One Sergeant Captured 375 Huns With Empty Gun.

Band Concert on State House Grounds at 8 O'clock.

The army caravan which arrived in Topeka Wednesday afternoon and gave a demonstration at the state house grounds in the evening is to stay another day. The caravan will leave for Kansas at 5 o'clock this afternoon, and the concert and speaking program will be given at the state house grounds at 8 o'clock. The caravan is encamped at Ripley park where various kinds of war making machinery are on exhibit. The train left Camp Funston Monday morning for a three months tour of Kansas and Missouri on a recruiting mission. It is the purpose of the caravan to visualize for prospective recruits the advantages offered by the service as a preparatory school for civil life.

At the big meeting at the state house grounds Wednesday night the thirty-two piece band gave a concert equal to any which have been given in Topeka by military bands during the war. This band is composed of musicians picked from the bands of six regiments and represents the cream of army music makers.

He Captured 375 Huns. The principal talk at the meeting at the state house this evening will be made by Sergeant Adams, of Sparta, Kansas, who has received a medal of fame for his service in the world war.

It is a matter of official record that Sergeant Adams captured 375 Germans with an unloaded revolver and delivered them at a point in the rear of Arthur Champeny of the 365th infantry of the 89th division is executive officer with the army train. Captain Champeny was in the rear of the great war. He is the winner of the American distinguished service cross and of the French Croix de Guerre with palms. It is told of Champeny that all one can see of his medals is the ribbon—the little bar of color which indicates the year of the medal. The medals themselves he carries in various places—sometimes safely stowed at the bottom of his deepest pocket and sometimes stored in a remote corner of his trunk. He never wears them.

Decorated Officers. Another Kansan with the train is Lieutenant Colonel Fred W. Lemmon, formerly of the Second Kansas infantry of the national guard. Lemmon also wears the ribbon denoting his right to the American distinguished service cross. Lieutenant Colonel Peatross of the 89th division is another speaker with the train. Colonel Peatross is perhaps the most decorated man of the party. He is entitled to wear the American distinguished service cross and the war crosses of France and Belgium. All of these men will be speakers at the meeting at the state house this evening.

UP 30,700 FEET Roland Roloffs Establishes New U. S. Altitude Record.

Compelled To Descend Because Motor Chilled at 25 Below.

New York, July 31.—A new American altitude record was established late yesterday by Roland Roloffs, test pilot for the Curtiss Aeroplane & Motor company.

In a flight of less than two hours at Roosevelt field, Mineola, Roloffs attained a height of 30,700 feet. He was compelled to descend because his motor became chilled at a temperature of 25 below zero. He attempted to wrap the engine with strips of wool from a cushion, letting the plane run itself during the operation, but a 100-mile an hour wind tore the strips away.

The previous record was made by Capt. R. W. Schroeder, U. S. A., at Dayton, Ohio, September 18, 1915. He made an altitude of 28,900 feet. The world record was made by Adjutant Charles de la French army at Villa Coublay, France, June 19, 1918, when he reached a height of 32,136 feet.

FIND GIRL'S BODY Her Fiance Held—Says Their Canoe Went Over Dam.

Paterson, N. J., July 31.—The body of Miss Mabel Harris, who disappeared Sunday night while canoeing, was found today half a mile below the dam at Pampton Lake, it was announced by county officials. The girl's fiance, Lester Decker, held in jail on a charge of kidnapping, said the canoe went over the dam while he was lying in the bottom resting.

KANSAS WATER CHRISTENS SHIP. Crystal Fluid From Labette Creek Over Bow of Honor Vessel.

Philadelpia, Pa., July 31.—Water from Labette creek, Kansas, was used by Miss Alice Gillett, of Parsons, Kan., to christen the Liberator cargo carrier Labette, which was launched at Hog Island shipyard late Wednesday. The Libette is a liberty loan ship, christened in honor of the excellent work of the citizens of Labette county, Kansas, in the various war activities. Liberty loan drives were held in the various communities under the leadership of the United States shipping board. The christening of the vessel with water from the beautiful stream that flows thru the county and the request was granted. So once again the traditional bottle of champagne was thrust into the background and the bow of the sturdy cargo carrier was struck with the bottle containing sparkling water from the natal state of the fair sponsor.

