WE'LL MOVE ON TO NEW TRIUMPHS

Topeka Musical Art Society Is on Firm Foundation.

Its Presentation of "The Messiah" an Unqualified Success.

PREVIOUS EFFORTS ECLIPSED

Credit Is Largely Due to Dean Horace Whitehouse

Aided by Scott Hopkins and Other Topeka Citizens.

The distinctive artistic success achieved by the Topeka Musical Art Society Thursday night in the presentation of "The Messiah" caused general felicitations among the music lovers of the city, and especially the promoters and officers of the society, who have determined that the latest effort shall be but another step forward in strengthening and broadening the society's work in building up the musical culture of the city, until Topeka becomes the musical center of the state.

The society will be kept intact and shortly after the first of the year it will be decided whether or not entertainment shall be undertaken for spring. It is likely that another music festival will be given, but details must be worked out.

The presentation of such a work as "The Messiah" involves a vast amount of hard labor and expense, and while the financial returns from the entertainments so far given have not been commensurate with the magnitude of the efforts made, the society's friends are undaunted and are determined to keep the work of the organization going.

The improvement in the chorus as shown Thursday night was really quite extraordinary, when the youthfulness of the organization is taken into consideration. It excited most flattering comments from everyone who heard it.

The spirit and precision was surprisingly good and not unworthy of a chorus much older in experience. The work of the chorus was 60 per cent better than a year ago and much better than last spring, indicating the steady progress that is being made.

There were 250 voices in the chorus and those who have heard the famous chorus at Lindborg said the results obtained by the Topeka organization were quite equal to those of the Lindborg singers.

Credit Due Whitehouse.

The chief explanation is the admirable directorship of Dean Horace Whitehouse, of Washburn college, who is the society's conductor. Mr. Whitehouse is a rich in experience and fine attainments, but he is an indefatigable worker, whose earnestness brings out the fullest capabilities of his singers.

His control of both singers and orchestra Thursday night was really remarkable. Although young in years, Dean Whitehouse is rich in experience and ability. He is a trained and finished musical leader of classic perception and Topeka is fortunate in having such a man in her midst working to establish the city on a higher plane musically.

Mrs. Bruno-Marcusson, the Chicago soprano who sang the leading part in "The Messiah," was warm in her praise of Dean Whitehouse's direction. "He is a real musician and knows exactly what he is doing all the time," she said. "It is a pleasure to work under his direction. He is capable of doing great things for Topeka and should have hearty encouragement."

His chorus, considering the short time it has been together, is surprisingly good and denotes the highest order of intelligent musical leadership.

Others have been equally as loud in their praise. Emil Oberholfer, director of the Minneapolis Symphony orchestra, which recently gave a concert here last spring during the music festival, paid a high tribute to Dean Whitehouse's ability.

Doubts Are Overcome.

It was Dean Whitehouse's power and organizing ability that brought the Topeka Musical Art Society, already the most ambitious and important musical organization of the city.

SAYS WE BECOME CRANKS ON HOT WATER DRINKING

Hopes every man and woman adopts this splendid morning habit.

Why is man and woman, half the time, feeling nervous, dependent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness?

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions who should see crowds of happy, healthy, rosy-cheeked people every where.

The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system, an ounce of waste material must be carried out, else it ferments and forms ptomaines, which are the cause of indigestion and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphates in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their return at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning in phosphated hot water.

A quarter pound of limestone phosphates will not cost much at the drug store, but is far more economical to anyone, its cleansing, sweetening and freshening effect upon the system.—Advertisement.

TIME IS SHORT

Call Goes Out to All Santa Claus Helpers

To Rally at Once Around the Christmas Standard.

A PULL ALL TOGETHER NOW

Will Make This Topeka's Most Notable Holiday Time.

Salvation Army and Jitney Drivers at the Front.

Are you going to be some Topeka child's Santa Claus? If you plan to exercise the privileges of that gentleman it is exceedingly important that you make known your intentions at once, for it is upon you and your friends and all the other friends of children in this city that the Confidential Exchange is depending to make this Christmas the greatest day that youngsters of Topeka have ever enjoyed.

Never before in the history of the city have all the forces working for the welfare of the unfortunate been welded together in so harmonious a group—directing all their energies to accomplish the same end—as in the case this year. Through the efforts of the central clearing house for charities, it is possible for every active and legitimate charitable society in Topeka to meet on common ground and by working hard in hand make this such a Christmas as will long be remembered.

But this central clearing house—the Confidential Exchange—must have more than the support of the legitimate and active charitable societies that work throughout the year. It is depending largely on the co-operation of every individual in the city who has plans in any sense to assume the mien of a Santa. The exchange is not in itself a charitable organization. In itself it offers no relief. It is only a directing point—maintained by the city of Topeka—for the purpose of making more efficient the work of the several societies and numerous individuals who make it a point to offer relief to the fellow who is down.

Get Together.

Since the institution of the central office every recognized club or society doing charitable work has been operating through the exchange and now when the season approaches, the time which all men give more liberally than ever to those who need, these organizations have notified the office of their especial desire to get together.

