Don't Forget the Date—Wednesday August 18th—DOLLAR DAY

Washburn College, Topeka, Kan. For Fifty Years

The growth of Washburn College has paralleled that of Kansas. In that period Kansas has come from infancy into splendid young manhood—first in corn, first in wheat, first in ideals, first in the will to achieve and first in its choice young men and women looking eagerly forward to their day of power—the next half century.

In that same period Washburn College has grown from its infancy into an institution of first rank in the southwest. It has a choice location, a choice campus, equipped with substantial buildings and has eight hundred of these choice young men and women of Kansas for its student body.

Washburn starts on the next half century with a splendid forward movement. A plan to increase the endowment by \$500,000 has been inaugurated and is well under way. A new President has been chosen full of enthusiasm for the future. Scores of young men and women are planning to enter the College in September. Will you join them and get ready to take your part in the next great forward movement of our state and country?

Full information in regard to courses and terms on request.

CIRCUS!

Extra Car Service to Show Grounds All Day Tomorrow at the Fair Grounds.

Don't miss seeing the unloading, as it will probably be the only big circus here this year.

TWO DAYS OR \$2

That Is Ultimatum of Good Roads Days Promoters.

All Workers Will Report With Picks and Shovels.

State officials, business men and others will don overalls next Wednesday and Thursday—good roads days—and with pick and shovel will work on the Shawnee county highways side by side with day laborers. The road work will be general throughout the entire state.

The high up officials from the state house, who will participate in the road activities, include Arthur Capper, governor, J. T. Botkin, secretary of state and S. N. Hawkes, assistant attorney general.

There will be an "army" of workers on the Shawnee county roads. Although many will leave their office work to show their loyalty, a majority of the business men approached have preferred to pay for a substitute. "Why I wouldn't last an hour," commented one Topeka business man this afternoon. "My hands would be one big mass of blisters in no time." Two dollars a day is the price that the laborers will receive for their services. Those interested in the road work may either send in their money, or furnish the man. In case the latter plan is adopted the laborer should report at the Topeka Commercial club for duty.

The reports received by Albert Nagel, "colonel" for Topeka show that the workers in the business district have been getting results.

A meeting of local captains and township officers was held this afternoon at the Commercial club quarters at which time plans were made for the road work next Wednesday and Thursday. Walter J. Arnold is "general" for Shawnee county.
