While the Agents of many Life Insurance Companies are petitioning their Officers for the ANNUAL DIVIDEND policy, it is a source of great satisfaction to the Policyholders of the Pacific Mutual to know that their Company has been issuing almost nothing else for years.

No petitioning necessary for liberality with the good old Pacific Mutual.

The Directors of the Company are by the California law made jointly and severally liable for all monies EMBEZZLED or MISAPPROPRIATED by the officers during the term of office of such Director. Quite a provision from the SECURITY STANDPOINT, considering what has recently occurred.

The best policies are issued by the best Company on Earth for policyholders.

## HAWAIIAN PLANTERS WILL REFINE SUGAR

In about three months the machinery of the gigantic refinery of the California and Hawaiian Sugar Refining Company will be in motion. Some months ago this company secured the property now occupied by them at Crockett, Contra Costa County, and an army of men have since been busily engaged in fitting this great plant for the purpose to which it is to be put, the refinery of sugar. The huge buildings in which are located the machinery, will be models in their appointments and of the most modern construction. The docks are large and provide ample accommodations for the loading and unloading of the raw and finished product. The shipping facilities of this company are unequalled as the plant is located immediately alongside the Southern Pacific Co.'s tracks, which, with the docks, furnish transportation to all parts of the world.

The company owning this refinery, and who will be in control of its management is composed of Hawaiian planters and their close associates in San Francisco. This company have entered into contracts for a term of years, whereby it secures the control of over 82 per cent. of the island output of sugar. An inexhaustible supply of the raw product is thus assured, which guarantees to the trade of this coast an absolutely pure product.

This refinery will no doubt compete for a part of the trade of the Pacific Coast and it is expected the wholesalers and retailers will cooperate with the refinery, as the benefits of wholesale competition are manifest. The refining operations will be under the supervision of Mr. Max Lorenz whose experience in the great sugar refineries of Germany, followed by his more recent work in the production of raw sugar in the Hawaiian Islands, has eminently fitted him for the oversight of the immense factory of the California & Hawaiian Sugar Refining Company.

The administration of the affairs of the company is in the hands of the following directors:

R. P. Rihet, President, (Welch & Co.)  
Wallace M. Alexander, Vice-President, (Alexander & Baldwin, Ltd.)  
Frank B. Anderson, Treasurer, (Bank of California).  
Warren D. Clark, (Williams, Dimond & Co.)  
Albert Meyer (Bank of Daniel Meyer).  
James Rolph (Hind, Rolph & Co.)  
George E. Fairchild, (Merchant).

Mr. George M. Rolph, of San Francisco, has been appointed manager with full power to attend to the active business interests of the corporation.

With the latest and most improved methods in force at the plant of The California & Hawaiian Sugar Refinery it is perfectly certain that the quality of the product will be of the best, when it is further considered that they have practically the entire output of raw material from the Hawaiian Islands. Of the quality of the raw product from these Islands much might be said, but suffice it to say that they have long since taken the lead in the production of a rare high quality of raw sugar.

### New National Bank at Wailuku.

Wailuku, Jan. 13.—The Lahaina National Bank has been organized and incorporating papers have been forwarded to Washington by C. D. Lufkin, the promoter. The bank has been capitalized at \$25,000, all of which has been subscribed and fifty per cent. of which has been paid. The Lahaina National Bank will be under the same management as the First National Bank of Wailuku, and the stockholders will be, as far as possible, identical. The temporary directors are C. M. Cooke, president; C. D. Lufkin, vice president; F. C. Atherton, cashier; P. C. Jones and C. H. Cooke, directors.

Mr. Lufkin hopes to receive authority from the Comptroller of the Currency to begin business about January 17, and anticipates that the bank will be open for business soon after February first next. The First National Bank of Wailuku has been in business just four years and its success is clearly set forth in its fourth annual statement, which has recently been sent out.

### Sale of Wireless System.

The wireless system has been sold under foreclosure to Frank E. Thompson, trustee, for \$5,100. There was quite a crowd at the sale, but the bidding did not last long, and Thompson led all through. The sale was under a foreclosure proceeding in the case of Thompson, trustee, against the Inter-Island Telegraph Company, in which the total judgment amounted to \$4,325.59. J. F. Morgan conducted the sale.

Among those present were C. J. Hutchins, J. M. Riggs, R. W. Shingle, E. O. White, F. E. Richardson, C. F. Clemons, C. A. DeCew, John Cassidy, Judge Whitney and G. W. R. King.—Honolulu Star.
