There were orders on both sides to not fire, and I went out to post the relief, and saw two rebels go down behind their works and the on us. We dropped into the grass...

Deafness Cured

By No Means Until "ACTINA" Was Discovered. Ninety-five per cent. of all cases of deafness brought to our attention is the result of chronic catarrh of the throat and middle ear. The air passages become clogged by catarrhal deposits, stopping the action of the vibratory boxes. Until these deposits are removed a cure is impossible. The inner ear cannot be reached by probing or spraying hence the inability of aurists or physicians to cure. Ear drums are worse than useless. That there is a scientific cure for deafness and catarrh is demonstrated every day by the use of Actina. The vapor current generated in the Actina passes through the Eustachian tubes into the middle ear, removing the catarrhal obstructions as it passes through the tubes, and loosens up the bones (hammer, anvil and stirrup) in the inner ear, unhooking them, restoring the normal vibration of sound. Actina has never failed to cure ringing noises in the head. We have known people troubled with this distressing symptom for years to be completely cured in only three weeks' use of Actina. Actina also cures asthma, bronchitis, sore throat, weak lungs, colds and influenza, all of which are directly or indirectly due to catarrh. Actina is sent on trial postpaid. Write us about your case. We give advice free, and positive proof of cures. A valuable book—Professor Williams' 100-page Dictionary of Diseases, Free.
