The disagreements between the National Women's Suffrage Association and the Congressional Union, extend to their followers all over the country. The National Association reports that it has increased the suffrage strength in the new house of representatives by 32 votes over the 174 votes which it polled last January for the Susan B. Anthony amendment. Mrs. McCormick, the chairman of the congressional committee, places the suffrage strength in the house at 206, with some important states still to hear from.

The plan of the Congressional Union is to carry suffrage throughout the country by means of an amendment to the national constitution, to be ratified by a certain proportion of the states. The plan of the National Association is to carry the country state by state.

One of the chaps who is in a big military school this year for his first term, writes back to his friends of the disciplinary rules of the school, and of the reprimand he got for trying out on the authorities some of the comedy that goes well with his pals at home. The lights are all out at 9:30 promptly. The first night our hero was there, the inspector came into turn out the light exactly as the clock struck the half hour. "Now that's done," our friend told the officer, "why don't you come and tuck me in?"

Miss Helen Shaver and Mr. Howard Searle will be married Friday evening, October 1, at 8:45 o'clock, at the home

Mr. Searle is the son of Mr. and Mrs. C. H. Searle.

New sailors for fall have the becoming "dip" over the eyes, made fashionable by the broad-brimmed shepherdess hat of mid-summer. This

model of black velvet has a crown of black chenille net over white satin. Black and white pompons and a pearl and jet ornament are poised in front.

AID LA FAYETTE FUND

Topeka Will Send Kits to the Soldiers of France.

A local organization for the La Fayette fund, which is sending kits to the soldiers in France, has been organized. Among those who will receive contributions in Topeka are Mrs. Frank L. Britton, 1532 Central Park Court; Dr. O. T. Marquette, 107 Huntington street, and Mrs. George M. Stone, Highland Place.

The object of this fund is to make an effort to reciprocate the act of the famous Marquis de La Fayette, who, out of his own purse, paid for soldiers' kits for American troops during the Revolution. These packages contain articles of wearing apparel, medical and surgical supplies, etc. They cost about \$2 apiece.

KANSAN WOUNDED IN WAR.

Writes Father That Fifty Are Killed or Wounded—Others Missing.

Lawrence, Kan., Sept. 23.—Paul, son of Erasmus Haworth, head of the geology department at K. U., and until recently a geologist, writing from the Dardanelles, where he is fighting with the British Australians, says that forty-eight out of his company of fifty are either killed or wounded and the other two are missing. Paul himself is in the trench hospital suffering from bullet wounds.

Leaving San Francisco before the war started, young Haworth landed in Sydney during the first call for volunteers and enlisted among the first thousand in the Australian infantry. The Lawrence boy tells about the fighting in the trenches and the sensation a man experiences when looking out over a field of dead bodies. Haworth says the Turks are persistent fighters and gritty losers, efficient in the trenches but lacking the push in bayonet charges.

"DEAR MOTHER:— A good thing to send would be a package of Grape-Nuts, or something of that kind that is not expensive or heavy and is of good food value. Your son, WILL."

From a Canadian soldier at the battle front reprinted from the Kenfrew (Ont.) Journal.

Wherever hardships are endured, wherever big deeds are accomplished, there a food is demanded that provides maximum of value in brain- and body-building material with minimum of bulk.

In this respect no other food equals

Grape-Nuts

In building the Panama Canal thousands of brain workers as well as brawn workers kept themselves fit and in trim by eating Grape-Nuts dry from the package.

Not only does Grape-Nuts supply all the brain-and bone-building, nerve-and muscle-making elements of choicest wheat, but also the rich nutriment of malted barley.

Grape-Nuts is highly concentrated nourishment in compact form—always ready, crisp and delicious—thoroughly baked and packaged to keep indefinitely, anywhere.

Wherever time is precious and sound nourishment vital you'll find Grape-Nuts.

AT THE THEATERS

At the Novelty.
"Prepare to laugh" is a very appropriate warning to all Novelty patrons the first half of this week. Why? Because the Hanlon Brothers are billed for the first three days of this week and they have made their large fortune by making people laugh. Their act consists of pantomime showing what funny things happen in "A Haunted Hotel."

The rest of the bill looks good if one is to pass an opinion on advance billing, and includes Willie Hale and Brothers, in "Bits of Vandeville," Browning and Dean in a black and white act, Mae Curtis the "Personality Girl," the fourth visit of the Paramount Travelogue and Harry Lauder, the great Scotch comedian, Scott the baritone, and Stella Mayhew, being featured in the Passing Revue Trio.

At the Hip.
Heretofore Mondays have always been called "Blue Mondays," but from now on that will not apply to the Hip theater, as the program arranged for is intended to drive away the blues. The fourth episode of "Neal of the Navy," the serial picture which has grown to be quite popular, will be the feature film, and in addition to this three comedy pictures will be shown. For the benefit of those who are interested in the "Neal of the Navy" pictures please note that this picture will be shown only today and each Monday hereafter. Instead of Mondays and Tuesdays as heretofore.

At the Grand.
This is the day the Chinatown pictures start a week's engagement at the Grand, giving shows from 2:30 till 5 and 7:30 till 11. There are five reels depicting all the important scenes of the famous San Francisco resort which attracts thousands and thousands of tourists annually. A trip to San Francisco would be nothing if one failed to visit Chinatown.

What will make the pictures more interesting will be the fact that all the details are fully explained personally by Captain Lewis, who for years acted as special guide in Chinatown.

At the Electric.
When patrons of the Electric theater today and Tuesday get their first glimpse of the newly formed Equitable Motion Picture corporation's "The Master of the House," they will see for the first time on the screen the work of one of the foremost and most powerful dramatic character portrayals. Mr. Julius Steger, who, during a run of "The Master of the House," at the Maxine Elliott theater, New York, created a new vogue in stage husbandry.

"The Master of the House," a virile and potent story with unusual heart-interest, tells of a husband who tires of his devoted wife, who, after a brief career in the brilliant lights, returns a sadder, wiser and penitent man.

At the Cozy.
"The Isle of Regeneration," with Edith Storey, is being shown today and Tuesday at the Cozy. This play is said to be one of the most entertaining and interesting ever produced. On its previous presentation here it won a lot of favorable comment.

Tuscania Leads War Supplies.
New York, Sept. 27.—The steamer Tuscania, loaded with seven thousand tons of war munitions and general merchandise, sailed today for Glasgow. She had a very small passenger list and carried only three Americans.

Gas Men in Convention.
San Francisco, Sept. 27.—With delegates and representatives from practically every gas association in the United States, an annual convention of gas men opened their annual convention at Native Sons hall today. "Co-operation" is the password at the convention and every effort is being made to formulate an interchange of ideas and to bring the foreign and American gas men into closer relations.
