HOME RULE PLATFORM.

Principles Adopted at Meeting at Honolulu.

Following is the platform adopted by the Home Rule party today:

1. The Home Rulers of the Territory of Hawaii in convention assembled renew their allegiance to the principles of their party and congratulate the people of the Territory of Hawaii that through the efforts of this party and its settled, persistent and determined opposition to those who would establish in this Territory a rule of corporate and class wealth the people are at last assured a small measure of Home Rule. The seed is planted; the wedge has entered and this party and its supporters will not rest contented until it shall have rendered American institutions, just, equal and beneficent—the safeguard of liberty and the embodiment of the best thought and highest purposes of patriotic citizens—a reality in the Territory of Hawaii.

2. We denounce the present Territorial Administration as selfish, biased, corrupt, wasteful, extravagant and vicious, bent upon perpetuating its own power and control of public affairs, unmindful of the wishes of the people whose servants they are, and defiant of the Constitution and laws which they have solemnly sworn to maintain. We charge them with appointing to high official positions carrying exorbitant salaries, pliable inexperienced and incompetent persons: with parceling out the public domain in princely tracts to favored individuals, with the intent that the same be held in trust for great corporations, in flagrant violation of the letter and spirit of the Organic Act: with using the public funds with which to defray the expenses of its emissaries and lobbyists to and at Washington for the purpose of preserving the Statu quo of the Oligarchy, concealing its frauds and disappointing the wishes and aspirations of the great mass of the people of this Territory. And we call attention to the fact that the acts as well as the policy of the present Territorial administration was roundly condemned in toto by the three Republican United States Senators who recently visited Hawaii as a Sub-Committee of the United States Senate, and made a detailed and exhaustive investigation of all of its conditions, to-wit, Hon. John H. Mitchell of Oregon, Hon. Addison G. Foster of Washington, Hon. Jos. R. Burton of Kansas.

3. We appeal to the conscience and manhood of the voters of this Territory to join us in our efforts to effectually restrict the power of an administration which is dishonored at home, and discredited abroad, and which possesses neither aim nor end other than its own aggrandizement. And we cordially invite all citizens without reference to race, creed or class to unite with us so that we may have in this Territory a government of laws and not of men, a government of equal rights, opportunities and privileges under which the voice of the humble citizen may be heard and respected.

4. We declare ourselves in favor of the most liberal forms of county and municipal government and we solemnly pledge ourselves to omit no endeavor to secure those forms of government which are "just and equitable with the American," and regarded as a part of his birth right.

5. We declare ourselves in favor of the repeal of the law which requires the Chief Justice of the Supreme Court to make a biennial report to the Legislature, which law affords that official a pretext for intermeddling in politics and matters of legislation entirely beyond the scope of a proper report.

6. We condemn the passage of a law by the last Legislature authorizing two or more corporations to form co-partnerships, and we charge that said law was devised for the purpose of enabling corporations to evade that just and sensible prohibition in the Organic Act against the holding of more than one thousand acres of land by a corporation: and we charge further that said law is directly contrary to the laws of Congress and opposed to the policy of enlightened states, as witnessed

by recent and almost universal legislation aimed at corporate association and combination. And we call upon the Congress of the United States to immediately repeal said law.

7. We denounce the appropriations made by the Legislature for the pay of public officials and for other purposes as extravagant and wasteful to the point of recklessness, wholly out of proportion to the value of the services which said officials are called upon to perform, finding no warrant in the almost bankrupt condition of this Territory and not justified by the necessities of the situation. And for the same reason we denounce the passage of the so-called "Loan Bill" and we do hereby beseech the President of the United States to make a careful and critical investigation of the necessity for such a bill before giving his approval to any of the bonds which it is proposed to issue thereunder.

8. We denounce the attempt that is being made by the supporters of existing conditions in this Territory to raise race issues, and we charge that such attempt is being made for the sole purpose of misleading the people of the United States and of creating a sentiment abroad prejudicial to the Hawaiian people. The entire history of the Hawaiian race for more than half a century affords abundant testimony of the fact that the Hawaiians desire to live upon terms of friendship, justice and equity with all people who come among them, and that strangers are hospitably received and given opportunities in public as well as private life, commensurate with their deserts.

9. We declare ourselves in favor of the immediate extension by the Congress of the United States of the American system of public land laws to the Territory of Hawaii, firmly believing that in such extensions lies our only hope of preventing the public domain from falling into the hands of great corporations and a few favored individuals.

We proclaim our loyalty to the principles of American government and to the citizenship which we enjoy, and inspired by the sense of chivalry, manhood and independence which has ever characterized that citizenship, we send our affectionate greetings to our former Sovereign, Her Majesty Liliuokalani and assure her of our unabated love, confidence and respect.

