Germany declared war on Portugal March 9 and a month later the Portuguese commander in Africa reported that he had occupied Kiung, a post on the border of German and Portuguese East Africa. ## DED YOUTHS AREN'T WANTED AT UNIVERSITY

### President of Leland Stanford Puts Ban on Wealth.

### Autos, Too Frequent Dances, Luxuries Are Prohibited.

## WRITES LETTER TO PARENTS

### Puts Hazing and Alcohol in the Same Class.

### Poor Boy Makes Better Record Than Affluent One.

Palo Alto, Cal., Sept. 23.—Wealth is a handicap to the college student and the poor boy has the advantage, according to Dr. Ray Lyman Wilbur, president of Leland Stanford university, in a statement today.

As a consequence of this belief Dr. Wilbur decreed that beginning this year autos may not be owned by students; that too frequent dances, the purchase of expensive flowers for coeds and similar luxuries will be banned.

Dr. Wilbur is so convinced he is right about this that he has sent a circular letter to students' parents saying students with too much money are not desired at the school. If they are inclined to spend their time in the pursuit of pleasure.

### Advises Parents.

The letter urges parents to refrain from too liberal allowances and warns them that as the number of entrants this year is limited, those students who fail to show they are doing honest work will not be permitted to remain.

Stanford does not particularly seek poor boys and discourage the entrance of the wealthy, Dr. Wilbur explains, but experience has shown that the poor boy has, on the whole made a better record, both as a student and afterwards. His appeal, Dr. Wilbur says, is an endeavor to save the wealthy lad from his own particular dangers.

"It takes time to run an automobile and it often leads to life off the campus, to extravagance and much foolishness," says the letter, adding: "There is plenty to do in the way of variety right at the university, with its swimming pools, athletic fields, gymnasiums, beautiful walks and the like. There is no need to go to San Francisco to take a vacation, and a semester and this trip can be conveniently and cheaply made by train. Stanford is today supplying money for orchids, for dance parties or for taxi hire."

### Better Stay at Home.

"The student who cannot be content to lead the clean, simple, industrious life expected on the Stanford campus should go elsewhere. If you do not feel that the student self-government is right and if you do not feel that it expresses the right attitude toward alcohol, hazing, self-control, paying of debts and things of that sort, it would be better to keep your son at home, or send them elsewhere, that is almost sure to come some day in a four-year course and will give the university more time to develop those who have the disposition to conform."

## BOYCOTT STRIKE TO TIE UP ALL Y. N. INDUSTRIES

### Called by Union Leaders for S. A. M. Wednesday.

### Refuse to Ride to Work on Strikebreaker Cars.

## COMPANIES ARE PREPARED

### "Will Protect Individuals' Right to Work"—Shonts.

### Police Department Prepares for Maintaining Quiet.

New York, Sept. 23.—New York awaited with apprehension today the next turn in the labor war which threatens on next Wednesday, when the order for general "suspension of work" becomes effective to make the largest city of the world a city of dead industries.

Developments of the last twenty-four hours have injected much bitterness into the labor situation developing from the strike of surface, subway and elevated carmen.

The general strike order, as interpreted by union leaders today, is merely notice to the employers that union men will not ride to work on cars run by non-union men and guards and not by the police. The effect will be a complete tie-up of industry in the greater city, thru refusal to work of nearly 800,000 union members.

### Shonts Is Determined.

President Shonts of the Interboro, storm center in the labor fight, announced today that the police of the company to deal with individual employees and not with unions or union leaders had not been altered.

"We are fully prepared for any emergency," he said. "Our policy will not be changed. The only question at issue is whether the individual is to be protected in his constitutional right to work under conditions satisfactory to himself individually."

Many unions will not vote authorization for a strike, leaders admitted today, as not all the leaders were in favor of power to order a general strike.

## TELLS OF ATTACK

### Teacher Relates How Man Assaulted Then Shot Her.

### With Revolver Compelled Her Stay in Woods All Night.

Deer River, Minn., Sept. 23.—At daylight today no trace had been found of the hunted assailant of Olga Dahl, 19-year-old school mistress of district No. 1, Itasca county. The girl, regaining consciousness last night has spoken; the man's description is pictured in the local papers.

"It is said Miss Dahl will live. A cold night with heavy frost made miserable the man fleeing thru the Minnesota muskge from the wrath of a community. There is scarcely an unguarded dry spot in the great swampy woods which he can stand. Starvation will eventually drive him forth, it is believed.

"That he has not escaped the district in which he committed the crime is believed by all in the chase. Woodsmen are carrying packs well filled with food and it is believed that one of these will follow eventually and fall upon the trail and run him down."

### Left Her Tied to Tree.

Miss Dahl, heavily bandaged hiding her disfigured face, where the assailant twice shot her, told, pathetically her story. She told how the man came to the schoolhouse after the children had left. He talked to her—then came a long wait in her story. Finally she said the man drew a revolver and demanded that she follow him into the woods. He made a camp fire out there and slept beside her that night, Wednesday.

"Next morning," she sobbed, "he built another fire. He turned to me. When I regained consciousness I was ready to rise. He looked at me and without saying a word began to shoot me. I felt the bullets hit my face. I fainted, I guess, I do not remember."