How effective work of this type can be made was demonstrated Thanksgiving evening in Topeka, when the reached who never before had received assistance from any person or organization. These families were of that particular type which often mention of their condition. They were reported to the exchange by friends and neighbors who were acquainted with the Topeka music festival making public no names or addresses. After the cases were reported to the central office, they were turned over by Miss Mabel Adams, secretary, to the various clubs or individuals who had volunteered to furnish baskets.

With the foundation laid and the experiences of the Thanksgiving day giving as an example, the host of friends of the children expect to sweep before them this year and there will be no reservations or exceptions. Every child of parents who are unable to play Santa Claus, will be remembered by the legion of Santa Claus followers here.

Jitney Drivers to Help.

Nor will the lightning speed of Santa's deer be lacking. Over a hundred or more "jitney" drivers in Topeka have come to the front and have volunteered to respond to all calls made upon them by the exchange. This of course means that any person in the city having a gift of any description that is to be delivered to any youngster in any part of the city has only to call the confidential exchange—555—and the service will be obtained. And they will be delivered "jitney" charge, the drivers declare. Where would Santa Claus be without his reindeers?

Along Kansas avenue Christmas Salvation Army kettles are kept boiling. Topekan are dropping into those pots numerous bits of chocolate that will mean relief from hunger or cold and genuine happiness to many unfortunate wails.

Every person who receives assistance from The Salvation Army is enrolled on the records of the confidential exchange, and every person who will be remembered by the Provident association, the county, the city welfare workers and the scores or more of other clubs is also recorded on the rolls of that directing office. With these records, it is possible to know just where and when relief is being extended. In such manner it is possible for the central office to weed out those few who believe that charity has not been their until six men's gifts come to their house. So also is it possible to visit those who have not before received from their more fortunate townsmen.

But first let's remember all the kiddies and if you know of one that should be remembered, call the telephone and call—555.

NEED OF TWO CUTTERS

Annual Report of Coast Guard Brings Out Needs in Pacific Waters.

Washington, Dec. 11.—Two cutters for work on the Pacific and in Alaskan waters, one for the harbor of New York and another for San Francisco harbor, are recommended in the annual report of the coast guard sent today to congress.

The cost of all these vessels is not definitely stated, but apparently would be over \$500,000.

The report declares that of the 275 stations of the coast guard, 21 should be rebuilt as soon as possible.

The cost is put at \$22,000 including the purchase of the vessels, the draught cutters for service on the Ohio and Mississippi rivers.

report again recommends light

HONOR HAYS PREACHER

Members of Church Give Brotherhood Dinner for Their Pastor.

Hays, Kan., Dec. 11.—Thursday night 50 men of Trinity Lutheran church and some invited guests sat down at a brotherhood dinner in honor of the pastor, Rev. C. F. Weist, president of the Kansas Lutheran synod. The dinner was served by the Ladies Aid of the church.

W. Oshant was the toastmaster. He spoke a few words on brotherhoods and then he introduced the speakers of the evening. Their names and toasts are as follows: "Who is my Brother?" Carl M. Holmquist, "Church History," H. D. Shafer, "The Brother-in-Law," Dr. Geo. B. Snyder, "Our Endeavorers," Geo. Grass, Jr., "Fallow Ground," G. K. Heller, "The Sunday School," R. S. Markwell, "The Church in a College Town," Clarence J. Smith, "Whose Move," Hugo Kohl.

After all the toasts had been made, Rev. C. F. Weist, the guest of honor, was called upon and in his clear cut style delivered a good heart-to-heart talk and exhibited the needs of the church, the opportunity for service and the joy which comes from work for Christ and the church. Rev. Weist has been the pastor of this church 15 years. The dinner, last night, is the first strictly brotherhood affair that has ever been given in this city. It is likely that in a few days a brotherhood will be organized.

CHURCH NOTICES.

(Items for this department should be handed in at the State Journal office by 5 o'clock on Friday afternoon.)

Unless otherwise noted in this column the services will be held at 11 o'clock in the morning and 7:30 o'clock in the evening.)

Free inspection of any battery any time. Ask for our pamphlet on Winter Care of Storage Batteries.

BETTER THAN SPANKING.

Spanking does not cure children of bad habits. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.—Adv.

War Upon Pain!

Pain is a visitor to every home and usually it comes quite unexpectedly. But you are prepared for every emergency if you keep a small bottle of Sloan's Liniment handy. It is the greatest pain killer ever discovered. Simply laid on the skin—no rubbing required—it drives the pain away. It is really wonderful.

Mervin H. Solster, Berkeley, Cal., writes: "Last Saturday, after tripping around the Panama Exposition with wet feet, I came home with my neck so stiff that I couldn't turn it. I applied Sloan's Liniment freely and went to bed. To my surprise, next morning the stiffness had almost disappeared, four hours after the second application I was as good as new." March, 1915. At Druggists. 25c.—Advertisement.