Following the launching Cecil Beideman, of Radley, of the union employer of the shipyard, presented Miss Gillett with a handsome gold wrist watch.

SHOT HIS DIVORCED WIFE. Radley Miner Has Quarrel With Her Over Children.

Pittsburg, July 31.—Mrs. Martha Cresto was perhaps fatally wounded Wednesday when her husband, John Cresto, from whom she separated two weeks ago, halted the buggy in which she was riding with Miss Millie Van Peonage in South Radley, and, after a short quarrel, shot her. His mother, who was attracted to the scene by the trouble, threw herself upon him and grabbed his right arm, making it impossible for him to take more than one shot. The wounded woman was brought to a local hospital, where it was thought she would recover. She surrendered herself to the sheriff. Cresto, 35, is a highly respected citizen. He has two children. Bystanders at the shooting told the official Cresto told his wife to take her to the South Radley after he told her not to, but that custody of the children also entered into the quarrel.

Ordering Out of Troops Calms Race Rioters.

Practically All Fighting Stops With Troops Arrival.

DEAD AT 30, HUNDREDS HURT

Few Injured Sustained Last Night, but No Deaths.

U. S. Into Race War—Postal Service Delayed.

SEND 102-YEAR-OLD RIOTER HOME.

Chicago, July 31.—S. C. McCoy, colored, who told the police he was 102 years old, probably was the oldest person picked up by the police as a suspect in the round up of race rioters here last night. He was placed in a military revolver and warned to go home.

Chicago, July 31.—Seared and dilapidated, its inhabitants bandaged and frightened, Chicago's black belt today was calm and orderly after three days and nights of race rioting which claimed thirty lives and caused injury to 300 persons.

The total number of dead, 30, included 27 negroes and 3 whites. Of these, 200 were severely hurt and a dozen may die of wounds. Practically all fighting, except occasional outbursts caused by the arrival in the negro section of 5,200 soldiers, members of the militia and national guard. Presence of the troops and the fall of a steady rain accounted for a cessation of hostilities that had been an 80 hours' reign of terror for a district covering approximately fifty square miles.

Rain Quenched Ten Fires. The rain also served to combat the more than 10 incendiary fires which damaged or destroyed scores of negro homes. Many of the former occupants abandoned the most dangerous portions of the belt, taking refuge in outlying districts, some even going north to Milwaukee and south to Tennessee and Mississippi, their former homes.

Desolation greeted the occasional visitor who dared penetrate the belt. In many places the houses were in ruins, bricks and stones strewn about the sidewalk, yard and porch marked dozens of houses raided by white mobs. In many places the furniture, clothing and wearing apparel were piled out and left in the street.

Scattered Knots of Negroes. On the carbonates sat lazily and sultrily in the shade of the trees, talking in subdued tones to each other. When rain fell they were driven to doorways and shelters.

Provision wagons had not dared enter the belt, and many times since exhausted and stores were closed. Today police and troops guarded loafers and loiterers in the disturbed area.

Church and civic leaders among the colored population harangued on street corners, urging negroes not to molest whites but to keep within their homes. Respect for law and order, they urged, was the best way to gain redress for wrongs.

Begun Burial of Riot Dead. Burial of the dead in the riotous belt today. Released by the coroner, bodies were taken to the neighborhood where joint funerals were held.

Governor Frank O. Lowden ordered the troops out last night on request of Mayor Thompson after darkness had brought renewed rioting and the city's three thousand policemen were exhausted. The First, Second and Third reserve militia and the Tenth and Eleventh Illinois infantry were sent on duty by Adjutant General Dickson while the Ninth regiment remained in reserve at the stockyards and the Fourth reserves on the west side.

Thompson's investigation. Mayor Thompson's decision to ask aid of state troops was reached after his secretary and General Dickson had gone thru the zone where white and black clashes many times since Sunday and he had received reports from investigators who told him many small altitudinal clubs were arranging to make a general attack on negroes.

General Dickson reported the situation was "ominous" and Chief of Police Garrity presented a tabulation of the situation. The fire chief told the mayor that firemen had answered forty fire alarms to quench blazes started by whites who had started by whites. This information at hand the mayor hastily telephoned Governor Lowden and General Dickson, asking that troops be ordered to the riotous belt.

