Gompers Explodes, Firing First Gun in Labor Fight.

Urges Ship Builders to Force Congress to "Fair" Side.

Washington, Feb. 10.—Opening the political campaign of the American Federation of Labor President Gompers in an address today before the shipbuilding trades convention here asked the aid of the unions represented in electing members of congress and other officials favorable to organized labor. He promised every assistance of the federation in obtaining for the United States the greatest merchant marine of the world, thru continuance of war time construction program. Mr. Gompers said the failure of the congress to carry the ship program to a logical conclusion was typical of the attitude of congress toward constructive legislation. With the war over, he said members of congress are "talking themselves hoarse in the attempt to further invade the rights of the people of the United States."

"It is a policy just the reverse of that in every other country," the speaker asserted, describing the liberal movement in Europe. "It is your duty to see that this tendency toward autocracy is curbed, our fight now can expect the bitterest opposition from every enemy of labor—especially from every standpatter, reactionary, and some damn fools on the 'hill'." Mr. Gompers assured the delegates that the federation's campaign would be conducted on the same lines as heretofore, and that the labor vote would not be committed to any party, but would be used exclusively "to reward our friends and to defeat our enemies."

**THIRD DISTRICT FAILS TO AGREE**

Fight for Delegation to Go Before Cherryvale Convention.

Third district Republicans failed to iron out their differences at the meeting of the district committee in Cherryvale Monday. The fight for places on the Third district delegation will be taken on the floor of the district convention in Cherryvale March 24 under present plans.

Several leaders in the Third district had hoped to adjust differences in the Fitzpatrick-Alben-Gossard-Fowell fight for delegation places. None of the candidates consented to withdraw when the congressional committee met and friends of the four candidates insisted the fight would be carried to the floor of the district convention. The fight is one of the most bitter in the state.

**Bloodless Revolution by the Great Middle Class to Solve Economic Puzzle**

Bourgeoisie of America Organizing to Take Affairs Out of the Hands of the Twenty Per Cent Minority of Capital and Labor.

New York, Feb. 10.—The "bloodless revolution" has arrived. The long suffering "bourgeoisie" has revolted, and is organizing itself into the "Middle Class Union of New York" to fight affairs by representing the "real majority of the people and not the 20 per cent represented by capital and labor."

Wilmet L. Morehouse, one of the chief organizers and temporary president of the union, today declared the union will inaugurate a "bloodless revolution" to correct present conditions. "We will use the boycott or whatever method we find most suited to

bring down the high cost of living," he said. "If, to accomplish this, labor cost—wages—must come down, too, I am confident the laboring man won't kick. His dollar is only worth 50 cents; if we make it worth a dollar he will readily realize his salary is twice as valuable."

**Big Fellows to Blame.**  
"The big fellows in business are responsible for excessive profits—the storekeeper. And they are the ones who profit from high prices. They can hold on to their dollars until they rise from 50 cents to a dollar in value and have twice as much, while the middle class man and even the laborer with his high wages must pay out his twice normal salary in doubled prices."

Membership in a labor union is not a bar to membership in the "bourgeoisie" union. According to Morehouse, none is barred. Work of organization will be chiefly thru community centers and other existing civic organizations. The creators of the Middle Class Union hope to enroll American Legion chapters in their entirety.

Taxation as well as living costs—in fact, any problem affecting the members of the union—will be taken up. While present organization plans are only being made for New York state, application may be made in the near future for a national charter, it is said.

**DEPENDS DANCE AT Y. W.**

"Citizen of Topeka" Gives "Moral Uplift Society" Valuable Advice.

As a result of a story which appeared in the State Journal Saturday regarding folk dancing taught at the Y. W. C. A. and criticized by the Y. W. C. A. for allowing such instruction, the following letter has been received: To the Moral Uplift Society and the certain ministers of Topeka, who criticize and censure Miss Loudonback and her folk dances she teaches at the Y. W. C. A.:

"I, as a citizen of Topeka, think it an outrage for any society or minister to criticize a teacher or organization that furnishes the clean, moral training and beautiful exercise that the Y. W. C. A. does. And to the party who said stumpy dancing was taught at the Y. W. C. A. I will say this much, that his or her glasses were smudged or evidently they do not know a stumpy dance from a folk dance. Now don't think me a dance critic, for I am not low to dance."