BLUEFIELD BANANAS.

Cuttings Will be Imported to Hawaii by Government.

The new Agricultural Board at Honolulu has taken some steps in the right direction. The following from the report of the first meeting will be of interest to banana growers:

Mr. Smith also asked the Board for an allowance of \$500 to be used in the importation of banana suckers from the West Indies and Nicaragua. He stated that the Department of Agriculture annually sent out agents to make collections of seeds, plants, etc., and this agent would send the suckers of the famous Bluefields bananas. The amount asked is to be used only in the payment for the banana plants and the cost of transportation. The board will be at no expense as far as traveling expenses are concerned. Mr. Smith stated that he had received a letter on the Doric mail relative to this matter, and there was a possibility that the Department would furnish both the man and the money required. Mr. Thurston stated that the money asked could not be put to a better purpose. He said that the Bluefields banana was what is needed in Hawaii, and he favored bringing the plants here in large numbers, so that it would be something more than an experiment. Otherwise it would take too long to properly begin the culture of the banana. He suggested that the Bluefields were what had been hurting the Hawaiian banana in the California market. It requires no wrapping, the bunches can be piled up like cordwood, the bananas didn't stick out from the stem, and the stem dried out instead of remaining sticky like the China banana.

Mr. Smith said that he had already received many applications for cuttings. In answer to a question he said that he believed the suckers could be brought through alive. He did not believe they could be brought here until December as the rainy season is now on in the West Indies. The expenditure of the amount asked was authorized.

CLEVELAND STOCK ADVANCES.

Change of Feeling Has Come Over the South.

Ever since the democratic convention in Iowa repudiated Bryanism and other populist vagaries Cleveland stock has advanced on the political market. Some of the most sagacious and best posted politicians of both parties now believe that nothing can prevent the ex-president from again being nominated by the democratic party.

The result, however, will come about naturally. What has happened in Iowa will happen in all of the states of the Mississippi valley. Bryan will be thrown over. The men who led the party prior to '96 will come back into their own, they will select the delegates to the national convention, and when that body assembles next summer it will be found to be in control of the former president's personal following. Bryan will have a small contingent in the convention that will do a great deal of talking, but will be powerless for mischief.

It is predicted that by the time the convention meets, every one of the so-called available, will be found to be impossible, Godman, while acknowledged to be a smooth politician, stands for nothing but expediency. Parker is respectable, but colorless. It is stated that he will be strong in New York, but at the same time he will have little strength elsewhere. Hill has trimmed so much that nobody trusts him, and he is very unpopular with a powerful element in New York. Neither the house of representatives nor the senate has developed any democratic leader of ability. Cleveland is the only man left whose stature is of presidential proportions.

It is clearly to be seen that the south has a different feeling for Mr. Cleveland than was entertained for him in that section a few years ago. His address on the race problem pleased the South immensely and the race problem is the supreme issue in the South just now.

If these facts be correct, Mr. Cleveland will have the delegates from New England, New York and the rest of the old middle states.

He will be strong in all the northern states west of the Mississippi. Already Iowa and Minnesota are quite ready to support him when the convention meets. These, with the solid south, can control the democratic convention, even under a two-third rule, and his nomination will follow:

In spite of the bitterness manifested by many democrats against Mr. Cleveland during the years he was in the ascendancy, and in spite of the fact that some of this feeling still exists, and in spite of the further fact that there is still considerable prejudice against three terms for any man, the fact remains that he is the strongest candidate the democrats can put up. There is something about the name of Cleveland that inspires. He preserved the integrity of our currency. He enforced the laws. Now that the republican senate can be depended upon to prevent him putting into action his free trade views, tariff reductions will not be feared. A larger campaign fund can be raised for Cleveland than for any other candidate.

If Cleveland should be nominated the battle would be concentrated in a few states—New York, New Jersey, Connecticut, Indiana, Illinois and perhaps Wisconsin. The issue would not be in doubt. Mr. Cleveland could not defeat President Roosevelt, but he might win two or three of the states named above, which any other candidate would most certainly lose. Two years ago Cleveland for candidate would have seemed ridiculous, but it now seems most probable and in a certain sense logical.—Exchange.

Bar Harbor, Maine, August 3.—The big American naval war game will take place along the Atlantic coast tomorrow. Rear Admiral Sands will command the portion of the fleet designated as the "enemy," and will attempt to get through the blockade established by Rear Admiral Barker, who commands the defense fleet.

Fresh Films Printing Paper and Photo Supplies

Received each month

We will develop your Plates or Films and print them for you. we are making a specialty of this work, and endeavor to give you the best possible results.

Kodaks and Cameras
at Eastern prices
