

AUSTRIANS RECAPTURE PRZEMYSL

Great Galician Fortress Again in Hands of Franz Josef.

Russians Compelled to Yield After 10 Weeks' Occupancy.

FALL OF LEMBERG IS NEAR

Large Forces From Cracow Prove of No Avail.

Teutonic Allies Sweep On in Their New Campaign.

Vienna, June 3.—Przemysl is again in Austrian hands, according to official announcement here today.

The great Austro-Hungarian fortress of Przemysl, situated between Lemberg and Cracow in Galicia was captured by the Russians March 22, last, after one of the longest sieges of modern warfare. In the ten weeks which have elapsed since that time, however, Austrians and Germans have made every effort to retake the fortress, large forces being diverted from the other great fortress to the west, Cracow.

Recent dispatches from the Galician front said the Austro-German troops had been successful in operations north and east of the fortress. The forts girdling the position had been taken.

When Przemysl fell into the hands of the Russians it had undergone a siege lasting 201 days. The Austrian garrison originally consisted of 170,000 men, of whom 40,000 were killed. About 120,000 Austrians surrendered when the fortress capitulated. These included 2,602 officers and officials and 117,000 men.

First Phase of Campaign.

With Przemysl in their hands, the Austrians and Germans have concluded the first phase of their new Galician campaign, which was launched in the drive from Cracow.

While the fall of Przemysl has not been conceded at Petrograd, so far as cable advices show, the latest of [Continued on Page Six.]

FOUR EXPELLED.

Boys Disturb Class Day Exercises at High School.

Unreasonable Interference With Others' Rights Is Charged.

Ralph Oman, William Shepherd, Otto Reinbach and Lewis Heaton, Topeka high school students, were expelled at noon today because of "unreasonable interference with the rights of other people" while a disturbance took place this morning in the balcony of the school auditorium, while the class day exercises were in progress.

The parents of the four boys were immediately notified of the action taken by the school authorities. A. J. Stout, principal, and H. B. Wilson, superintendent of city schools. This means that the boys in question will receive no credit for the work done this semester. There are one or two others under suspicion who may also be let out of school.

The main doors of the high school building and the auditorium doors were locked while a disturbance of fire escape and turned loose colored balloons—representing class colors—from the balcony. Several of the boys resisted the teachers and janitors who took charge of the colors.

"The action on the part of these boys was not in accord with pure school spirit," said Superintendent Wilson. "I would say that it might be called unreasonable interference with the rights of other people."

TRANSPORT SENT DOWN

London Reports British Have Sunk German Troop Ship.

London, June 3.—A British submarine has sunk a German transport in the Sea of Marmora. This was officially announced today.

IN FOUR STATES.

Durango, Colo., June 3.—Do you know the only place in the United States, where it is possible for each of the four legs of a stool to stand in a different state?

It is Four Corners, an imaginary town, but a very real piece of soil where Utah, Arizona, New Mexico and Colorado join. What complications might take place in a town built on this site? A fugitive of justice might skip from one state to another in a second. Extrastate lawyers would reap a harvest. The only reason a city has never grown up at Four Corners is because the land is undeveloped and remote from railroads.

Recently a unique religious service was held on Four Corners by four Episcopal churches, Bishop Brewster of Colorado standing on the soil of his state, Bishop Howden of New Mexico standing on the "New Mexico" angle, Bishop Smith stationed in Arizona, and Bishop Paul Jones in Utah, yet all within arm's length of each other.

PRZEMYSL'S RETAKING ONE OF NOTABLE FEATS OF WAR

London, June 3.—The retaking of Przemysl fortress is characterized by the British as one of the most remarkable feats of the war. Immediately after the surrender of the Russian garrison for the Russians began a western rush through Galicia and it was predicted they would soon overrun both Silesia and the plains of Hungary. A terrific Austro-German offensive was inaugurated, the result of which was to drive the Russians back to the San and to enable the Teutonic allies to encircle Przemysl, and attack from the north and the southeast. The strength of the Russian garrison within the fortress has not been known in London.

