WATT LEAVES HONOKAA.

Career in Hamakua Creditable to Himself and Profitable to Employers.

John Watt, the well known manager of Honokaa, leaves this district in a few days, having severed his connection with the Honokaa Sugar Co., whose manager he has been for the past thirteen years.
Mr. Watt came to Hamakua about fifteen years ago as head overseer of the Paauhau plantation. Noting his energy and success while holding this position, the owners of the Honokaa Sugar Co. offered him the management of their property, which he accepted.
The crop he found ready to harvest yielded 1700 tons of sugar, under his careful and energetic administration the crop increased in four years to 10,000 tons, with increased areas, mill improvements, railroad building, perfecting the water supply and flaming system, called for energy and ability of no mediocre type.
In latter times the labor problem had to be met. This he ably did, his company suffering perhaps, the least of any in this district from this cause.
He can look back at his many years of hard work with great satisfaction, as it is a well known fact that this company has made large earnings during his term of management.
We who have worked with him on public and district matters regret that we shall not have his sturdy common sense to aid us in our future deliberations.

Over a Score of Gamblers.

Deputy Sheriff Overend with the assistance of four other officers made a raid on an outfit of Chinese gamblers at Pepeekeo last Sunday morning, resulting in the capture of twenty-eight. These were brought to Hilo and Monday morning the major portion of them forfeited bail. The police had spotted two or three professional gamblers who make Hilo their headquarters and make incursions into plantation territory every pay day. It was discovered that Pepeekeo was their rendezvous last Sunday. Accordingly Overend and his men started out a little after midnight Sunday morning. They camped in a cane field and stalked the gamblers. After waiting in the rain until nearly noon Sunday, they were able to effect the wholesale capture. The officers who aided in the capture were Dan Kaiheuni, Lieut. Warren and Mahi.

Fourth of July Meeting.

By order of the Chairman of the Fourth of July Executive Committee of last year, a meeting is called at Fireman's hall tonight (Friday) to make preliminary arrangements for celebrating the Fourth of July this year. The special purpose of the meeting is to canvass the proposition of having a fire works display of adequate proportions. The meeting is called for 7:30 sharp. All business men are especially invited.

BREAK GROUND JULY 4.

Nothing But Adverse Legislation Will Defeat Hilo-Kohala.

P. Peck returned Wednesday by the Kinua from Honolulu. In Honolulu he was in conference with various people in the interest of the Hilo-Kohala railroad. Mr. Peck said to a TRIBUNE representative: "Our matters are now in good shape and unless unforeseen obstacles arise in the form of unfriendly legislation by the Legislature, we shall be able to break ground on July 4th. We hope to be able to give the celebration of Independence Day an extraordinary meaning for the people of Hilo."

The Electric Bill in the Legislature disarranged our plans to some extent and delayed the consummation of a portion of our plans. But this difficulty has now disappeared and with the expenditure of a few extra weeks we figure that all will end for the good of Hilo.

"I might say, however, that another possible obstacle has shown its head in the Legislature. I do not know whether it originated with persons hostile to the Hilo-Kohala railroad or not, but it means the success of our negotiations. I refer to Senate bill No. 155, introduced by Senator Cecil Brown. It is entitled 'An Act Relating to the Construction and Operation of Railways and Amending 'An Act to Promote the Construction of Railways,' being chapter 29 of the laws of 1878. Cecil Brown's bill will make it practically impossible for any railroad company to secure right of way through the lands of a plantation, in case the stockholders or management of the plantation happen to be hostile to the road."

"If this bill passes it will probably delay indefinitely the building of the road. 'Yet in the face of this proposed adverse legislation, we see our way to break ground by July 4, and nothing will be left undone within our power to bring this about.'"

SHERIFF ANDREWS AT KAU.

Makes Raids and Does Out Justice Generally.

