SUGAR.

New York, September 26.—Raw, firm; Fair refining, 3c; centrifugal, 96 test, 3 1/2c; Molasses Sugar, 2 1/2c; Refined, firm.

A NEGLIGENT ROAD BOARD.

The Road Board seems to have gone to sleep. The contract for the improvement of Waiannuene street is being carried out by the Department of Public Works. A journey through other streets indicates that the Road Board is merely "standing round" with the energy of others as a pretext. Front street is full of bumps and holes and the longer it remains un-repaired the worse it becomes and the greater will be the cost to fix it up. In Puueo the chuck holes are just as numerous and broken vehicles are a common experience of those who for the moment imagine they are driving or hauling on safe roads.

The people of Hilo and Waiakea and Wainaku pay enough poll tax annually to keep roads and streets in a high state of repair. The fact that they are so rough and cut up is tolerably good proof that the Road Board is neglecting its business.

Wednesday and yesterday the teams of the Volcano Stables Company were employed by public spirited private citizens to haul gravel and make Front street passable for loaded wagons and to enable light rigs to be driven in a trot without breaking an axle. When the people grow so tired waiting for public officials to perform their duties that they jump in and do the work themselves, at their own expense, it would seem that excuse for the officials would be hard to find.

What is the Road Board doing? What has it done and where does it keep itself?

SUGAR CIRCLES PLEASED.

In Honolulu the news of renewed activity in Hawaiian sugar stocks at San Francisco created a cheerful feeling. Broker Harry Armitage said to the Evening Bulletin: "I have received cheering letters from Mr. Pollitz and Sutro Co. The former briefly mentions the European advices and the sudden demand for Hawaiian stocks thereby created."

Sutro & Co. state that the day the last steamer sailed they received a special wire saying that, owing to a shortage of the French beet crop, sugar in 1903 will be one million tons short, and they add: "Specialists figure that the raw article ought to sell at between 4 and 4 1/2 cents a pound."

"When the news became general there was an old-time scramble for sugar stocks, and the list we are mailing you show how high they have sold. The advance, we are sorry to state, have not been maintained, some brokers anxious to make sales advising their clients to sell."

"The fact of a shortage remains and the benefit will be felt next season. Stocks are now low and purchasers will make handsome profits by waiting a reasonable time."

SECRETARY H. E. COOPER has been made Acting Superintendent of Public Works. He has appointed Clarence M. White chief clerk temporarily.

OUR NEW DIPLOMACY!

When Secretary Hay submitted a note to the European powers asking for concerted action relative to the oppression of the Roumanian Jews, the United States took an important step in her new program of world diplomacy which began with the war for the liberation of Cuba. American initiative with respect to the alleviation of oppressed and helpless people in the heart of Europe is a long stride from the spirit of Cleveland's no less patriotic administration, in which he so signally stopped British aggression in South America. Cleveland made the Monroe Doctrine a literal rule of action in the narrower material sense that was in the mind of the statesman who promulgated it.

The new era in American diplomacy which promises to be the crowning glory of American civilization, and the most conspicuous characteristic of our Twentieth Century era, has for its keynote, humanity. In whatever corner of the world may be found a people deprived of the natural rights of property and the pursuit of happiness, America is now in a position to lift up her voice in their behalf. Her good faith toward the people of Cuba and toward the world stamps her motive unselfish whenever she may proclaim it such. The Monroe Doctrine ostensibly applied does not mean that America may not make diplomatic intercession in the cause of distressed humanity in any part of the earth. The distinctive element in such intercession now, is that it will command the attention, respect and consideration, if not the cooperation, of the powers.

HAWAIIAN STOCKS IMPROVING.

SAN FRANCISCO, Sept., 25.—The stronger tone in the price of raw sugar has brought about greater interest in Hawaiian sugar stocks. Prices have advanced and trading in these stocks has taken a turn for the good. The closing quotations yesterday were as follows:

Hana Plan	3 3/4	3 3/8
Haw. Com	34	35
Honokaa	12 3/4	
Hutch S. P.	13 3/4	14 1/4
Kilauea	6	7
Makaweli	21	23 1/2
Onomea	21 1/4	23
Paauhau	13	13 1/2

Sales—30 Haw Com, \$34.50; 200 Hutch S. P., 14.25; 20 Makaweli, 23.50; 55 Honokaa, 14; 500 do 13.50; 50 do, 13.25; 50 do, 13; 50 do 12.87 1/2; do 13; 40 Haw Com, 35; 10 do 34.25; 20 Paauhau, 14.50; 50 do 14.37 1/2; 60 do 14.25. Afternoon sales—75 Honokaa, 13; 50 Hutch S. P., 14.25; 50 Paauhau, 14; 115 do, 13.50.

The tariff is looming up again as a disturbing factor in the harmonious ranks of the Republican party. In Iowa, a plank looking toward the reduction of duties caused Speaker Henderson to decline to stand for reelection. In New York the protectionists stand pat. The bearing of the tariff upon trust problems will be a bone of contention likely to give the Democrats a better showing in the next Congress.

The latest mails from the coast brought no letters from Superintendent of Public Works J. H. Boyd. Mr. Boyd was expected to arrive in Honolulu himself. His failure to return is explained partially, by the fact that the late Treasurer Mr. Wright was asked by Governor Dole to write to Boyd requesting his return. Evidently Mr. Wright was too busy to get the letter off.

WITH a cable ship in port at Honolulu carrying several thousand miles of wire for the Canadian-Australian line, and the Hawaiian-American rope on its way around the Horn, the Pacific ocean is in a fair way to realize the dreams of Cyrus W. Field.

Knights of Pythias.

The Knights of Pythias Saturday evening open house last week was a second testimonial to the good planning of the leaders in that order. Many visitors came and went during the evening. Tables for cards, ping pong and billiards were patronized by the guests. These K. of P. parties will be given once a month.

CITIZENS REPAIR STREETS.

Wretched Condition of City Thoroughfares Compels People to Act.

Mr. Wright of the Volcano Stables has received an order from a committee of citizens to put teams to work hauling gravel to repair the chucks on Front street. One team began hauling yesterday and today three or four more will be added. Work was commenced near the junction of Ponoahawai where the street is in an abominable condition. The street throughout its whole length has been in need of attention for several months. Now it is next to impossible to drive a light rig in a fast trot and remain in the buggy. The numerous holes make heavy draying a very troublesome business and the patience of the public has reached the breaking point. When Front street has been repaired at private expense, it is the intention of the Citizens' Improvement League to continue the good work in Puueo. The fact that this necessary work must be done by private subscription is sufficient commentary on the energy and wisdom of the Hilo road board.
