

CARTLIDGE TO JOB

Former Topekan to Manager-ship L. & L. G. in Chicago.

Another Advance in His Fire Insurance Authority.

Word has been received in Topeka of the appointment of Harold T. Cartlidge, formerly of Topeka, to the joint membership of the Liverpool & London & Globe Fire Insurance with headquarters in Chicago.

H. T. Cartlidge.

Harold T. Cartlidge lived in Topeka many years. He began his insurance career with the old Harrison Clark-son-Kansas and Oklahoma Rating Bureau. In 1899 he went to the Shawnee Fire Insurance company of Topeka as special agent and adjuster.

He was with the Shawnee company in various capacities until it was re-assured by the National of Hartford Fire Insurance company in 1912 and then he went to Chicago as agency superintendent.

He was promoted rapidly in the National and at the time of his recent change he was assistant manager of the western department.

Harold T. Cartlidge is recognized as one of the best posted fire insurance men in the west. The National Underwriter, in speaking of the change says:

Mr. Cartlidge has been the assistant manager of the western department of the National Fire for some two years, and brings to the executive staff of the Liverpool & London & Globe a wide experience in administrative and underwriting affairs.

The increase in business and the broadening of the underwriting policy of the Liverpool has developed the necessity for an increase in the executive staff, and in recognition of this Mr. Cartlidge has been appointed to the position of assistant manager of the western department.

Mr. Cartlidge has had a valuable experience in underwriting both in form and commercial lines. He and Mr. Robertson will make a particularly strong team.

Mr. Cartlidge is a brother of Edward F. Cartlidge of Topeka, tax commissioner of the Atchison, Topeka & Santa Fe railway.

FORRESTER HAS HEART

Kansas Oil King Comes To Aid of Denver Youth Charged With Crime in District Court.

When Harvey Morris, a 16-year-old youth, hungry and poorly clad, stood before Judge James A. McClure in the second division of the district court this week, and admitted that he attempted to pass a forged check for \$10 to buy an overcoat to keep himself warm, his case immediately attracted the attention of the attorneys and witnesses in the case of M. C. Willard against Sylvester Forrester, Kansas oil king.

Morris told the court that he forged the check because he was out of money and had been unable to find employment. His story was one of general hardship experienced by a youth in attempting to make his way thru the world alone. His home was in Denver, he said, but he had been unable to go there on account of a lack of money.

The heart of the Kansas farmer-stockman who has made several millions in the oil game during the past four or five years showed itself. The court was considering a parole for the lad, but the problem of turning him loose in the world again without funds was in the way. Then thru one of those "strange coincidences" sources Judge McClure discovered that the problem would be met and the parole granted.

When Harvey Morris left that night for Denver he was wearing an outfit of new clothing, including a new overcoat, had real money in his pockets and a ticket that entitled him to a place on the cushions.

"The sight of that lad got close to me," said Forrester.

CITIZENSHIP TO FIFTEEN

Out of Total of Fifty Applicants Thirty-Five Are Rejected.

America has fifteen new citizens today as the result of the naturalization examination conducted in Judge James McClure's division of the district court Friday and today. Out of thirty-five applicants who had been examined up until this afternoon, however, more than thirty-five were rejected, either permanently or temporarily.

In most cases the applicants showed an inability to either read or write the English language, and in some cases they could only speak a few words of English. Where they signified a desire to learn, their cases were continued until the next hearing day, which will be in April.

George Shaffer, 536 East Star, displayed more knowledge than did the others when he was examined Friday afternoon by Chester Ramsey, naturalization agent. Replying to Ramsey's questions, Shaffer asserted that Governor Allen made the law.

"Are there any law-making bodies in this state?" asked Ramsey. "Sure," replied Shaffer. "The Kansas State," he said.

Those who have so far been admitted to citizenship are: John Schmidt, 1933 North Jefferson street; Alfons Haag, 421 Jefferson street; Frank Hintz, 1923 North Quincy street; Jacob Koob, 114 North Crane street; John Macht, 114 North Chandler; William Lutz, route 17, Richland; Thomas Perbel, route 17, Richland; Jacob Schultz, route 18, Richland; Jacob Schultz, Jr., route 19, Richland; John Amrein, 527 East Gordon; Jacob Roth, 523 Larch street; John Leuchter, 423 North Leavenworth street; 423 East Gordon; Clemens Stramel, 199 North Lake, and Adam Kaberlein, 486 Emmett street.

LOSE BIG PLANT?

Pierson Company To Be Shut Down Soon, Is Belief.

Property May Be Sold by Order of District Court.

The closing of the Pierson Manufacturing company's plant at 700 East Eighth street and the sale of the property at the earliest possible moment was indicated today when a motion by two bondholders to intervene in the litigation was argued before Judge George Whitcomb in the district court.

"That the plant should be closed in order to put an end to the heavy operation expenses seemed to be the unanimous opinion of several attorneys who appeared in the interest of the receiver, the trustees, the bondholders and others interested. Col. Clad Hamilton, representing the two bondholders who sought to intervene, told the court that in December, 1921, the earnings of the company amounted to \$247.87 as compared with more than \$2,600 for salesmen's salary and expenses.

Judge Whitcomb indicated that he is ready at any moment to sign the order for the sale of the property. Just how this matter will be handled, however, is not clear. The trustees in the transaction. No definite action was taken today and the decision on the motion of the two bondholders to intervene was postponed until January 28.

Californians Intervene.

