### WATER FRONT R. B. PLANS.

**Hilo Railroad May Use Electricity for Uptown Passenger Service.**  
G. P. Dennison, who has been in the city the past three months as acting superintendent of the Hilo Railway during the absence of W. H. Lambert, returns to Honolulu today. He was called back to the Oahu railway before the arrival of Mr. Lambert, because of the contemplated departure to the Mainland of Mr. Smith.  
Mr. Dennison will take with him to Honolulu plans and data showing the expediency of running electric passenger cars from Waiakea to the city depot over the city extension of the Hilo Railroad, work on which will soon begin. Mr. Dennison believes in the practicability of the plan and it is understood that Messrs. Dillingham and Paxton, both are favorable to it. If the plans submitted by Mr. Dennison are approved the passenger traffic along the water front of Hilo will be by trolley car. The same track will be used for the freight business which will in no way interfere with the passenger service. If the plan is approved it is Mr. Dennison's idea to procure the electric power from the Hilo Electric Light Company.

If this warm weather still continues, you will need to have quite an assortment in your Ice Chest, and among the principals, there should be some nice cool beer. We have the beer and your Ice Chest will do the cooling for you.—W. C. PEACOCK & CO.  
Ten dollars will buy a ticket which entitles you to a trip by railroad and stage to and from the Volcano, board and lodging at the Volcano House from Saturday dinner to Monday breakfast, inclusive and a trip with the guide to the crater. Train leaves Waiakea at half past three Saturday afternoon.

### CUPID'S TRIUMPHAL TOUR.

**Republican Candidate Receives an Ovation From His People.**  
The campaign tour made on this island the past week by Prince Cupid, the Republican nominee for Delegate to Congress, has been attended by crowds all along the line.  
After the big mass meeting in Hilo last week, the Prince accompanied by S. L. Desha and Archie Mahaula made a trip to Hamakua and Kohala. At Mahukona they met Kalaokalani and his Home Rule friends, who tried to hold rival meetings without success. The Hawaiians refused to listen to Home Rule talk which they describe as "nonsense." Chairman Holstein was present and when he proposed three cheers for the Prince, the response was enthusiastic. The party then proceeded to Kohala where they held two good meetings. At Niuhili a Home Rule stronghold, the Wilcox sympathizers made a disorderly attempt to break up the meeting. The crowd hissed the Prince. The Hawaiian women were especially indignant with the disturbances.

A fine meeting was held at the Kohala Court House. At this place two leading Home Rulers came out for Prince Cupid and made strong speeches in his behalf. At Waimea Senator J. D. Paris joined the party and one of the best public meetings of the year was held. All present except two men pledged their hearty support for the Republican ticket. Prince Cupid was greatly pleased and feels confident of success.  
At Kukuihaele the party found a Home Rule meeting in progress. This broke up as soon as Prince Cupid arrived and the people flocked to hear him speak. All along the line wherever a group of Hawaiians could be found, the Republican leader made short speeches.  
At Lanipohohoe the school house was packed. The Home Rulers have been diligently circulating the report that the Queen is hostile to the candidacy of Cupid. In his speeches he has set them right on this point.  
Wednesday night a successful meeting was held at Waiakea, and yesterday Puna heard from the Prince.  
After completing the tour of Kona, the Prince will go to Maui. He will probably be accompanied by S. L. Desha.

### TEACHERS' READING CIRCLE.

**First Meeting of the Year is Interesting and Well Attended.**  
The first teachers' meeting of the year was held last Tuesday evening at the Union School. There were a number of new faces present and the program presented was up to the standard of last year in merit. Miss Lyman and Potter handled "Current Events." Miss Lyman discussed the cable news. Miss Potter reviewed the events in England in connection with the coronation of King Edward.  
Roman history was the general subject for the evening. Those who spoke on this subject were Miss J. Deyo, Mrs. Severance and Dr. F. Wetmore. The study of Rome will last through the year and will be taken up under five heads: Regal Rome; Republican Rome; The Empire; Medieval Rome; and Modern Italy.  
Several interesting papers were read describing the Roman Walls, Mamertine Prison, Etruscan Art, Temples, Amphitheaters, Tombs, etc. The next meeting will be held October 7th. Miss Josephine Deyo presided at the meeting and Rev. Mr. Baptiste was made Secretary.

### Dock Material Here.

The material for the Hilo Dock has arrived. The material received consists of 750,000 feet of lumber and 12,000 piles. The stuff came this week from Washington ports consigned to the Hilo Mercantile Co., and is now being landed at the site of the big dock. The copper sheathing for the piling will probably arrive by the next Enterprise after which the work of construction will begin at once. The pile drivers are on the spot ready to send the sticks into place.  
Mr. Amweg, who has the contract for constructing the wharf is at San Francisco, but will be here to see that the work goes ahead rapidly as soon as all the material is in readiness.