All Quiet by 2 a. M. T. lay. As each regiment reached its headquarters, the men were split into platoons of white and negroes. Under non-commissioned officers to see that order was preserved. Even the truculent negroes for the most part refrained from fighting the soldiers and by 2 a. m. all was quiet in the troop-guarded territory. The troops arrival was followed by rainfall, which helped rout the disturbers.

The most serious riot of the night occurred at 53rd and State streets. There was a riot in the crowd of negroes two hours firing nearly a thousand shots before rioters were subdued and 45 arrested. It was only after patrolmen had chopped their way into some buildings and seized a dozen snipers, with their rifles and 500 cartridges, that fighting stopped.

Salpers Fired Upon Troops. Major Macey, in command of six companies of the first reserve, and a platoon of his men were fired on by snipers at 4th and Broadway avenue. None of the soldiers was hit and when they scattered and fought their way to the latter destination. The first arrest was made by soldiers who fired white men whose automobile was searched because of their rowdyism and found to contain a revolver.

While soldiers were taking their stations a crowd of whites surrounded

the home of John Coles, negro policeman in Englewood, and rained bullets on him and his wife. The house was severely damaged before policemen arrived. While the mob was storming the place five truckloads of militia could again ride elevated and surface cars. So the thousands who have come down town on trucks or by their own motive power and gone home as best they could, bore good humoredly the inconvenience forced upon them by the paralysis of local transportation.

Negro Leaders Urge Peace. Leaders among negroes of Chicago met last night in an effort to discover real causes of the riots and to devise means of ending disorders. Resolutions were adopted advising negroes to be the first to cease acts of violence and asserting that nothing but evil could result from attempts to break vengeance for grievances, real or fancied.

"We believe the good people of Chicago will support us in our efforts to establish a lasting peace and good feeling," the resolution said. W. A. Latham, president of an industrial union, said the colored men feared mobs from the West Side planned a mass attack on the "black belt" and that if they could be assured no riot would happen they would calm down.

Woman in Man's Clothes. A white woman, dressed in man's clothing and carrying a pistol, was arrested last night in company with a negro, also arrested. She told the police she was on her way to a railroad station and had planned male attire thru fear of rioters.

Chief of Police Garrity has ordered all police captains to book all persons found carrying pistols immediately under a law providing a penalty of from \$100 to \$1,000 or a year in jail, or both, for carrying a pistol. Points out the law is especially applicable to race riots and that persons may be booked under either of the two carrying blackjacks, metal knuckles, bludgeons, knives or razors.

Troops To Guard Mails. Interference with the United States mails in Chicago has carried the riot situation thru official channels to Washington. Federal officials hinted that within twenty-four hours troops would be ordered to the protection of both races and guarding delivery of mail. Failure of one thousand chauffeurs, carriers and clerks to report for duty was declared by Postmaster Carrille to constitute interference with the mails.

The reason of the inability of employees to arrive. The interference was reported to Postmaster General Burton who in turn made it known to the secretary of war. Plans for collection and preservation of evidence for prosecution of those who were in conference again today.

"The states attorney and I will immediately send a special investigator to obtain evidence against some of these men who take human life so freely," Mr. Brandage said. "We expect to get some of them to the penitentiary."

Plot to Burn Black Belt. Mayor Thompson in a statement issued today said that one reason for his suggestion of sending troops to the use of state troops was that he had information of a well defined plot to burn a large section of the "black belt."

Toddling Chicago Finds Cheer in Prospect of Strike End.

Union Will Take a Referendum Vote Tomorrow.

Chicago, July 31.—Toddling Chicago today found cheer in the prospect that the street strike might end soon and that by Saturday morning workers could again ride elevated and surface cars. So the thousands who have come down town on trucks or by their own motive power and gone home as best they could, bore good humoredly the inconvenience forced upon them by the paralysis of local transportation.

Agree on Referendum Vote. Possibility of the near solution of the strike came with the announcement that the 15,000 surface and elevated men on strike since 4 a. m. Tuesday, would ballot tomorrow on whether to accept the wage scale agreed upon by a viva voce vote by representatives and those of the companies and rejected the same night at a meeting of 4,000 car men. The plan of the union leaders for a referendum of the entire union membership met the approval of W. D. Mahon, international president of the Carmen's union, an international union of street car men.

Interference with the United States mails in Chicago has carried the riot situation thru official channels to Washington.
