**NEW TRIBUNE QUARTERS.**

**New Location, New Presses, Types and Motor Power.**

THE HILO TRIBUNE has moved from the building on Bridge street, occupied by its plant and offices for a number of years to its own building on King street opposite the Police Station.

THE TRIBUNE building is two stories, 40x40 feet. The ground floor is divided into Press and Composing rooms, offices for THE TRIBUNE and two other offices. The work room is 40x40 feet and well lighted. It gives ample room for THE TRIBUNE'S mechanical equipment, to which has been recently made extensive additions. THE TRIBUNE press is a two-revolution Campbell, purchased for the immediate needs of the paper as well as with a view to being ready for the requirements of the growing city of Hilo. This press is capable of running 1800 or 2000 impressions an hour, either in newspaper or job work. A new job press has also been installed which with the machines already in place gives THE TRIBUNE an equipment sufficient to handle all the printing on this island. The presses are driven by an electric motor.

While speaking of equipment and new stuff it is in order to mention that a great variety of the latest and most useful job faces in type have been added, which with a complete line of the best paper stock fits THE TRIBUNE work rooms for filling the demands of any customer.

The editorial and business offices of THE TRIBUNE front on King street and it is needless to assure the patrons and friends of the paper that the latch string is out to everybody, without exception or reservation.

The upper story of THE TRIBUNE building is now fitted up as hall. As the city of Hilo grows and as the merchants and business men from all parts of the island of Hawaii learn that in this establishment they can get what they want in printing, as well as at Honolulu or San Francisco, THE TRIBUNE plant will be enlarged and if necessary the entire building will be occupied for printing and publishing purposes.

Remember, TRIBUNE, King street.

**FARMERS INSTITUTES.**

**Conference of Committees Held Last Monday.**

Messrs. N. Russell and J. T. Ryan of Mountain View were in the city Monday and while here held a conference with Messrs. Shaw and Furneaux on the matter of Farmers' Institutes at this place and at Olaa. After canvassing the subject, it was decided to have but one organization for the two districts. Meetings will be held only at Mountain View. These will occur the last Saturday of each month in the school house at Mountain View. The subjects for the next session are "The Cultivation of Bananas" and "The Potato Blight."

The farmers of Olaa extend a cordial invitation to the people of Hawaii to attend the meetings.

**Porto Rico Wants Lowrie.**

W. J. Lowrie, former manager of Ewa and Spreckelsville plantations, is, if reports to the effect are true, now in Porto Rico looking into an offer which was recently made and which was the cause of his departure for New York some three months ago. It is understood on good authority that Mr. Lowrie received from a plantation in Porto Rico an offer of \$20,000 a year to undertake the management of a vast estate. He went immediately upon the receipt of the letter containing the offer.

The balloon ascensions as conducted by Prof. Leonard never fail to furnish excitement. The presence of a Santos Dumont at the race track Saturday, May 10, will attract a big crowd not only of Hiloites but of people from the country as well.

The police complain of the presence of two or three Chinese things in the city who are causing trouble with the informers here. Several assaults have been made which, it is said grew out of the gambling cases.

A local devotee of the ring has issued a challenge to all comers in the Territory of Hawaii to meet him in Hilo in a six round sparring contest for points. There are some good men in Honolulu whose scalps would make fine decorations for the belt of the Hilo champion.

**INJURED IN RUNAWAY.**

**Mr. and Mrs. Ray Have an Experience with a Mean Horse.**

J. E. Ray was injured in a runaway last Wednesday requiring him to be sent to the hospital. With Mrs. Ray he was out driving. They had called at a residence on school street. On entering the carriage the horse became unmanageable and broke away. Mrs. Ray was already seated. Mr. Ray, who had his foot on the step was thrown to the ground and dragged quite a distance. He held on to the lines as long as possible, but lost his grip when he was hurled against a cement pavement. He was severely bruised and had one finger broken.

