Gas Tank 60 Feet Across, 100 Feet High, Explodes Kansas Voters to Decide Who

More Than a Score Injured When Thousands of Feet of Gas Burst Tank, Ignite, and Set Fire to Scores of Houses in Chicago's Labor Residence Section.

Chicago, July 31.—A tank sixty feet in diameter and 100 feet high, containing thousands of cubic feet of gas, blew up at Fifth and Throop streets, a section inhabited mostly by laborers, injured more than a score of persons, set fire to a dozen houses and caused many persons within an area of several blocks to be overcome by the fumes.

The flames were brought under control by the fire department.

The cause of the explosion is unknown. The top of the tank blew off and witnesses said that simultaneously at tremendous sheet of flame shot upwards. Within a few seconds houses were burning and scores of persons were fleeling.

A dock on the Chicago river caught fire and for some time several large lumber yards were threatened.