The four men were on a hand car and ran into a washout. Posses of men are searching for the bodies, none of which have been recovered.

LIFT BAN JUNE 10

Kansas Free From Foot and Mouth Disease Embargo.

Butler County Only District Under Suspension Now.

After June 10 Kansas will be on the free list so far as a ban against territory recently affected by the foot and mouth disease is concerned. That was the statement today of Joe Mercer, state live stock sanitary commissioner.

Notices sent from Washington have indicated the lifting of the ban in Butler county next week. At present Butler is the only county in Kansas which has not been entirely removed from the provisions of the foot and mouth quarantine. Conditions in that county have improved rapidly, however, and the pastures and stock farms of the county will be restored to normal by June 10.

"It is the intention of both state and federal departments to keep a close eye on conditions in Butler county this summer," said Mercer, "although the county will be entirely on the free list after next week."

The inspection will be restricted largely to the pastures and feed lots in which the foot and mouth disease was discovered last winter.

MUST PAY AD VALOREM

New Rule for Checking Baggage Is in Effect Today.

The western railroads have come to no definite conclusion as to how the Cummins amendment will be handled, according to E. J. Shakeshaft, assistant general passenger agent of the Santa Fe.

Mr. Shakeshaft said that in all probability travelers will be asked to declare the contents of their baggage before checking, and pay accordingly. That is the definition most of the railroad men have given the amendment. It will be of great importance to the carriers and the public and will mean the revising of all former rules and customs regarding baggage. The Cummins amendment went into effect today.

Texas Bankers Off for Fair.

Dallas, Tex., June 3.—Texas bankers started out today for a lark. Leaving here and other cities throughout the state, they will be united at Temple, Tex., in a solid train en route for the Panama-Pacific exposition. Incidentally they are going to the wonder spots of the northwest, and then return to the Lone Star state by way of Kansas and Oklahoma.

Every year in New York's orphans are treated to a holiday by what is known as the Orphans' Automobile Day association.

WILSON FIRM IN LAST WORD TO BERNSTORFF

Count's Optimism Regarded as Only on Surface.

President in Seclusion, Writes Reply to Berlin.

NO HINT OF U. S. BACKDOWN

Germany Must Respect Neutral Rights on Seas.

Least Evidence of Weakness Means Diplomatic Break.

Washington, June 3.—"No war preparations have been ordered, nor are they contemplated, either for the regular army or the state militia, because of German diplomatic, or the Mexican situation, Secretary of War Garrison emphatically stated today. Transfer of troops to or from the Philippines and on the Mexican border, he said, were merely of routine character."

Washington, June 3.—Pessimism and hope were about equally balanced in official Washington circles today.

The president, secluded in the White House, had about completed his rough draft of the new German note. It remains to be passed upon by Robert Lansing, state department counselor and expert on international law. After that it will be subject to such changes as last minute conferences with the cabinet call for.

Interest in the conference between President Wilson and Ambassador Von Bernstorff yesterday was heightened as further details were coming to light. One important result, it can be stated with high authority, is that there will be no alteration in the administration's plan to ascertain whether the German government will abide by international law or follow its own rules of maritime warfare.

The president, it is believed, informed the ambassador that the United States would not object to the German submarine warfare, provided it could be conducted in such a way as not to jeopardize life and property of neutrals.

No Cause for Optimism.

Attacking Resolution Voted Down Mid Hoots and Jeers.

Tokio, June 3.—The holding of an anti-government mass meeting in Tokio this evening resulted in serious disturbances.

The situation outside the building where the meeting was being held was the most serious.

Many arrests were made and the manifestos issued by the organizers of the meeting were confiscated.

Reinforcements of police were sent everywhere throughout the city.

The resolution introduced in the house of representatives yesterday by the opposition expressing lack of confidence in the administration was today rejected by a vote of 133 to 232.

Great Disorder in House.

Extreme disorder marked the session today. The members of the cabinet were in their seats. While Premier Okuma and Foreign Minister Kato defended the recent negotiations with China, K. Hara, M. Inukai and H. Ogawa attacked the cabinet.

