The Attack on Nanshan.
Washington, May 29th, 1904—(Received at 7 o'clock p. m.)
To Mr. Saito, Honolulu.
General Oku's report is as follows:
In the attack at Nanshan the fourth division formed the right wing, the third division the left wing, and the first division took the center. The enemy's force consisted of one division of field army and two batteries of field artillery besides fortress artillery and marines. The fourth division, taking advantage of the enemy's left wing weakened by bombardment from our fleet from Kinchow Bay, finally succeeded in carrying the enemy's position, and the other divisions immediately followed, whereupon the enemy retreated with much confusion, after burning magazines, toward Tarangshin. Our trophies were 68 guns and 10 machine guns, among many others. Our casualties were about 3500. The enemy left over 500 corpses on the field.

Strange Surgical Case.
New York, May 19.—A piece of slate pencil two and a half inches long and sharpened to a needle-like point has been removed from the right hand of Rosalie Layko, a 9 year-old Brooklyn school girl. The pencil had been working its way about the child's body since January last, when she swallowed it while at play. Efforts to remove it from her stomach then proved of no avail and for several weeks she has complained of pains in the side and shoulder. Finally the object moved down through her arm and caused the hand to swell. The doctors were greatly astonished upon applying the lancet and encountering the hard piece of slate.

THE HIGH SCHOOL AFFECTED.

Principal Scott Makes Appeal to Parents For Financial Aid.

Owing to the 20 per cent. reduction in school teachers' salaries, the High School will be compelled to suspend or run with a decreased teaching force. A number of the High School instructors, including Vice-Principal Lull, have signified their intention to seek positions elsewhere if the cut is made, as proposed. Principal Scott, in order if possible to preserve the efficiency of the teaching force, has issued a letter to all parents, soliciting financial support. He states, it is impossible under this cutting of salaries to retain the present high efficiency in the school, as many of the best teachers intend leaving July 1st when the reduction begins. If the parents or guardians are willing to pay 25 cents per week or one dollar a month per pupil, the aggregate sum will be sufficient to pay the 20 per cent. reduction, and thus keep the present corps of teachers. If parents cannot afford this tuition, they are requested to contribute what they can afford. The authorities wish it distinctly understood that the tuition fee is entirely voluntary and will not be asked longer than the Legislature can make other financial arrangements.

The Kinchow Battle.

The following are further details of the attack of Kinchow:
Our force commenced the attack on the enemy at Nanshan at 3.25 in the morning. The enemy's defense works were of nearly a permanent nature and the enemy's artillery consisted of fifty guns of various calibres and two quick-firing field artillery companies. The enemy's infantry were ranged in two or three lines of covered trenches with loopholes, with machine guns set, at the important points, and offered stubborn resistance. We brought all our field guns into range upon the enemy's forts.
The enemy's principal artillery was silenced at 11 o'clock a. m., while the quickfiring previously retired to Nankwanling and kept up firing till night. Our artillery concentrated fire upon the enemy's trenches and our infantry advanced within 400 to 500 metres of the enemy, but encountered wire entanglements, mines and trenches, while an unabated fire was maintained by the enemy's infantry and machine guns.
We further approached within 200 metres of the enemy but several charges still proved unsuccessful, though officers and men fell at 20 or 30 metres from the enemy. Whereupon our artillery opened with preliminary firing. In the evening, with severest cannonading, a breach was made in the works, through which the last charge was made and we gained the whole heights, expelling the enemy and capturing all the guns in the forts.

Memorial Day Catastrophe.

Sedalia, Colo., May 31.—During the Memorial Day observance here, the ceremony of casting flowers into the Arkansas river was in progress when the bridge collapsed, precipitating a crowd of people into the water. Twenty-four are known to be dead, while others are missing.
