## FIVE WERE DROWNED.

### A TERRIBLY FATAL KENTUCKY FISHING EXCURSION.

The Net Was Spread for a Hunt of Fish, but a Loss of Human Lives Was the Result—All Were Well Known Citizens.

#### Five Fishermen Drowned.

LOUISVILLE, Ky., July 21.—While sealing in the Tennessee river, near Murray, yesterday, Ed Brown, Walter Strator, John L. Meador, Dick Eaves and John T. Hume were drowned. The party numbered eight. They tied one end of the bank and stretched five feet long, and the other end into the river. Stationed at intervals near the outer end the eight men, with only shoes, hats and coats off, swam with the seine poles toward the floor.

None of them were well acquainted with the river at that point, and they swam into the swift, cold current. Suddenly one was seized with cramps. A panic followed. The seine was dragged and Brown, Brown and Strator became entangled in it. Meador and Eaves were swept under by the current, while the other three succeeded in reaching the bank. All the men drowned were well-known citizens near Murray belonging to old families in the country.

#### Two Accidents at Pittsburg.

PITTSBURG, Pa., July 21.—The temporary trestles of a new Pan Handle railroad bridge across Corks run, six miles below this city, was washed away by a sudden flood shortly before noon to-day and three workmen were drowned.

About the same time an immense landslide came down the hill below Duquesne heights and fell on a Charles street car. The car was crushed in, but none of the passengers were injured. It has been raining hard since 11 o'clock last night and considerable damage by washouts and landslides is reported along the lines of railroads.

#### Lynch Law.

ARKANSAS CITY, Ark., July 21.—At 2 o'clock yesterday morning John Farmer, checker with his wife, was shot by C. C. Buckner, near Dermott, Wednesday night, and who had been bound over to await the action of the grand jury, was taken from the calaboose by an armed mob and hung to a tree. It is understood that before he was hanged Farmer confessed to the crime, giving as his reason that he wanted to marry Callie Marlow, the negro girl who was cooking for Buckner, and that Buckner was in the way.

#### A Minister Mobbed.

SPRINGFIELD, O., July 19.—Last night a mob in sympathy with the saloons visited Rev. Siderman, pastor of the North Ridge church, after he and his wife had retired and homeward the house with bricks, breaking out the windows on the lower portion of the house and otherwise damaging the property. Several of the ruffians landed on the roof, and the reverend gentleman and his wife were awakened by the noise, but on this particular night, very fortunately, as it proved, they had retired to another room.

#### Quay Will Resign.

PITTSBURG, Pa., July 21.—In answer to a telegram sent to him by the corresponding of the Associated Press of this city, concerning the reports published in the morning papers that he would resign the chairmanship of the Republican national executive committee at the coming meeting, the following was received to-night: "It is probable, but not certain, that I will resign the chairmanship of the executive committee on the 29th."

#### Deliberate Murder.

GALLATIN, Mo., July 21.—A dozen or more men, black and white, were playing cards and drinking in a box car last night, when a quarrel broke out between Doc Lawson and Bill Bishop, both whites. Lawson, who carried a revolver, interfered and held Bishop, allowing Lawson to get away. This so enraged Bishop that, upon leaving the car with Brown a few minutes later, he suddenly plunged a large knife into the colored man's abdomen, disemboweling him. Death resulted in a few minutes.

#### Missouri Moonshiners.

ST. LOUIS, July 19.—Deputy United States Marshals Hall and McCone have returned from a nine day's trip in the wilds of Southwest Missouri, where they have been hunting among the bayous, lagoons and canebrakes for moonshiners. As trophies of their success they brought back with them two prisoners by the name of Theo and Thomas Hatton, captured on what is known in that section as Cowskin bayou, located in the lower part of Pemiscot county.

#### The Kansas Exhibit.

TOPEKA, July 21.—While but eighteen counties have sent in their proportion of money for the world's fair exhibit, over seventy counties have organized and reported. The secretary of the agricultural board is in receipt of many fine samples of wheat, oats and such other agricultural products as are ready. The directors feel assured that Kansas will have an exhibit superior to the famous Philadelphia exhibit.

#### Mr. Hinkle's Condition.

BAR HARBOR, July 19.—Secretary Blaine took his drive to-day as usual. Besides driving he walks considerably every day. He has a path upon his own grounds where he covers from one-half to three-quarters of a mile per day. He is constantly improving in health. ## CAMPBELL NOMINATED.

