

ITALY SOLDIERS UNDER FIRE SING WAY TO VICTORY

2,000,000 Men Battling Fiercely on Isonzo Front.

Pouring Across River to Attack Austro Stronghold.

FALL OF GORIZIT IS NEAR

Rome Gay With Flags Celebrates Great Victory.

Believe Decisive Blow Has Been Dealt to Austria.

BY JOHN H. HEARLEY.
Rome, Aug. 9.—Two million men are battling fiercely along the Isonzo front in a great struggle, centering about Goritz, that may prove the turning point of the war.

With the Goritz bridgehead and surrounding heights strongly in Italian hands, Italian troops are pouring across the river for the assault upon Goritz itself, singing gaily as they advance under the fire of their helmets decorated with flowers. Scores of great guns already are pounding the Austrian stronghold.

Certain here that Goritz will fall before a storming attack within a few hours if it is not already in Italian hands.

15,000 Prisoners Taken.

The battle is spreading along the Isonzo. In the first two days of the great offensive more than 15,000 Austrian prisoners were captured. The Austrians resisted with the greatest stubbornness and suffered frightful losses. Rome was swept with a tremendous wave of enthusiasm today as fresh dispatches from the front brought fragmentary details of the fighting around Goritz. The whole city was instantly beflagged when announcement of the capture of the Goritz bridgehead was received. A crowd gathered in Piazza Colonna and cheered the army. King Victor Emmanuel and General Cadorna. Similar demonstrations occurred in the theaters and cafes.

In other Italian cities, Milan, Bologna, Leghorn and Florence, Austrians dowered in patriotic demonstrations that lasted all night. The general conviction is that the decisive statement was made by the Austrians and that Italy is on the brink of a great and decisive victory that will send Italian armies marching on Trieste.

Only Beginning of Italy Drive.

"This is only the beginning of operations promising great developments," said the newspaper Corriere d'Italia. "Indubitably the enemy's front has been broken."

The censor is now permitting publication of some dispatches relating to the beginning of the Isonzo offensive. The drive began shortly after daylight Sunday and with a steady hail of Italian shells for a period of nine hours along a twenty mile front extending down the Isonzo in the Adriatic supported the land artillery with a bombardment of the Austrian left wing.

"No such awe-inspiring cascade of fire ever before has been witnessed on the Italian front," said an Italian correspondent. "So violent were the incessant earthquake-like phenomena produced by the big shells that houses in the Goritz plain were shattered or collapsed solely thru force of the seismic waves."

Then Infantry Charges.
"At 4 o'clock in the afternoon the order was given for the infantry to leave the trenches. The spectacle of these hardy warriors as they bounded forth to the fray recalled the heroes of legends, thousands of their front ranks wore round their helmets a floral garland, especially woven by the women of Trieste, Udine, Gorizia and Vicenza. With the stirring war cry of 'Great Italy forever,' they bounded across the dunes at the bridgehead and further down the Isonzo to the plateau, engaging in hand to hand struggle. At the head of the main forces ran men bearing aloft big white discs mounted on slender gray poles so as to guide the gunners in lifting their range as the infantry advanced."

Would Protect High Gas.

Kansas City, Kan., Aug. 9.—A big mass meeting to protest the action of receivers and federal courts in the Kansas gas rate case is advocated by J. H. Chapman, local commissioner of water and light. It is believed that the courts, all gas users of Missouri and Kansas, affected by the rate, he said, should be invited. "That the consumers really are in earnest," Mr. Chapman said, "we can ask state and municipal governments to back us in refusing to pay our gas bills. There should be a way of enjoining the gas company if it tries to turn off the gas. Anyway, it would be a big job and a serious proposition should be taken from every consumer in large cities."

TOTS HEALTHIER IF PERMITTED TO RUN ABOUT NUDE

New York, Aug. 9.—The death rate of infants under 6 years old would be greatly reduced if children were permitted to go nude in their homes during the hot weather, according to Dr. S. Josephine Baker of the bureau of child hygiene. Commenting on a letter complaining that a mother of the lower east side allowed her children, respectively aged 1 and 3, to run around naked in the house, Doctor Baker declared that was the natural way for them to live and that more mothers should be sensible in this respect.

PERONNE IN FLAMES

French Artillery Fast Reducing Historic City to Ruins.

German Great Headquarters, via Berlin, Tuesday, Aug. 9, and London, Aug. 9, 1:10 p. m.—Since yesterday the famous old French city of Peronne has been under French artillery fire, resulting in a great conflagration which threatens to wipe it out. Already the fine collection of paintings of Italian and Flemish masters has been destroyed by shells which landed singly in the city for where the most valuable art objects from the museum had been housed for protection. In addition to the paintings, which were torn to shreds, the shells destroyed unreplaceable collections of medieval Germanic silver and semi-precious stone work, Celtic coins dating from the time of the Roman invasion and medallions.

BAN ON RED CROSS

Germany Blames British Blockade Order and Will Seize Supplies.

Amsterdam, Aug. 9.—Via London.—The Nord Deutsche Allgemeine Zeitung of Berlin publishes a memorandum issued by the German government which states that owing to British treatment of the Red Cross supplies will not be allowed unless free passage for such supplies. German naval forces will receive orders to take possession of the supplies when they come within their reach.

The British government has refused to permit the forwarding of Red Cross supplies through the blockade line of the allies into Germany and Austria. In a recent memorandum submitted to the American government Great Britain stated that it would not be bound in all blockades established in the past.

STRIKE COST \$600,000

Unions Now Hustling Members on Subway and Elevated Lines.

New York, Aug. 9.—All the street car strikes in this city were over today and the utility service was resumed on the lines in all boroughs. Organizers of the Amalgamated Association of Street and Electric Railway Employees hastened their efforts to induce all the employees of the subway lines, the elevated and the Brooklyn rapid transit system to join the union. Union officials refused to say what plans they have made to present demands to these companies but said they did not expect to have to call another strike. It was estimated today that the strikes on the various lines had cost the operating companies \$600,000.

Wins Laboring Men.

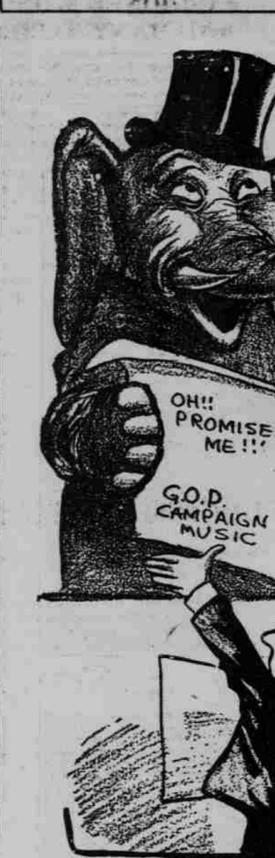

The Mexican speech of last night and the day speeches, in which he dwelt on the rights of the laboring men, have won him the praise of the middle western newspapers and he is in receipt of scores of congratulatory telegrams.

Frank Tyree, former secret service guard of Colonel Roosevelt, when the latter was president, joined the party today to assist Sylvester Briarton in guarding the candidate for the remainder of the western trip. According to rumor, the actions of a stranger in Detroit yesterday who said he had a message for the governor, aroused the fears of his staff and additional protection was determined upon. This rumor was spread by the press and Hughes, who said it was originally intended that Tyree should leave New York with the party, but he was detained here by the police.

At all events, Tyree will follow on with the party from this point. A special force of police attended the nominee wherever he went.