When the horse left Mr. Ray by the roadside, Mrs. Ray was in a serious predicament. She was in the carriage seat alone with the lines dragging under the buggy. The horse whirled into Waialeale street on the run. Mrs. Ray took in the situation and realized that something must be done. She acted accordingly. She leaned out over the dashboard, picked up one line and then gave the frightened horse a sample of her muscle. The lines fortunately were buckled together. She manipulated them quickly and brought the runaway to an end.

**Hilo Teachers Meet.**

The room at the Union School was crowded to overflowing last Tuesday evening at the bimonthly meeting of the Teachers' Union. The program was very interesting. A paper on current events was read by Harold J. Cruzan, which was followed by an article on Francis Parker, read by Miss Severance. Miss Coon then took charge, having as her topic the Age of Pericles. She was assisted by Mrs. Shoemaker, Miss Pierce, and Miss Thomas, who read papers on the Peloponnesian War respectively. Miss Carrie Potter then took up Greek art, being assisted by Miss Esther Lyman. Mrs. Luther Sovereign had as her subject Greek Sculpture, taking as her model Apollo. Mrs. J. A. Cruzan, who assisted her, participated on Laocoon. The next meeting will be the last of the year.

**Balloon Ascension at Park.**

John Leonard, a world famed aeronaut has made arrangements with Geo. S. McKenzie to make a balloon ascension at Hoolulu Park Saturday afternoon, May 10. Prof. Leonard made a successful ascension at Honolulu last week. He has been in the business for nineteen years and is the son of an aeronaut who followed the perilous business for more than forty years. Mr. Leonard has just come out of Alaska where he spent three years. In an ascension at Cape Nome, he landed three-quarters of a mile in the Behring Sea but was picked up without any damage. He has just gained the title "Prince of the Air." While in Hilo he may also make a night ascension. In addition to the balloon ascension Saturday next, there will be horse racing and possibly a polo game.

**Church Social.**

The social at the First Foreign Church last Friday night was an artistic success. The company was received in the church parlors. A curtain had been drawn across the stage and an interesting series of tableaux were presented. The scenes were taken from Tennyson. Scenes from Lully were enacted by Mrs. Baldwin and J. Castle Ridgway. J. C. Ridgway, Harold Cruzan, Miss Porter and other gave a series of scenes from Enoch Arden which won applause. Mrs. Cruzan sang Tennyson ballads. Mr. Prouty sang and was encored heartily. Little Miss Mumby gracefully recited a selection from Tennyson. After the program delightful refreshments were served.

**S. S. Excursion.**

What a delightful trip is that which can be made every Thursday and Sunday to Puna by the Hilo Railroad. **HILLO'S MAY GERMAN.**

**May Queen to be Chosen Tonight at Spreckels' Hall.**

The May Day german to be given tonight by the Cotillion Club promises to be in line with the usual success of that social organization. Originally, the selection of a leader was in the hands of Mrs. Walker, but owing to the illness of one of her children she could not give the matter her attention. The arrangements therefore have fallen to a number of committees, the members of which have been working to produce a brilliant entertainment.

Among the features of the evening will be the selection of a May Queen in some manner, unique and original, to be made known this evening. The favors will be entirely of flowers which have been made under the direction Mrs. Gurney. The german will be a departure in many ways from those previously given. The program does not begin with cotillion figures but starts off with the usual dances. The figures come in the middle of the program and will be led by different couples.

The refreshments will be along the lines of excellence hitherto established by the club.

**McBRYDE BONDS.**

**Authorization for a \$2,000,000 Issue is Made.**

A largely attended special meeting of the McBryde Sugar Co., was held in Honolulu last Friday. The business was to consider and vote on a proposition to increase the bonded indebtedness of the company and to bond the property and assets of said company for that purpose, and to determine by vote any and all questions necessary or proper to effectuate the said proposition or incident thereto. The resolution covering the question of a new bond issue was then introduced. It authorizes the issuance of a \$2,000,000 bond issue, \$750,000 of which is to be reserved to pay off the original bond issue of that amount. The directors reserve the right to defer the payment of the original bond issue but they must always reserve the \$750,000 by way of a margin.