### The Ohio Democratic Convention Selects Cleveland, O., July 16.—James E. Campbell is renominated by the Democrats of Ohio for governor.

The convention was worked by considerable factional feeling and a minority report of the committee on platform was general, however, and when the result was finally announced showing Campbell's nomination there was another repetition of the wild scenes of enthusiasm of the day. The delegates cheered and waved their handkerchiefs and tossed their hats, the band in the gallery struck up "The Campbells are Coming." There was dissent only from the Hamilton county delegation. While others were cheering the Cincinnatians hissed vigorously and refused to be quieted.

The official vote was: Campbell, 508; Neal, 184; Kline, 36, and Congressman Johnson, 1.

#### The Last Act.

##### The Warder Tragedy Recalled by the Judge's Suicide.

NASHVILLE, Tenn., July 18.—At an early hour yesterday morning news was received from Chattanooga that Judge J. Warder, at his summer home on Lookout mountain, had placed a pistol to his right temple and pulled the trigger, inflicting a ghastly wound and the latest reports state that he is dying.

In the early part of last spring Judge Warder entered his home in an irritable condition and for some trivial reason began abusing his family, and he shot at his son-in-law, Mr. Fugett. Fugett returned the shot but was killed by a second bullet from Warder's pistol. Mrs. Fugett also received a slight wound. Warder was shot and for a time it was thought fatally injured but finally recovered.

As a result they have made the extensive distilling plant of Nelson Distilling Company, Tenecher & Co., Schaff, John Bordenheiser and several other well known liquor houses and before to-morrow night, when the raid will cease, a dozen or more firms will have become involved.

#### Haum on Pensions.

CHICAGO, July 18.—A local news bureau quotes Pension Commissioner Haum as talking in this wise to the local pension agent at Chicago: "Affairs have been going altogether too slowly in the pension department," he is put down as saying, "and I am going to hurry through and dump 350,000 original cases upon the various pension agencies of the country before the year is out. There is no sense in letting these cases hang on and I see no reason why, with the big force of clerks at my command, we should not dispose of the cases at once. Then when they are disposed of I can get rid of a lot of clerks I have here; perhaps we can do the work with half the force after we dispose of the original cases."

#### Nine Killed.

CHICAGO & Erie Fast Freight Rona Into a Work Train.

LIMA, O., July 19.—A bad wreck occurred yesterday five miles east of Kenton. Swift's refrigerator meat train east, running special, ran into the work train pulling into a siding, killing nine laborers and injuring many others.

#### Whipped by Whites.

TELLAHAMA, TENN., July 18.—There was a whipping committed here last night about 10 o'clock, though it was done so quietly and by masked parties that it is next to impossible to get any authentic particulars. About the hour mentioned masked men seized Mr. Ed O'Connor, of this place, and took him to a grove in the suburbs of the town, where they whipped him severely with switches. The alleged cause for this outrage is that he mistreated his wife.

#### The Howell Failure.

CHICAGO, July 17.—The work of attaching the property of the S. R. Howell Lumber company at Omaha and Ashland by the First National bank of this city, was completed here yesterday when C. M. Charly, representing the bank, took possession of the property in this city on a claim for \$30,000. The firm's attorney says it can pay dollar for dollar and have a surplus of \$50,000 left.

#### The Cattle Going.

ARKANSAS CITY, Kan., July 18.—Captain Hall reports that all cattle are out of the Strip east of the Rock Island railway. There are still many thousands west of there. The boomers are organizing and will destroy grass and cattle with fire if they are not gone in ten days.

#### Andrew Carnegie Wants an Estate.

GLASGOW, July 17.—The Weekly Citizen of this city, says that Mr. Andrew Carnegie, of York, has been inspecting the sizeable estates at Furraine, Royers and Vergetoy, and that it is believed that it is Mr. Carnegie's intention to settle down as a Highland laird.

## No Grasshopper Plague.

### LAWRENCE, Kas., July 16.—Chancellor Snow, of the state university, to-day received a telegram from the department of agriculture at Washington requesting him to go to Western Kansas and Eastern Colorado and report in reference to the grasshopper invasion.

