Negro Burned at Stake With Body of Brother.

Texas Mob Visits Swift Vengeance on Slayers.

Sulphur Springs, Tex., Aug. 30.—In a fight with an armed posse near here yesterday afternoon, Joe Richmond, a negro, was shot and killed in the hands of King Richmond, who was seriously wounded and later the body of the dead negro was burned at the stake with his wounded brother in Buford park, in Sulphur Springs. The negroes early in the day had shot and killed Deputy Sheriff Nathan A. Flippen and probably fatally wounded Sheriff J. B. Butler.

JEKVIL AND HYDE

of forty-six years, which were staged in almost every big city in the country. During all this time he was arrested only three times, once in Kansas City on a charge of forgery, for which he served two years in the Missouri penitentiary, once in Denver for carrying a revolver, and last January in Waukesha for attempting to borrow \$3,000 on a forged warranty deed.

Two weeks ago, the detectives say, Kline, or Barnhardt, with several other prisoners staged the jailor at Waukesha, and escaped. He was caught last night when he entered a hotel where his wife had registered as Mrs. J. W. Barnhardt of Forest City, Ark. Five hundred and fifty dollars and valuable parcels were found on the prisoner.

The detectives say their prisoner has property worth more than \$25,000 in his own name, that he is a director and principal stockholder in the Planters Bank and Trust company, which he helped found at Forest City, and that he is now in the Arkansas state senate.

Crimes on "Business Trips."

His game, the detectives say, was to leave the city of his residence for a "short business trip" to another city. There he would pose as a prospective purchaser of real estate, would select a site and gain access to the warranty deed while the title was being examined. He would then hurry to a hotel, copy the deed and forge the signature. On this fraudulent deed he would borrow as much as a bank would give without any collateral, and would then return to his home town and go on another "business trip" a few weeks later.

Barnhardt today said he was returning to his home town on request. To a reporter he said that for several years he had evaded arrest by the use of assumed names.

Waukesha Wants Him.

Waukesha, Wis., Aug. 30.—George Adler, said to be J. W. Barnhardt, a 64 year old wealthy banker of Forest City, Ark., who was arrested in St. Louis, Mo., last night, was arrested in Waukesha several months ago on a charge of attempting to borrow a large amount of money on a forged deed to a piece of land at Menominee Falls, Wis. During the negotiations a real estate agent called up Menominee Falls and learned that no such deed had been given to Adler. Adler's arrest followed. He escaped two weeks ago with two other prisoners.

While he was in the Waukesha jail officers from Racine, Omaha and several other cities identified Adler as a man wanted in connection with various crimes, and warrants were issued for his arrest in case he was freed at Waukesha.

District Under Sheriff Dave Roberts today left for Madison to obtain extradition papers to bring Adler back to this city to stand trial on charges of forgery, jail delivery and attempted murder, when he assaulted it, is alleged, Under Sheriff Roberts wired a gas pipe in effecting his escape from the Waukesha county jail. Sheriff John Sleep and District Attorney M. E. Newton have gone to St. Louis.

Sent Up From Kansas City.

Kansas City, Mo., Aug. 30.—Police and criminal records here show that John W. Kline in 1898 was charged with forging a deed in the sale of a hotel and with grand larceny for taking \$7,700 from a local trust company by alleged fraud. The first charge was dropped when he pleaded guilty to the grand larceny charge, and he was sentenced to two years in the penitentiary.

Operated in Iowa.

Council Bluffs, Ia., Aug. 30.—In 1904 a man giving the name of Joseph Fisher, and also John M. Borkman, victimized a number of capitalists in this vicinity by means of fraudulent deeds and mortgages. N. P. Lodge, ex of Council Bluffs, lost \$3,000 some months ago. A man arrested in Wisconsin under the name of George Adler is understood by the local police to have confessed the Council Bluffs swindle, among others. The identity of the man has not been positively established, however.

Under Another Alias Here.

Kalamazoo, Mich., Aug. 30.—Local officers assert that John W. Kline operated his alleged bogus deed system in this county five years ago and obtained \$3,500. He is said to have been known here as Philip Calvick.

WHEAT BLOWN UP

Blast at American Powder Works at Acton, Mass.

Police Suspect Plot to Cripple Munitions Plant.

Acton, Mass., Aug. 30.—The blazing mill of the American Powder company, which since the outbreak of the European war has been working to its capacity, blew up yesterday. The shock was felt for forty miles. So far as known, nobody was killed. The actual money loss to the company was not heavy. But it was stated that work on large orders probably would be held up for several weeks. Property owners in the surrounding towns, particularly in Maynard, were heavy losers because of the shattered windows.

Wilmington, Aug. 30.—Two workmen were instantly killed and considerable damage was done to property by an explosion of two black powder mills of the DuPont Powder company in the Upper Maynard section here yesterday. The victims are Lawrence Cunningham, aged 46, of Hazelton, Pa., and Hugh Gillespie, 35, of Hazelton, Pa.

Several hundreds of pounds of powder exploded, completely destroying the mills. The first to go was a fuse mill. The second was a large powder mill.

The cause of the explosion has not been determined, but officials say it probably was due to a spark or to grit in the powder.

Fire in Munitions Plant.

Baltimore, Aug. 30.—The plant of the E. J. Codd company, machinists, at Canton, a suburb, was damaged by fire of mysterious origin last night. The company recently obtained a sub-contract for the manufacture of airplane castings and the shops were being refitted for the work.

Plot to Wreck Train.

Gary, Ind., Aug. 30.—What was believed to be an attempt to wreck a train carrying gun cotton to the forces of the allies in Europe was revealed when it was discovered that the plates holding two rails had been removed a short distance from the Aetna powder works. It was said, however, the munitions were packed in heavy jackets and would not have exploded, even if the train had been derailed.

"Babe" Smith's Version.

"Babe" Smith, who lives near the church and who has intimate acquaintance in police circles, heard the noise and telephoned to the police station. Harvey G. Parsons, chief of police, answered the telephone.

"Chief, I can't tell you what's going on, but I think you better come. I hear shooting," then I hear yelling and I see a man running and I see a crowd in the street in front of the church and hear horses and rigs smashing."

Chief Parsons made a hurry run in the police motor car. "Stille denied everything," said Chief Parsons, "but nearly twenty or twice that number of men who had followed him to his room spoke up and said they were ready to testify that they had seen the revolver fall from Stille's pocket. It is not usual for colored people to give information against one of their race, but in this instance they felt that the dignity of the church had been injured and wanted Stille punished."

Chief Parsons told members of the church to wear their complaint and Stille would be arrested.

The Doric column or main shaft of the Perry Memorial at Put-In-Bay, Ohio, has come to be considered an important landmark by Great Lakes region mariners. Visible by day from points afar it serves as a guide for vessels. By night its powerful lights can be seen from almost any point in Lake Erie between Cleveland on the east and Toledo and Detroit on the west.

TODAY'S MARKET REPORT.

Chicago, Aug. 30.—WHEAT—A rush of buying from the short side lifted wheat 1/4c to higher today at the opening with September at 97 1/2c and December at 95 1/2c to 96 1/2c. Large holders let go freely for profit in the market soon after the opening, the reaction amounting to a range of 1/4c to 1/2c. The market seemed to be a speculative one with nervous exaggeration. For a time prices held within the lower range.