The resolution, as introduced yesterday, charged the cabinet with having failed in the negotiations with China from the beginning; with having aroused the suspicions of foreign powers, and with having harmed the prestige of the empire. Hoots, jeers and wordy interjections punctuated the speeches delivered today, but the ovation for Premier Okuma and Minister Kato smothered the cries of the opposition.

Uncle Won't Pay

Government Refuses To Be Taxed for Topeka Betterments.

Federal Building Will Not Be Sold for Taxes Now.

Uncle Sam's federal building, located in Topeka, will not be sold for taxes. And Uncle Sam will not pay his taxes, either. As a tax-dodger he is immune. Although the White Way burns just as bright in front of the postoffice building as at other places, and although the pavement in front of the building has been resurfaced, the United States government will not pay for what has been done and the city of Topeka is left to foot the bills.

The situation was explained to the city commissioners today in a communication from Oscar Swayze, county clerk, who enclosed a letter he had received from Washington, D. C., which urged the constitution of the United States in refusing to pay the taxes. The county clerk requested the city commission to strike the property from the tax list certified to by the city.

This city did.

At the time the Kansas avenue White Way was under consideration by the city, the Topeka Commercial club, according to statements made by W. G. Tandy, city commissioner of streets, today, assured the city commission that the Commercial club would see that the city did not incur the expense of the White Way in front of the postoffice.

Washington, June 3.—The administration was prepared today for any developments in Mexico.

It was stated that the military faction leaders would already be prepared either to take steps to put President Wilson's suggestion into effect, or get ready to make a withdrawal.

As a consequence, officialdom was anxiously waiting word from Consul Silliman at Vera Cruz and Special Agent Carrothers at Chihuahua as to what the prospects were.

140 COUNT'EM 140

Trainload of Eastern Houris Coming Through Topeka.

"Beauty Special" Will Arrive at 1 O'clock Monday.

There are ten chances to one that the Santa Fe depot at 1 o'clock next Monday afternoon will be crowded. The reason? The Universal Film Company's Beauty Special, with 140 of the prettiest girls of the east, will come through at that time.

This special train probably is the most interesting of those which are going to the coast this year. The young women were selected by contests conducted in eastern cities, a newspaper officiating. After collecting an amazing quantity of pretty damsels, the film company furnished them with free transportation to and from the California fairs and all expenses paid.

The special will leave Chicago Sunday. It will consist of a club car, diner, several drawing room and compartment cars and an observation car.

Joe Brandt, the manager of the film company, is the "high mogul" of the trip. G. J. Birchfield of Chicago, assistant general advertising agent of the Santa Fe, will be that railroad's representative on the coast trip.

When asked about the matter today, one passenger official here looked sad. "I put my bid in to accompany that train," he said, as the girls trickled down his cheeks, "but Birchfield was ahead of me."

CUPID WINS GAME

Topeka Pitcher Takes Into Himself a Bride Today.

Lee Dasher and Mamie Jones Wedded This Morning.

Dan Cupid batted a Topeka pitcher for 1000 this morning in Judge MacFarland's office when Lee Dasher, one of the best twirlers on the Savage team, and Miss Mamie Elsie Jones of the Cremerie restaurant, were united in holy matrimony.

The fatal shot came as a surprise to the many friends of both. Although they have been wandering in the realms of romance for the past two months, no one expected the affair to come off so soon, not even the team mates of Dasher or the associates of his charming bride at the Cremerie.

This morning when Miss Jones came down to the restaurant, she asked to be allowed a half day off, stating that she would be back at her home in Omaha on Monday.

Other players at the hotel at an early hour and made a bee line for the license vendor.

At the eleventh hour of the day, Judge MacFarland presided at the ceremony. Mrs. Dasher returned to the restaurant and resumed her duties without telling anyone what had happened. Dasher returned to the hotel and intimated that he would like to pitch today's game.

However, Jackson decided it was better to leave him to his own devices and stated that he would give him a layoff during the next day or so, if it were possible to do so.

Dasher, however, is in West Virginia. He is considered one of the best pitchers on the Savage team. The bride was formerly from Burlingame, Kan.
