The old badge of betrothal, the engagement ring, is being replaced among the English girls by a new sign. Many of the English women, whose sweethearts are in the trenches, are having the regimental badges of their lovers tattooed on their arms. War brides and war babies have been the sensation of the day, and now the new wrinkle effaces the glory of the other sacrifices. In this country, the women content themselves in keeping pace with war fads by wearing coats, hats and gowns, fashioned, or at least named, after military apparel.

Don't Merely "Stop" a Cough

Stop the Thing that Causes It and the Cough will Stop Itself

A cough is really one of our best friends. It warns us that there is inflammation or obstruction in a dangerous place. Therefore, when you get a bad cough don't proceed to dose yourself with a lot of drugs that merely "stop" the cough temporarily by deadening the throat nerves. Treat the cause—soothe the inflamed membranes. Here is a home-made remedy that gets right at the cause and will make an obstinate cough vanish more quickly than you ever thought possible.

Put 2 1/2 ounces of Pinex (50 cents worth) in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you a full pint of the most pleasant and effective cough remedy you ever used, at a cost of only 54 cents. No bother to prepare. Full directions with Pinex.

It heals the inflamed membranes so gently and promptly that you wonder how it does it. Also loosens a dry, hoarse, or tight cough and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated compound of Norway pine extract, rich in gualonic acid, and is known as the world over for its healing effect on the membranes.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely.

To do this, get about 4 ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Advertisement.

Widely Known Preacher—Author Dead

New York, Nov. 18.—Dr. Ellakim Tupper Jeffers, president of the York collegiate institute, and widely known as a physician and clergyman, died today. He was the author of several text books.

Curl Hair This Way and Keep It Healthy

It has been found that the use of a harmless and inexpensive fluid which druggists know as "silermine" will keep the straight hair in curl, giving it the appearance of true naturalness, besides keeping the hair softer and glossier than possible with the heated iron. The liquid may be applied with a clean tooth brush, this being drawn through the hair from crown to tip and allowed to dry over night.

Our Advice Is:

When you feel out of sorts from constipation, let us say that if

Jexall Orderlies

do not relieve you, see a physician, because no other home remedy will. Sold only by us, 10 cents.

A New, Harmless Way to Banish Hairy Growth

(Beauty Topics)

By following this suggestion any woman can, in the privacy of her own home, remove every trace of hair or fuzz from her face. With powdered delatone and water mix enough paste to cover the not wanted hairs; apply and in 2 or 3 minutes rub off and wash the skin. This method is unfailing, harmless and quick in results, but care should be employed to get genuine delatone.—Advertisement.
