

Arizona Miner.

HOUSEKEEPER'S SOLILOQUY.

I wish I had a dozen pairs of hands this very minute; I'd soon put all the things to rights-- The very dence is in it. Here's a big washing to be done-- One pair of hands to do it-- Sheets, shirts and stockings, coats and pants, How will I ever get through it! Dinner to get for six or more-- No loaf left over from Sunday; And baby cross as he can live-- He's always so on Monday. And there's the cream, 'tis getting sour, And most fortnight be churning; And here's Bob, wants a button on-- Which way shall I be turning? 'Tis time the meat was in the pot, The bread was worked for baking, The clothes were taken from the boil-- O dear! the baby's wailing! Hush, baby dear! there, hush!--sh--sh! I wish he'd sleep a little, Till I could ransack and get some wood, To hurry up that kettle. Oh! dear, oh dear! if P-- comes home, And finds things in this bother, He'll just begin and tell me all About his tidy mother. How nice her kitchen used to be-- Her dinner always ready. Eeetly when the noon bell rang-- Hush, hush! dear little Freddy! And then will come some hasty word, Right out before I'm thinking-- They say that hasty words from wives Set sober men to drinking. Now isn't that a great idea, That men should take to sinning, Because a weary, half sick wife, Can't always amuse 'em winning? When I was young I used to earn My living without trouble-- Had clothes and pocket money too, And hours of leisure dottle. I never dreamed of such a fate, When I--a lass was courted-- Wife, mother, seamstress, cook, housekeeper, chamber maid, laundress, dairy-woman, and scrub generally, doing the work of six, For the sake of being supported!

COME TO ME.

Come to me dearest--I'm lonely and weary; Night time and day time I'm thinking about thee. Night time and day time, in dreams I behold thee-- Unwelcome the hour that ceases to fold thee. Swallows flit round the desolate ruin, Telling of spring and its joys renewing; And thoughts of thy love and its manifold treasure Are circling my heart with a promise of pleasure. Oh Spring of my spirit--Oh May of my bosom, Shine forth in my heart with its glorious blossom. The past of my life has a rose-root within it, And thy fondness alone is the sun shine to win it. Come!--for my heart in thy absence is weary; Haile!--for my spirit is sick'n'd and dreary. Come to the heart that is throbbing to press thee; Come to the arms that will fondly caress thee.

ENTERPRISING SOLDIER.--One of the deserters from Fort Reading, Cal. was captured and returned. The Bloomfield met him in the street, the day after his second desertion and asked him where he was going. Wiping the tobacco juice from his lips, he coolly replied: Going to Washington Territory to re-enlist, draw new blankets and uniform, get first bounty and advance pay, and again desert.

HAPPINESS IS AN UNSEEN THING--a golden dream of pleasure--the great desideratum. Joy is the well-spring of pleasure--a messenger of peace--a precious thing--a hallowed dream.

TRUE PHILOSOPHY.--It is not wealth nor high station which makes a man happy. Many of the most wretched beings on earth have both; but it is a radiant, gloriously sunny spirit, which knows how to bear little trials and enjoy little comforts, and which thus extracts happiness from every surrounding incident of life.

WITH A RESERVATION.--Good old Deacon S. lived and farmed it away down in Eastern Connecticut. It was his custom to go with several of his neighbors, nearly every year, down to the "shore" for a clam bake. The old deacon was very fond of these bivouacs, and on one occasion he ate and overindulged his "capacity" to such an extent that he was sore distressed. His faith in prayer, however was strong. Leaving his party and being followed by some of the younger members a little way off, he was heard to supplicate thus: "Forgive me, O Lord! for this great sin of gluttony, and I will never eat any more clams!" Then pausing an instant, he added, "Very few, if any, Amen!"

Some men use words as riflemen do bullets. They say but little. The few words used go right to the mark. They let you talk, and guide with their eye and face, on and on, till what you say can be answered in a word or two, and then they launch out a sentence, pierce the matter to the quick, and are done. You never know where you stand with them. Your conversation falls into their mind as rivers into a deep chasm, and is lost from sight by its death and darkness. They will sometimes surprise you with a few words, that go to the mark like a gunshot, and then they are silent again, as if they were reloading. Such men are safe counsellors, and true friends, in every case where they profess to be such. To them truth is more valuable than gold, while pretension is to be gained, to deceive them.

A RUGLIER said to another, "I'll twist you round your own neck, and run you down your own throat, until there is nothing left of you but the extreme ends of your shirt collar sticking out of your eyes!" His opponent walked across the Plaza without stopping to notice the improvements.

HIGHLY IMPORTANT TO THE MINING COMMUNITY. Great saving in the cost of reduction machinery.

The attention of the mining corporations, mill men, and mine owners is respectfully urged to examine and carefully investigate the great advantages to be derived from Mr. Gardner's invention, patented under the title of the "THUNDERBOLT CRUSHER." The "Thunderbolt Crusher Company," organized upon the patent of Mr. Gardner, and under the laws of the State of New York. Office 69 Broadway, New York. OFFICERS--President, Hon. Chauncey Vibbard, New York. Vice President and Treasurer, J. H. Fulleton, New York. Secretary, F. G. Wheeler, New York.

The "Thunderbolt Crusher" is constructed upon an entirely new principle, which enables it to crush and pulverize ores and other minerals by a single process, viz: It is provided with two jaws or plates, which, working upon different centers, not only crush, but also attain a maximum of attrition. These jaws are massively constructed, and are furnished with massive plates of chilled iron, which can be easily replaced at small cost. They will admit boulders of fifty pounds weight, and can be graduated to occasion require. This machine is easily driven by an engine of fifteen-horse power, and their lightness, and facility of transportation, render them far more economical than any machinery now in use for reducing the gold and silver ores, and other minerals, ready been executed for well established mining companies, and the company have contracts with responsible machinists to construct without delay, sufficient, it is hoped, for the large demand. Parties desiring to see the crusher in actual operation, can do so by visiting the "Globe Iron Works," in 3rd street, near 14th avenue. Companies desiring machines or further information, will please address any of the officers of the company, at 69 Broadway, or apply personally, at the office of the Superintendent, Mr. F. G. Gardner, No. 12 Pine street, (Room No. 11, up-stairs). This machine supplies, it is believed, the real desideratum for the reduction of quartz rapidly and economically. One machine will reduce to an impalpable powder from 20 to 50 tons of ore per day, with not to exceed 15-horse power. It is of a very durable construction, every part being made capable of sustaining any strain that can be brought to bear upon it. We furnish at present two sizes of machines, numbered respectively Nos. 1 and 2. No. 1 weighs, complete, when finished, 14,000 lbs., or seven tons, occupies a space, when in running order, of five feet in width, by fifteen in length, and will require a 15-horse power engine compared with stamps, requiring the same power, cost, complete in all the appointments, and delivered on the wharf, \$5,500. Orders are respectfully solicited with full instructions. Address either of the officers of the company, at the office, 69 Broadway, New York, or P. G. GARDNER, Superintendent, of No. 12 Pine Street (Room 11, N. Y.