He left for the West by the first train, and is to be joined on the way by Professor Popenoe and other scientists, and together they will make a thorough investigation of the insects, and the alleged threatened grasshopper raid. Before leaving Chancellor Snow said there should be no fear in Kansas this year from "hoppers." The swarms of them that have been seen in Eastern Colorado and Western Kansas are the genuine "Kansas red legs," but a grasshopper that is found every year upon the prairies of the West, and they can do no perceptible damage.

"The Rocky mountain locust, known to the scientist as *Catantops apertus*, is the pest which we are all so afraid of," said Chancellor, "and the ones that are so plentiful in the West now are the long winged hoppers, the disastera longipennis of the 'biologist.' They can not fly far, and do not alight. I have no doubt but that the stories about their stopping here are true. A few thousands of them upon the prairie, where they always crawl when the nights are cool, would cause the wheels of an engine to slip, and an up grade would stop almost any heavy train."

"The migratory species first mentioned come from the Northwest, and they will not touch our native vegetation in Nebraska, Wyoming and Dakotas falls. If they have plenty to eat, as they have this year, they will remain at home. The long winged hopper likes buffalo grass better than he does corn, and he would not come here if he could, and he can't if he would. No one need be in the least alarmed, for there is no danger."

#### Horror of Horrors.

ARKANSAS CITY, Kan., July 18.—Some weeks ago a dispatch from Fort Smith, Ark., stated that William Westmoreland, John Cagle and John Bird had been brought in from the Indian Territory and imprisoned for the murder of two strangers in the Cherokee Strip about a year ago. A correspondent has been looking up the past history of these prisoners and finds that they are part of the most desperate and villainous gang in the West and that the cabin where they lived is a slaughter pen bloodier and more horrible than the notorious Bender house in Kansas.

A prominent Cherokee official states it is his belief that this gang has murdered and robbed ten or a dozen large camping parties, leaving no one to tell the story of their bloody fate. His son and another Cherokee boy fished a mattress, carpet and camp furniture, covered with blood, far from the Westmoreland cabin and discovered the bodies of two men, one of whom had been burned in a log heap.

#### Both Dead.

CANTON, Mo., July 21.—Last night at 11 o'clock a man and a woman were killed at the corner of Oak and Orner streets, occupied by a Mrs. Smith. Investigation disclosed the dead bodies of a woman and a farmer named Jeff Gilbert lying side by side on the bed. In the head of each were bullet holes telling the story of the death. A little child was sleeping in a crib on the other side of the room. ## A HORRIBLE ACCIDENT.

### A FRESH DISASTER RESULTING IN ELEVEN KILLED.

Man's Wrought in a Railroad Accident Near Liverpool, England—Caused by the Mistake of a Boy of Seventeen.

#### A Horrible Accident.

LIVERPOOL, July 21.—A terrible accident occurred this morning along the line of the Manchester ship canal. A train passing along the railroad running near the canal fell over the latter's embankment near this city, killing eleven men who were working under the heading. In addition to the men killed many other workmen were injured.

The accident along the line of the Manchester ship canal was due to the fact that the pointman, a boy 17 years of age, misunderstood the points and turned a railroad train, consisted of twenty-two wagons loaded with ballast, into a siding into a cutting. The train then crashed into a slight buffer at the end of the cutting and toppled over upon the men at work below the embankment.

#### A Terrible Storm.

WEST SEBASTIAN, Wis., July 18.—In an instant yesterday afternoon, by the giant play of a tornado, half a hundred human beings were caged in a death trap. A number of buildings were ravaged throughout the city, but the extraordinary climax of the storm was enacted in the hotel being constructed. Over two score unfortunate workmen were the victims.

Scarcely five minutes elapsed from a moment when the men, full of energy, were progressing with their tasks till the frightful whirlwind was miles distant in its path of destruction and the poor, begrimed and mangled men in the ill starred hostelry were being brought out of the debris. The damage in the country districts will be almost unprecedented in this section.

#### The Pope's Illness.

##### All Rome is Startled Over the Fact of the Pontiff's Danger.

ROME, July 21.—Rome was no less startled than the rest of the world to learn yesterday that his holiness Pope Leo XIII had on Thursday been seized by a serious illness. The announcement of the fact, late as it was, came unaccompanied by any particulars as to the nature of the malady which had so suddenly prostrated the holy father. All that is known is the fact that the illness of the aged pontiff was of such a nature as to cause a panic in the city, and that he was in hot haste for Dr. Caracelli, the distinguished Italian specialist.