### Claudine Passenger List.

The following passengers arrived by the Claudine Wednesday evening: Theo. Wolff, W. H. Battello, T. Kienhardt, Mrs. Baddaly, M. O'Dowda, E. P. Maby, Mrs. Walberg and children, A. J. Correa, I. Wilseke, Miss King, S. Babcock, Miss Stevens, W. Pullar and wife.

### HILO'S OPPORTUNITY.

**Possibility of Locating Paper Mill Here Using Bagasse.**  
S. M. Mayer, of Seattle, who has been in the city the past week investigating the supply of bagasse available for his proposed paper factory, states that he is well pleased with the prospect in Hilo and vicinity. He likes the climate here better than anywhere else on the Islands and on that ground would prefer to locate his paper mill here if his further investigation in other lines terminate satisfactorily. Mr. Mayer, as was stated in last week's TRIBUNE, represents the American Talc-Asbestos Co., of Seattle, a concern with solid financial backing and with immense ledges of talc to draw upon. These talc ledges are in Skagit County, Washington and are among the most famous in the world.  
The primary reason for the company's investigation of the possibilities of paper making in Hawaii, is that a paper mill here would give a good outlet for talc. In the glazed papers and cardboards, a large proportion of talc is used for surfacing. It is also figured in the scheme, that paper manufactured from bagasse can be shipped around the Horn to New York and successfully compete with the eastern mills.  
Mr. Mayer has had talks with the managers of several of the plantations here and feels very much encouraged. He proposes to pay a price for the bagasse that will enable mills using it for fuel to burn oil or coal instead and make money by the change.  
To warrant the erection of a paper mill, Mr. Mayer says there must be from forty to sixty thousand tons of bagasse available the first year. To erect mills to handle such a quantity would require an outlay of \$1,500,000 to \$2,000,000, and when running would employ from 250 to 500 hands. The labor required in the paper factory is not of a character that would draw from the plantation supply.  
Mr. Mayer estimates that this island produces 130,000 tons of bagasse annually. He believes a paper factory in Hilo could handle bagasse from the plantations on the other side of the island. The product of those plantations would have to be reduced by concentration before shipment.  
If Mr. Mayer succeeds in securing a sufficient quantity of bagasse to warrant the erection of a mill, he believes work may be started within six months after his plans have been approved by the Seattle Board of Directors. So far as he has interviewed the business men of Hilo, Mr. Mayer states that he has found the best of encouragement and a willingness to cooperate in any way possible.  
If an mature investigation Mr. Mayer finds it feasible to manufacture paper from bagasse, here is an opportunity for Hilo to make a great step forward. If there is a paper mill in the Islands it must be located here.

### STILL TO WESTWARD.

**Old Californian Gold Miner on His Way to Mines of Luzon.**  
John McCafferty, Mining Engineer, arrived in Hilo by the Claudine last week. He is on his way to the Philippines to explore the gold fields of Luzon with which he is already familiar, having spent some months there before the battle of Manila. Mr. McCafferty is lately from the Nome country and before going to the hot climate of the Philippines he will spend a few months in the semi-tropical climate of Hawaii.  
The mining experience of Mr. McCafferty would fill a volume. He is an old time Californian and has explored the gold bearing mountains from the Isthmus of Panama to the Behring sea. He has managed mines in South America and once made a fortune in Mexico. He did well in the Klondike and broke even in Nome. Mr. McCafferty says the Philippines will furnish the world with its next gold stampede. Before the insurrection of Aguinaldo, he had bonded a very rich tract of gold bearing land in the mountains of Luzon 150 miles from Manila. Under the administration of Otis he had to give up his holdings. Now that peace is in sight, he proposes to return and make yet another fortune to round out his career. He speaks the Spanish language with fluency and has connections with some of the wealthiest native and Spanish families in Manila.

### The Social Side.

While the Senatorial Commission was in Hilo it was too busy at work to permit of the members enjoying any great degree of social diversion. They were not allowed to go away, however, without a taste of social hospitality. At Mr. Peck's home where Senators Thurston and Foster, were entertained, a luncheon was served Friday at which a number of Hilo people sat at the board with the Senators. At C. C. Kennedy's home at Waiakea, Senator Burton and Mr. DeKnight had the pleasure of meeting various Hilo citizens in a social way. Saturday evening Mr. and Mrs. Rieley who entertained Senator Mitchell gave a dinner to the members of the Commission. The guests were Senator Mitchell, Senator Foster, Judge Little, Mr. and Mrs. Robinson, Mr. and Mrs. C. A. Stobie and Mr. Blanco.
