An Interesting Day Promised at the Races.
Hoolulu Park was built by the Volcano Stables in 1899. The first few meetings were largely attended and the enterprise was very successful. Meetings, however, were only held twice a year, on January 1 and July 4. The racing stock was almost wholly imported from the coast, and had to be kept in training almost all the year. This, in addition to the cost of the horses, was a heavy expense which few people could afford to stand. Interest therefor began to lag as fewer horses were kept in training. It became evident then that it was useless to think of making a success of race meetings with California horses, and besides, there was nothing of benefit to come out of it except the enjoyment of seeing the events.
A prominent rancher, about a year ago, realizing these facts and wishing to see something done towards the cultivation of our Hawaiian-bred horses, went to the Volcano Stables and asked their lowest figure for the racing course. A satisfactory figure having been obtained, he immediately circulated a stock subscription paper, secured a sufficient amount of capital and the Hawaiian Jockey Club, Ltd., came into existence. Their first step was to purchase Hoolulu Park. Under their auspices three meetings have been held, good racing has prevailed and the noble sport was started in the right line for a permanent up-building on the Island of Hawaii.
The next meeting will be held on February 22nd at 1:00 p. m. A number of the best bred Hawaiian horses from the different ranches will enter in the races. You will miss a good time if you are not present.

Death of Alexander Dauphny.
George Alexander Dauphny died at the home of his daughter, Mrs. Captain Fitzgerald, in Hilo, Saturday night, in the seventy-third year of his age. The funeral services were conducted by Rev. C. E. Shields, and were held at the home of Captain and Mrs. Fitzgerald at 3:30 Sunday afternoon, February 11. Death resulted from heart failure after an illness of about three months and occurred at 12 o'clock.
George Alexander Dauphny was born near Chester, Lunenburg county, Nova Scotia, June 30, 1833. When a young man he went to Stillwater, Minnesota, where he married Eleanor Carlow. He crossed the plains in the 60's and finally settled with his family in Eureka, California.
Ten years ago he came to the islands where he engaged in coffee planting in Oahu.
There were four children, three of whom are now living, William Gay, and Arthur Chester, now residing in Eureka, California, and Mrs. John Fitzgerald of Hilo.
He was the youngest of a family of ten, two of which, now living in Nova Scotia, survive him.
The remains will be sent to Eureka and laid by the side of his wife in Myrtle Grove Cemetery.
Mr. Dauphny was a man much beloved by his friends, who now mourn his loss.

Kinau Departures, Feb. 9th.

Shepard and wife, L. Nevin, O. Donohue, B. H. Brown, J. P. Brown, Chas. Levy, Theo. Wolff, Miss M. D. Nevin, Mrs. J. P. Atkinson, G. P. Wilder, S. G. Wilder, S. B. Dole, J. A. Sackley and wife, John T. Moir.

New Form of Passport.
A new form of Japanese passport came to the notice of Mr. Affonso during the week in the performance of his duties in the tax office. This passport contains, in addition to the usual statement that the rightful holder is entitled to admission, protection, etc., the important qualification "in Hawaii only." It was issued in Japan some time in December, and the new condition is in line with the information received recently by the TRIBUNE, that the Japanese government had adopted a new regulation permitting a greater number to emigrate, but restricting the emigrant to the Hawaiian Islands.

County Clerk Pua has received word, unofficially, that as a result of the county attorney's visit at Kailua, several names have been withdrawn from the petition asking for the removal of Deputy Sheriff Keliho, but that another petition had been drawn up.
The Lehua, that has been engaged the past two weeks in demolishing the hull of the Martha Davis, that was burned in the harbor, left for Honolulu Sunday. Two blasts were set off Saturday, blowing out the two ends of the wreck, and, incidentally, covering the surface of the bay near by with fishes killed by the concussion. The divers remain, and R. T. Guard will supervise the completion of the work. It is rumored that the Lehua has been sold to one of the fishing companies in the northwest and that Capt. Anderson, who arrived by the Enterprise, was purchasing agent.

THE INSURANCE SITUATION.

Interview With W. A. Wann, Mutual Life's New District Superintendent.
Mr. W. A. Wann of Oregon, who has recently taken charge of the affairs of The Mutual Life Insurance Co., of New York, as district superintendent for the Territory of Hawaii, is in Hilo looking after the interests of the company.
When asked about the insurance situation since the investigation by the New York Legislature, he stated that great changes in the management had been made recently; some of the best men in the financial world taking the positions left vacant by the resignation of former officials. The old General Agency system, with its heavy renewal contracts, has been abandoned and the new managers are placed on a flat salary; this change will save large sums annually for the policyholders.
Mr. Wann remarks with regret that many half-informed policyholders in good companies have allowed "twisters" to persuade them to lapse their policies and take up new ones in other companies at loss to themselves; for more money has been lost by policyholders from this cause than by all the irregularities brought out by the investigation.
The following statement is issued to policyholders and to the insurance public of Hawaii:

THE COMPANY FINANCIALLY UNASSAILABLE.
"Remember that, with all the reckless talk in the newspapers about syndicates and salaries and subsidiary companies, the securities of the Mutual Life have not been criticised nor their perfect safety questioned. The investments of the Company were an open book in the hands of the Investigating Committee; every loan, every bond, every security of any description was before them—four hundred and fifty millions and more; and not a single item was discredited, and not a single investment of any sort was classed as doubtful.

"As ever, the Mutual Life is still the strongest financial institution in the world, with a reserve \$35,000,000 larger than that of any other existing company, and with a contingent guarantee fund, or accumulated profits, of \$75,000,000 in excess of its legal liabilities.
"It is still true, as it has always been, that the Mutual Life has paid more to policyholders, and holds more today for policyholders than any other company in the world. Nearly seven hundred millions to date has the Company disbursed to its members and their beneficiaries, making, with what it still holds for them, nearly one hundred millions more than it has received from them."

The Mutual issues a wider range of policies than do other companies. You are cordially invited to examine our Protection policies and Investment policies and see for yourself that we can give you any form you may want, with guarantees and rates bearing out the statements made above.
Prompt attention given to requests for information. Call on or write to
W. A. WANN, Dist. Supt.
Honolulu, T. H.
Office with Trent & Co., 932-938 Fort Street.

The band concert Thursday evening attracted an unusually large crowd to Hotel square. The band was reduced in number and consisted of selected players. The music was well received, some of the numbers being applauded. The fine night added its charm to the performance till the eclipse began; a feature added to the program that most had forgotten to anticipate and that took a large part of everybody's attention.