"And in conclusion I will say that when our boys went across they were physically trained along lines similar to the way our girls are trained at the Y. W. C. A. and when they came back they brought the same for which they went. And if more girls were taught the exercises which the Y. W. C. A. teaches, there would be less consumption and more healthy girls and women. While we are fighting the great world plague, let us fight it with exercise as well as medicine. As we all know that exercise and moral training is good for our fast becoming sickly nation, and to finish this article I will say this Moral Uplift society and the certain minister, that if you had a little of this physical exercise that is taught at the Y. W. C. A. injected into your system, you wouldn't have nerve enough to censure it."

**AN APPEAL FOR NIGHTGOWNS.**

Public Health Nursing Association Asks for Flu Relief.

The Public Health Nursing association has issued an appeal for nightgowns for children between the ages of one and ten. There is a great need for them in cases of sickness at the flu hospital and over the city, according to Mrs. C. B. Thomas, acting supervisor. The people are asked to leave them at the office of the P. H. N. association in the city building.

The association's weekly meeting has been postponed indefinitely.

The AEOLIAN-VOCALION Ambassador of All the World's Great Artists

ABOVE are shown five of the brilliant group of young artists who are making records exclusively for the Aeolian-Vocalion. A depiction is also given of the new Vocalion record. The wonder of this record—the notable advance it represents in the science of recording—cannot be shown. Only through the glorious voices of such world-famous singers as these, reproduced as voices have never before been heard from the phonograph—can a full appreciation of this marvelous new record be gained.

But the Aeolian-Vocalion is the ambassador—the mouthpiece—of more than any single group of artists. Every artist, every musician or entertainer, every musical organization making records in the world today, has made and is making them for the owner of the Aeolian-Vocalion to play and to enjoy. For the Aeolian-Vocalion plays all records.

The commanding advantages of the Aeolian-Vocalion—its superlative tone, its revolutionary controlling device for personal playing (the Graduola), its wonderful Universal Tone-Arm that enables it to play all records, its unapproached beauty and its many mechanical superiorities like the perfected Automatic Stop are the features on which rest the supremacy of the Vocalion in the Phonograph field of today.

VOCALION PRICES—Conventional models, equipped with Graduola, are priced from \$165 upwards; without Graduola, from \$50. Many beautiful Period models priced from \$265.00.

**Born in 1839 Dr. Caldwell Still in His Office Daily**

Wonderful vigor of the founder of Dr. Caldwell's Syrup Pepsin. Millions now use his famous prescription

Physicians know that good health depends largely upon proper digestion and elimination and that much sickness results from constipation. No one knows this better than the "family" doctor, the general practitioner.

DR. W. B. CALDWELL of Monticello, Illinois, was and is a family doctor. The whole human body, not any small part of it, was his practice. More than half his "calls" were on women, children and babies. They are the ones most often sick. But their illnesses were usually of a minor nature—colds, fevers, headaches, biliousness—and all of them required first a thorough evacuation. They were constipated.

Dr. Caldwell in the course of 40 years' practice, for he was graduated from Rush Medical College back in 1875, had found a good deal of success in such cases with a prescription of his own containing simple laxative herbs with pepsin. In 1892 he decided to use this formula in the manufacture of a medicine to be known as Dr. Caldwell's Syrup Pepsin, and in that year the preparation was first placed on the market. The picture of Dr. Caldwell that appears on the package was taken in that year.

The preparation immediately had as great a success in the drug stores as it previously had in the doctor's private practice. Today the third generation is using it.

DR. W. B. CALDWELL TODAY Born Shelbyville, Mo., March 27, 1859 Began the manufacture of his famous prescription in 1892

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 517 Washington St., Monticello, Illinois.

Every drug store sells Dr. Caldwell's Syrup Pepsin. Keep a bottle in your home. Where many live someone is sure to need it quickly.
