion of the field of honor and none could recklessly assail the fair name of a lady. William Fox has gathered together the most powerful array of talented people to enact this grand play and it is said the cost exceeds \$100,000. This film is complete in six reels of 144 scenes. The fantastic spectacle for the last half includes Margaret Clayton, a dainty soubrette, who is also a clever cartoonist, and Skipper, Kenney and his associates, three boys with the latest in songs. Saturday this house will feature Charles Chaplin in a comedy-riot, "A Night Out."

"Love Routed at the Iris."
A love story full of the charm and tenderness of a spring-time romance, with many unique effects, is the Famous Players Film company's four-reel production of "Edward and Louise," the romance of the ranch on the rail. "The Love Route," the current feature on the Paramount program at the Iris this afternoon and evening, is a picture of the most interesting and exciting scenes make this subject peculiarly adaptable to the screen, and its possibilities have been favorably taken advantage of in the present production.

RED SNAPPERS.

The "Cardinal of the Sea" Will Be Distributed by William Green & Son.

Red Snappers, the Cardinal of the Sea, is caught with hook and line only, in thirty to fifty fathoms of water. Spawning in the depths of the ocean it is incubated in interstices of coral reefs where it makes its home, guarded by the parent fish and lives on the milk of the coral until it is able to take care of itself.

As he comes out a warrior bold, clothed in his coat of scarlet and sleeping in his armor, challenges all comers and goes. His life is a battle for breath and with rare exception he makes a meal of his adversary. Since the Red Snapper's home is in the clear sky blue waters far out from land, he never tastes decayed animal matter. His flesh is free from the germs of vermin and never develops microbe, bacteria, nor protomiae.

The great pressure under which he lives and his active life makes his flesh firm and solid, never soft nor mushy when cooked. This rare delicacy of the sea stands in a class by itself to boil, to bake, to fry, to broil. Can now be had by the people of Topeka at William Green & Son, retail depot of Gulf Fisheries company of Galveston, Texas.

Fresh from its deep sea home by express at wholesale prices, now 12 cents a pound.—Adv.

FARMERS IN PROTEST

Grain Storage Bills in Legislature Grieve Co-operative Association.

Wichita, Kan., March 4.—With one eye on the growing wheat crop and the other on the state legislature in Topeka, members of the Farmers' Co-operative Grain Dealers' association met in Wichita this week to sing anthem of joy and write resolutions of protest. The songs of joy followed reading of reports that western Kansas promises another bumper wheat crop. But when the farmers read of the doing of the state legislature in Topeka, their brows clouded and they petitioned for relief.

While the farmers went on record as favoring the anti-discrimination law as amended by the state legislature, it also protested most loudly against the passage of house bill No. 165, relating to weighing, inspection, grading and storing of grain. This bill the association charged, is both unjust and discriminatory.

Resolutions against the grain inspection bill were passed and will be sent to legislative members. They are as follows:

Whereas, There has been introduced into the Kansas legislature and is now pending before the senate, a bill known as substitute for house bill 165, relative to the inspection, sampling, grading, weighing and storing of grain; and

Whereas, Section 8 of this bill is found objectionable to the growers and handlers of grain in that it imposes a burdensome tax by making a compulsory inspection and weighing charge each time the grain is handled both in and out of an elevator; and

Whereas, Section 2 of this bill provides that each elevator must become a public grain elevator whenever doing any grain business with the public; and whereas, in order to accommodate all farmers who desire to store grain therein, and which would compel the farmers' elevator companies to charge an excessive fee to their patrons under this law, and in addition it would entail great annoyance and expensive red tape in its operation.

It is also opposed to that portion of Senate Bill 615, lines 17 to 21, inclusive, which provides an allowance not to exceed one-quarter of one per cent on the amount of grain received or hay put in the car for invisible or imaginary shrinkage, which is an unjust and unreasonable tax which must eventually be paid by the farmer in the price he receives for his grain.

Therefore, be it resolved, by the Farmers' Co-operative Grain Dealers' association of Kansas in annual convention assembled at Wichita, Kan., this 2nd day of March, 1915, that we condemn and protest against the enactment into law of sections 8 and 11 of substitute house bill 165, as we demand the right to have our grain inspected and weighed in any market or under any system that may best serve our interests, and also urge our senators that they use all honorable means to have the measure above referred to stricken from the bills.

PASS SEMI PAY BILL.

Railroads Must Grant Salaries Twice a Month Now.

By concurring in the house amendments to the semi-monthly pay bill the state senate last night finally passed the bill which will stand at this session of the legislature as the one important piece of legislation affecting railroad companies in this state. The senate bill was one of the first to pass the senate and it has been in the hands of the house for several weeks when it was finally passed with an amendment which exempted the state, county and cities of the state from compliance with its provisions.

Senator Jouett Shouse voted to concur.

It is considered an act of injustice to require the corporations of Kansas to pay their employees twice each month while the local government are exempt. If this bill is far to the railroads it ought to be fair for the state and county. I vote "no."

VOTED KEMPER OUT.

Senate Singles Out Topeka in Abolishing City Election Commissioner.

The senate last night voted the job of W. H. Kemper, election commissioner, out from under him. The proposition is now up to Governor Arthur Capper whether he will sign or veto a bill which singles out the election commissioner of the city of Topeka and abolishes his position while it preserves the election commissionerships in the cities of Wichita and Kansas City, Kansas. For an hour last night the senate was in session to vote on the amendment which exempted the state, county and cities of the state from compliance with its provisions.

Senator Jouett Shouse voted to concur.

It is considered an act of injustice to require the corporations of Kansas to pay their employees twice each month while the local government are exempt. If this bill is far to the railroads it ought to be fair for the state and county. I vote "no."

PIMPY? WELL, DON'T BE!

People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets.

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Olive Tablets and the successful substitute for calomel—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever puffed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil, you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel, and look 10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O.—Adv.