The motion was filed by Frank C. Roosen, of Hollywood, Cal., and Chas. W. T. M. C. of Los Angeles, who say they are holders of \$63,000 worth of the company's bonds. Their attempt to intervene in the suit brought against the company last September by T. C. Daniels, a large stockholder, is based on the theory that the order of the court authorizing the receiver to issue \$50,000 worth of receiver's certificates gives a preference to bondholders who were not made parties defendant.

Among these are the Bank of Topeka and the Merchants National bank. The receiver argued that the receiver should be permitted to intervene in order to protect their own interests.

The two banks, however, together with the receiver represented by George McDermott, opposed the motion on the grounds that the bondholders' interests are represented by the receiver and that the receiver, H. L. Lawrence, both of whom are parties defendant, and that the admittance of the Roosens would open the gates to all bondholders, of whom there are some 150, thus making a ponderous matter of litigation without additional advantages to any one. W. D. Lawrence himself favored the intervention of the Roosens. While Judge Whitcomb did not rule on the motion, it was plainly indicated, it was said, that he would make the law.

Property Should Be Sold. The motion for an order of the court to instruct the receiver to sell the property at once was filed today by Johnson & Beck, but has not been ruled upon. Colonel Hamilton, representing the Roosens and Lawrence, is presenting the motion today both expressed the belief that the property should be sold at once. George McDermott, receiver, today declined to be interviewed on this demand and intimated that the plant will be closed without further parley.

The validity of the receiver's certificates, which are being sold at 10 cents on the dollar, have been indirectly challenged by Colonel Hamilton in presenting the Roosens' motion. He offered to pay the full value of the certificates if the receiver would agree to sell the plant at once. The receiver's certificates should be a prior lien on the property, it was argued, and that the receiver's motion is invalid because it violates the constitutional amendment prohibiting the confiscation of property without due process of law, and because no state may pass a law impairing the obligation of contracts.

WILL SEEK INJUNCTION

Independent Taxi Drivers Oppose Meter Ordinance.

An injunction against the putting into effect of the city ordinance requiring the installation of taxi-meters on taxicabs will be sought by the independent taxi-cab company of Topeka, and the independent drivers.

The suit is being backed by the legislative committee of the Topeka Industrial Council, Dan Richmond, acting chairman of the committee, stated today. "We are behind them in their fight against the ordinance," Richmond stated.

The ordinance which requires the installation of meters on all taxicabs operating in the city was passed recently by the city commission, to be published and become effective February 1.

It was stated today that the injunction will be filed before that date. The independent taxi-drivers have opposed the ordinance from the start, on the ground that it would make the cost of doing business for them prohibitive. The ordinance requires each driver to furnish a surety bond for the protection of his passenger from damage. The independent taxi drivers assert that it costs more to supply this bond than they can afford. They also object to the cost of installing the meters on their cars.

FIGHT DEATH AMONG BABIES.

Shawnee County Chapter Has Appropriated \$2,800 for Work Here.

The Shawnee county chapter of the Red Cross agrees with Dr. Earle G. Brown, city health officer, that "there is too much infant mortality in Topeka." The Red Cross chapter has appropriated \$2,800 for the work of combating death among the babies during the coming year.

Miss Mildred Mitchener of the Public Health nursing association, assisted by the five district nurses of the association, will carry on the work.

Topeka is to be divided this year into five sections of three districts, for the fight against infant mortality, with a nurse in each district.

During 1921, 102 babies died under the age of 2 years—14 per cent of all the deaths during the year.

The play was given under the direction of Miss Ethelyn Lindley, dramatic instructor of the school. Lee Bruce served as manager. John Boehner, a member of the faculty of the school, was in charge of the decorating.

WEST SIDE HOMES ENTERED

Negro Reported To Have Mania for Breaking Into Houses.

The police during the last few days have received many complaints from residents of the west side concerning a negro who appears to have a mania for breaking into houses, but who apparently has no desire to steal. It is believed the man is mentally unbalanced.

I. S. MacFarlane, 927 Western avenue, arose this morning to find the lights burning in his dining room, kitchen and one other room. MacFarlane declares the lights were turned out when the family retired Friday night. On Wednesday night, coming home about 7 o'clock, MacFarlane said he saw the negro sitting on the roof of his house with his feet hanging over. Frightened away by MacFarlane's approach the man clambered down and ran. He had been thru the house, but nothing was missing. Later the same night he is said to have gone thru the home of Albert Fatten, 1023 Western avenue, but nothing was stolen.

The man was also reported as being seen about the home of J. J. Felix, 1197 Fillmore street, Martha Love, 1268 West street, and several other houses in that vicinity. He is described as about five feet eight inches tall, weighs 150 to 160 pounds and is dressed in brown uniforms. Altho the police have responded to several calls they have been unable to catch him.

MORE RURAL HIGH SCHOOLS

About 300 in Operation in Kansas at Present Time.

The rural high school movement in Kansas goes steadily onward, apparently gaining momentum. Reports of several new high school districts organized are received weekly by the Kansas State Teachers' association. F. L. Pinet, secretary of the association, estimates there are now approximately three hundred rural high schools in operation or under organization. This is about one-half of all the high schools in the state.

One of the reasons assigned for the increase of nearly four thousand in total high school enrollment this year is the increasing number of rural high schools.

"Many of these are in more hamlets," said Secretary Pinet, "but the character of work done, equipment, teaching force and morale of these rural high schools is such as will compare most favorably with the larger high school systems of the state."

"Kansas is fortunate in having these rural high schools and the men and women who administer and teach in them are rendering a real service to the communities in which they work."