### Note Book a Clue.

Authorities headed by Sheriff Chas. Gunderson all of yesterday scoured the vicinity. At the spot where the man's camp had been made they found a razor, notebook and an envelope. Sheriff Gunderson said the envelope bore the address, "Mr. Dawson, Bena, Minn."

They admit the notebook contains clues by which they hope to locate the assailant.

## GREEKS MAKE DEMAND

### If Allies Accept Greece Will Declare War on Bulgars.

Athens, Sept. 23.—The Greek government is said on the best authority to have telegraphed definite proposals to the entente capitals, which if accepted will mean Greece's entry into the war. If the uncertainty of the relations between Greece and the entente continues, it is regarded as not improbable that Greece may declare war on Bulgaria on her own account.

Semi-official reports of the cabinet to ascertain from the entente ministers a statement as to the desires of the allied governments have been fruitless. The ministers were given to understand that as many as three members of the Greek cabinet were ready to resign if the entente refused the sole reply was that instructions had not been received.

The women members of the blackmail gang, a number of whom have recently been discovered in Chicago, are accused of having operated chiefly at fashionable beaches through the past summer. Their method has been to intrigue wealthy male victims into compromising situations and to have a camera at hand to record the affair. Confronted with the photograph the wealthy victim seldom refused to pay any sum demanded on threat of exposure. Mrs. Helen Evers, who is now enjoying her liberty under \$25,000 bail, is alleged to be the leading beauty of the organization. She denies the charges and asserts her innocence.

The 200 passengers were taken off in lifeboats and dories. The steamer lies high and dry in a dangerous position.

The coast guard cutter Ossipee and the tug Portland, notified by wireless, hastened to the assistance of the Bay State, but, as the steamer was pounding heavily it was thought advisable to have the passengers removed by the crew of the Cape Elizabeth coast guard station. Soon after daylight the steamer commenced blowing out her boilers and it appeared probable that her bottom had been punctured. It was feared she could not be saved.

### Carranza Garrison Heavily Reinforced to Meet Villa.

### Bandit Chief Threatens to Drive De Facto Into Rio Grande.

Juarez, Mexico, Sept. 23.—(via El Paso).—The Carranza garrison here is being heavily reinforced today. Three thousands of cavalry from Chihuahua City and points south detained and went into camp this morning. These additions to the forces already here are believed to have been prompted by the threat of Pancho Villa that he "would drive the Carranzistas now at Juarez into the Rio Grande."

Rumors of an impending attack swept over Juarez last night, following the discovery that a bridge six miles south of here on the Mexican Central railway was blown up Thursday by a small party of bandits. According to arrivals from the south, Villa forces are now encamped only twenty-two miles outside of Chihuahua City, where they have been since they left the city after their attack Saturday.

Chicago, Sept. 23.—Two mysterious dynamite explosions, both attributed to labor affairs, partially wrecked two buildings early today. Windows were shattered.

The first blast occurred at an apartment building occupied by Edward W. Shields, said by the police to be identified with an Electrical Workers' union. Two months ago, according to the police, an attempt was made to shoot Shields. The second explosion, which damaged the building of the Atlas Garage company, is believed by the police to have been caused by a bomb hurled from a passing elevated train. Union employees of the garage recently went on a strike demanding a closed shop.

Fire followed both explosions.

### Rose Mix Told Her Tale to County Attorney Today.

### Frank Lund Registered Under Own Name, It Is Charged.

Cuddling to her breast a sturdy, cooing baby, Rose Mix, seventeen years of age, sobbed out a story to the county attorney today which resulted in the immediate issuance of a warrant for Frank Lund, of Alma, charging him with a statutory offense.

While the fatherless baby tugged at its mother's dress, while it caught at masculine fingers poked at it by court house men, the mother gave the county attorney the necessary facts for a prosecution. She told of two trips to Topeka with Lund and of nights spent in a local hotel, registered as man and wife.

The complaint against Lund cites two counts. It alleges that he brought Rose Mix to Topeka in November, 1915, and again in June, 1916.

The peculiar thing the officers say they have discovered about the case is that Lund registered by his own name and gave his correct address. However, he added "and wife" to the registration and that is the basis of the suit in Shawnee county. The Mix girl says Lund is in Topeka or Shawnee county. The warrant has been turned over to the sheriff but Lund has not yet been located.

There is another case pending against Lund in Wabasha county, according to the information given to the county attorney. He is charged with being the father of the little baby with its mother at the court house today, said the county attorney. He is out on bond given in the Wabasha county district court.

## "BONEY" LOST OUT

### Hurley Defeated Caddy Phenom in Semi-Finals, 3 and 1.

### Victory Practically Assured Him of a Final Triumph.

The advantage of years and superior experience were again demonstrated today when Harlow Hurley, state champion, defeated Arthur Bonebrake in the semi-final round of the first flight of the Country club invitation golf tournament today, winning 3 up and 1 to play.

One of the facts that Onstott and Payne, the other survivors in the first flight, were not conceded a chance to win out in the final round, the match between Bonebrake and Hurley was the
