

## CHINA MAY JOIN WITH THE ALLES

### Mammoth Diplomatic Undertaking to Bring Peace in East.

### Result May End All Trouble Between Japan and China.

### PREVENT BLOODY REVOLUTION

### Fear That Disturbance Would Follow Change to Monarchy.

### United States Remains Silent and Watches Developments.

Washington, Nov. 19.—Great Britain, France and the United States have united in an effort to add China to the entente alliance in order to prevent possible friction in the future between Japan and China and to preserve the peace of the Far East. It is understood that the plan, military participation in the present war is not expected. Negotiations thus far are in a conversational stage, with no indications as to China's attitude.

Although the United States is being kept informed, its diplomatic representatives at Peking and European capitals are refraining from participation.

### To Safeguard Interests.

This sensational turn in Far Eastern affairs on the eve of the proposed change by China from a republic to a monarchy, has been the subject of confidential exchanges between the allied powers during the last week, but only became known here today.

Japan, so far as is known, has not been consulted in the negotiations, but having been confined to the European entente allies and the Peking government.

If Japan knows of the plans unofficially there is nothing here to indicate what her position will be. Although Great Britain, France and Russia joined Japan in representations to China to postpone the establishment of a monarchy because it was thought a change during the present disturbed condition of affairs might provoke revolution and international complications, this latest step by the allies is understood here not to have been initiated because of the monarchical situation alone. It was considered essential by the allies that such arrangements be made in the Far East as would permanently safeguard their interests.

### Situation is Acute.

The impending change in China's form of government has rendered the situation somewhat acute. Fear of revolution in China and the possibility of Japanese interference to preserve peace have been impressed upon the Japanese people to an extent that has attracted attention here.

The Japanese government has announced that it will not be bound by the decision of the allies.

### MESSAGE SOON READY

### President and Cabinet Go Over Document to Congress.

Washington, Nov. 19.—President Wilson went over a draft of his message to congress with the cabinet today. He hopes to have it finished next week. The cabinet was in session less than two hours. Because of the continuing lack of official information on the sinking of the Italian liner, Ancona, it was understood the subject was not finally discussed.

### Chemical Company Dividend.

New York, Nov. 19.—The General Chemical company today declared an extra stock dividend of five per cent and a special dividend of ten per cent on common stock, payable in common stock on par, February 1 to stock of record on December 31. The regular quarterly dividend of 1 1/2 per cent on preferred stock was also declared.

### WAR NEWS BOILED DOWN FOR THE RUSHED READER

The fate of Monastir is not yet known definitely, but there is hope in England that it will escape the Bulgarians.

Left in the dark as to the actual progress in the Balkan campaign, the French public can only hope the entente allies will soon have strong forces there that will enable the harassed Serbians to make a successful stand and preserve a small portion of the Balkan peninsula.

The Anglo-French force is now assuming formidable proportions, and is on the verge of actual participation in the Balkan campaign.

The retreat of the Serbians toward the Albanian border is causing increased uneasiness at Athens.

The British war council has returned from Paris, without giving any intimation of the outcome of its deliberations.

Little news comes from the eastern front in addition to reports that a German attack south of Riga has been repulsed and that Austro-German attempts to cross the Stry river in Galicia have been resumed.

Venice has again been subjected to an Austrian aerial bombardment.

In pressing their pursuit of the Serbians the Tonician allies have captured seven thousand additional prisoners.

An attack by a German aeroplane squadron on a British camp near Toperinghe, six miles from Ypres, in Belgium, is reported by the Belgian wireless.

The Italian official report on the sinking of the liner Ancona outlined in a Naples dispatch asserts that the steamship was fired upon without warning and that the boats were shelled while they were being lowered.

Efforts to include China in the entente alliance are being made by Great Britain, France and Russia, with a view to preventing possible friction between Japan and China and preserving the peace of the far east.

## 'FRISCO HAS A BABY, TOO, BUT IT LIVED

### San Francisco, Nov. 19.—San Francisco has a case closely paralleling that of the Bollinger baby in Chicago. At Mount Zion hospital there is a boy baby who for three months has lingered with a defect of spinal troubles.

### Surgeons tenting the birth of the six-pound child, determined, after a conference, to not operate, but let nature take its course, as it has since done in the case of the Chicago baby. To their surprise, however, it lived and has gained three pounds.

### The child is not strong enough for an operation. Even with the operation it will be a cripple for life.

### The difference in the two is where the Chicago baby in addition to being deformed and crippled, was imbecile, this baby has a chance of retaining 50 per cent of a normal mentality.

### This is the problem that has confronted Dr. Julius Rosenstirn. For three months he has watched the child to become strong enough for an operation, wherein he differs in his conclusions with the Chicago doctors.

### The baby was born with a rupture of the spinal cord. The operation to remove these conditions is one of the most delicate in surgery for a grown person, and the dangers are vastly increased with a three months infant.

### TO VINDICATE HIM

### Little Doubt of Coroner's Jury Verdict in Baby Case.

### Belief That Doctor Did Right in Refusing to Operate.

Chicago, Nov. 19.—Six leading surgeons impounded as a coroner's jury to decide whether Dr. Harry J. Haiselden did right or wrong in refusing to operate on the deformed Bollinger baby and thus save its life, are to make public their decision today.

Having carefully examined the body of the infant, the surgeons planned to call before them Allan Bollinger, father of the child.

Dr. Haiselden, Dr. H. G. W. Reinhardt, coroner's physician, and attaches at the German-American hospital where the child was born and all others who had anything to do with the strange case.

Members of the jury agreed not to discuss their findings until made public but it was reported that their verdict would vindicate Dr. Haiselden.

Coroner Peter M. Hoffman advised.

### STILL ABOVE NORMAL

### The Temperature Did Not Fall Below 38 Last Night.

With temperatures moderate and nothing startling in prospect, the principal feature of the weather today is the wind. Last night a 25-mile north-wind made the weather seem colder than it really was. This morning the velocity was 20 miles an hour and slowly rising.

The lowest temperature last night was only 38 degrees, 3 degrees above normal. Last year on this date the temperature was down to 9 degrees.

The high record is 72 degrees, established in 1903.

The forecast calls for fair weather with moderate temperatures tonight and Saturday. The barometer dropped 2 of a foot to a stage of 6.8 feet this morning.

The shippers' forecast today says: "Protect 24 to 26-hour shipments against temperatures as follows: North and west, 28 degrees; south and east, above freezing."

Paris, Nov. 19.—Atrocities by the Bulgars, so horrible as to make the Balkan campaign of 1913 seem merciful, are described by Serbian refugees which are pouring into Salonika today.

The invaders are butchering their Serbian prisoners with the utmost torture, dispatches from the Greek port assert. Hundreds of women and children were burned alive in the neighborhood of Nish, in churches where they had taken refuge, thinking the houses of worship would be respected by the Bulgars. Instead, the torch was applied. Those who rushed out were either shot or cut down. The others perished in the flames.