Naalehu, Kau, March 31.—Sheriff Andrews made our district a visit during the past week and with one fell swoop arrested five parties for selling spirituous liquors without a license. The cases were tried before District Magistrate L. S. Thompson, C. Creighton defending. The consequences up to date are that Sheriff Andrews got one conviction to his credit. On the other hand, his boss spy, a "Mr. Johnson," was arrested for assault with dangerous weapon on a Japanese woman while making an arrest, and committed for trial to the jury.

Mr. Andrews refused to receive a good bail bond for the parties arrested, saying that the "bond was not worded right." The parties were held in jail till cash bail was deposited. In consequence of this, Mr. Andrews will answer in four cases of false imprisonment. If he had used half the diligence in the late murder cases that he did in these misdemeanors, the result in the former would have been more to his credit.

CONCERNING TYPE.

Why the Tribune Has Procured Only the Best Faces.

The TRIBUNE has just added to its already excellent equipment, several series of the latest type faces fresh from the foundries in the East. We have made our selections with an eye to the production of a little finer stationery and a little higher class commercial printing than is usually done in Island print shops. We are prepared to do printing with character to it. A customer of fine taste is the most welcome kind of a caller at the TRIBUNE Office. We prefer the particular people over those who say to the printer "any old thing will do." This is the reason we have been so particular in buying only the highest priced and most elegant type faces. It will do you good to have your job done in clean number one style—fit to be shown along side the products of the best metropolitan print shops in America.

Kailua Court Notes.

The Grand Jury at Kailua reported "no bills" in the case of P. K. Bipe, charged with killing cattle and J. Johnson, charged with assault and battery with a dangerous weapon.

Indictments were found against Fred Gouvea of South Kona, charged with larceny in the second degree; Nishomora charged with assault and battery with a deadly weapon; Motana and Tanagushi charged with kidnaping.

J. W. Kalua Malo and two others charged with larceny in the second degree, pleaded guilty and were sentenced to one year's imprisonment.

The Spreckels-Brown case came on for hearing Tuesday. The witnesses examined by Wednesday night were A. B. Loebenstein, Geo. Beckley and E. D. Baldwin. Their testimony related solely to boundary matters.

McKENZIE REMEMBERED.

Employees of Stables Present Him With Fine Gold Watch.

An incident very complementary to Geo. S. McKenzie occurred at the Court House last evening when Judge Little, on behalf of the employees of the Volcano Stables and Transportation Co., presented him with a fine gold watch. Mr. McKenzie was invited to go up to the Judge's Chambers, where he was astonished to find a big crowd of his friends and former co-workers. Judge Little let the cat out of the bag with the following words:

"Mr. McKenzie: 'The employees of the Volcano Stables and Transportation Co., until recently under your most efficient management, have requested me to inform you of the friendly and pleasant purposes of this meeting here this evening. They request me to offer you in their name a small token of their confidence and esteem, in which every worthy citizen of this Territory who has had the pleasure of meeting you, most heartily joins.'"

"They request your acceptance of this gold watch as a memento of their appreciation of the kindness, 'the immediate jewel' of a noble and generous heart, which you have always displayed to all of them. It represents feelings far deeper and sentiments far purer, than the gold in the cases which enclose it. Let it ever remind you of the high esteem in which the givers hold your character, not only as a firm, fearless and generous superior officer, but as a splendid American citizen as well."

"Let me assure you that this small remembrance is a spontaneous offering of genuine friendship from my fellow-subordinates. As a friend let me say that we are all extremely sorry you are preparing to leave us, for good. Americans are always welcome in Hilo. But in whatever pursuit you may hereafter engage, all your friends most heartily wish you success, which we all well know you deserve. And in the conscientious discharge of other new and responsible duties, may your future course be as free from all disagreeable incidents as your intercourse with the employees of the Volcano Stables and Transportation Co. has been since you assumed the responsibilities which now devolve, by your resignation, upon a competent and worthy successor."

The watch is one of the best stop watches made and cost the donors something like \$250.
